Italian Mission in Washington Gives Details of Situation on Italian Front: Green Troops Retreated Washington, Oct. 29.-Lack of mat

ial, munitions and guns and much used troops on the right wing in the fas of an overwhelming Austro-Germa force coming from the Russian borden are the causes assigned by technical e perts of the Italian mission here f There must be a reformation of the fighting lines, they say, and a resump-tion of the Italian offensive cannot be expected before next spring, the campaign meanwhile being, of necessity, on defensive lines. (Members of the mission are confident

that relief and assistance will be com-ing very soon from Italy's allies. Mea are not wanted. Italy has an abund-ance of men. Munitions, steel and ance of men. Munitions, steel and cannon and last but not least, food, are what must be had at once.

lack of ammunition. Up to Allies to Help That the allies will now make ev effort to supply the Italian army is not doubted. Last week the Italian embassy here learned that the American shipping board had allotted 25 ships of 100,000 tons to Italy and these ships should be able to carry not only ammunition but supplies of food to the Italian people and thereby relieve the internal political strain.

In throwing her enormous against the Italians, the mission here believes, Germany has played her greatest card. The Italians when turnad back were within 35 miles of Lau bach, which in the opinion of the Italian general staff, was the key to success and the capture of that place by the Italian forces would have meant the would cause the defeat of Germany.

critical situation on the Italian front has received and is receiving the prompt and sympathetic consideration of the French and British governments. It is understood that the Italian commender-in-chief already knows that he may rely upon the most prompt and fullest support t may be in the power of the allies to give.

That Great Britain and France must go promptly to tlaly's help is the view expressed by several morning newspapers. The Times, which prints 8 statement implying knowledge that

such help is contemplated, says editor-"Our word to the people of Italy is to stand firm for help will surely "We will not be deprived of the fruits of the ultimate victory for which she has battled so long and so arduously. In the truest sense Isonzo is our front

as much as the Somme and now that It has collapsed we must do our utmost without delay to repair it. There is no need for alarm, but there is the utmost need for promptitude and broadness of The Daily Chronicle, taking a similar view, says it ought to be possible to have British or French divisions of both, in northern Italy in a very short time. The Daily News, on the other hand, while holding it encumbed on the allies to consider how best to suc-cor Italy, thinks it is impossible to
