That Merger Has Caught Up With Orders is Statement Given Out

Winnipeg, July 31.—That the Canada Cement Company has caught up with its orders was the statement made today by W. P. S. Johnson, sales manager for this city. The price, he said, had not been cut in western Canada by reason of the cut in duties, and he pointed out that the price the com-pany has been quoting F.O.B. Winnipeg is cheaper than at any time in the history of the cement business except for the period three years ago when a price war was it progress.

He further pointed that figures published vesterday regarding the com-pany's successful tender to the city of Winnipeg for 25,000 barrels, are incorrect to the extent of 30 cents a bar-rel, the real net price being \$1.95, which is 15 cents under the price paid last year by the city to the Lehigh Portyear by the city to the Lenga Port-land Cement company, an American firm. This mistake arose through a miscalculation by civic officials of the rebate of 40 cents per barrel on bags returned. Asked whether he could sug-gest a reason for failure of American tenders, he said that it was probably owing to the demands of their domestic ousiness, which at the prices now prevailing was the more profitable. This is the first time the company has ten-dered direct to the city, and the price of \$1 95 includes 70 cents freight be-

Rent collecting in Dublin is a lively Rent collecting in Dublin is a lively occupation according to a case heard in the Southern Police Court, the result of which was that both men concerned were committed for trial. The rent collector, Philip Gleeson, said he went to collect rents at a house in New Row South, when a man named Doyle struck him a severe blow on the face, and dazed him. He tore the collar, tie, and shirt off him, caught him by the legs, and sought to upset him. In the struggle the two of them fell on the stairs. Witness struck Doyle in self-defence, and he was in a very exhausted condition, as the other had him by the throat, and was bumping his head against the wall.
