About a dozen members of Dominion No.  
4, I. O. F., went to Mt. Brydges on Fri-  
day afternoon for the purpose of having a  
friendly game of baseball with the team  
of that place, and to assist them in some de-  
gree work in the evening in their hall.  
When the umpire called "time," "play  
ball," the visitors were much surprised to see  
Mr. R. Lucas, the well-known twirler of  
the Delaware club, step into the box with  
"Batter up," of course, as his receiver.  
On making further inquiries the Londoners  
saw three other imports. The home team  
took the lead and held it, giving the visitors  
a good drubbing, but used them right  
sly after the game, a thing which the  
visitors of Mt. Brydges are noted for.  
Following is the score by innings:

**A SUCCESS FOR SYRACUSE WANTED.**  
SYRACUSE, July 17.—The Eastern League  
held a meeting on Monday last at which  
was fully discussed the weakness of Syra-  
cuse and its probable withdrawal. Since  
then the eyes of the Eastern proprietors  
have turned longingly toward Toronto. If  
anything like fair arrangements can be  
made Toronto will take the place of Syra-  
cuse, says Mr. McClelland, of Toronto, is  
not indisposed to take an active interest  
again in baseball. All the Buffalo people  
favor Toronto. The Eastern contingent  
think Jersey City right, while President  
White has faith in Utica. If Toronto  
wants the place, however, Toronto can  
have it.

Unscrupulous manufacturers of medicine  
are offering to supply the retail druggists with  
an article put up in RED wrapper, almost  
identical in general appearance, and closely  
resembling in every detail to Carter's Little  
Liver Pills.

In this way they hope to profit by the merit  
of Carter's Little Liver Pills, and palm off an  
imitation on the unsuspecting sufferer and  
purchaser.

It is the source of wonder to honest people  
that there are men ready and willing to perpe-  
trate such frauds.  
Let them beware. A day of reckoning will  
surely come. There are "upright judges" in  
the land who will punish such people.

plication for the team.

Three of the best clubs of London, Ham-  
ilton and Toronto have entered for the  
baseball tournament to be held in Tilson-  
burg on Aug. 5 and 6. Word has been re-  
ceived from eight clubs, and it is now  
expected that the best games ever wit-  
nessed at a tournament in Canada will be  
seen here. Chub Collins will act as one of  
the umpires, and the best of satisfaction  
can be looked for by both participants and  
spectators.—(Tilsonburg Liberal).

club house at once. The club regatta will  
take place on Aug. 1.

**THE TRIGGER.**

**MR. NICHOLSON'S CLEVER SHOOTING.**  
The first of the London Gun Club Friday  
guaranteed shoots came off Friday with  
great success. The contest was a handi-  
cap. A class shooting at 25, 30 and 40  
yd. Mr. H. A. Nicholson, of C. class,  
emerged victorious with a very creditable  
total, 20, 20 and 20. The city solicitor  
received a hearty round of applause  
for his clever work.

"Greener" (B) was a close second with 19. Fol-  
lowing were the other scores: Redpath  
(A) 18, Edwards (B) 18, Harris (B) 18,  
W. H. A. Nicholson (C) 18, Paine (B) 18, Stanley (B) 17,  
Brewer (B) 17, Evans (A) 15, Herbert  
(C) 15 (24 targets). The special prizes were  
\$8, \$4, \$3 and \$2 respectively for first, sec-  
ond, third and fourth. Another shoot will  
be held next Friday on the rapid firing  
plan. These events are doing good work  
in bringing out the talent, thus enabling  
the members to be properly classified.

**ATLETICS.**  
Most of the high jumpers are very tall  
men. Nickerson, with a record of 6 feet  
1 inch, and Davis, the great Irish jumper,  
with a record of 5 feet 9 inches, are both  
6 feet 1 inch in height. M. J. Brooks, a  
good university jumper, whose record is 6  
feet 2 inches, is just a quarter of an inch  
short of six feet. P. J. Kelly, bearing and  
Pritchard are all six feet tall jumpers.  
Pays, however, is the most wonderful high  
jumper the world has ever seen. He is  
only 5 feet 5 inches in height, and yet he  
can clear a bar 6 feet 4 inches high—93  
inches higher than his own head.

**Toronto, July 18.**—The match between  
the Toronto and Germantown P. C. cricket  
clubs commenced yesterday. Germantown  
went first to bat and scored 62. Toronto  
followed and made 79. The Germantown  
team began their second inning, and when  
play was stopped they had made 30 with a  
loss of six wickets.

**DRUGGISTS.**  
Mr. Wyllie says he is ready to play

not unlike draughts, which they play with  
board with four rows of holes, and stones  
representing men. When they have no  
board they simply dig holes in the ground.

Mr. Reed has published a letter in which  
he says he is willing to play a match with  
Wyllie, Kennedy, J. H. Brown, C. Wright, W.

**LAWN TENNIS.**  
Toronto, July 18.—The Canadian Lawn  
Tennis Association's annual tournament  
came to a close yesterday. The junior  
players carried off the prizes, but only after  
a keen contest. The all-comers' prize has  
gone to the noted Boston crack, Mr. F. S.  
Mansfield. Mr. Mansfield carries back a  
handsome silver chalice jug to Boston to add  
to his numerous collections, while the  
challenge cup he leaves in the keeping of  
the association. It will become his prop-

entry when he wins it three times. The

**TERRIBLE ACCIDENT.**  
On the Line of the Manchester Ship  
Canal—Eleven Men Killed.

LIVERPOOL, July 18.—A terrible accident  
occurred this morning along the line of the  
Manchester ship canal. A train passing  
along the railroad running near the canal  
killed eleven men who were working  
under the sealing. Many other workmen  
were injured.

The accident was due to the fact that the  
pointman, a boy 17 years of age, mistook  
the points, and turned a railroad train con-  
sisting of 22 wagons into a cutting. The  
boy pointman ran away, but was captured  
later in the day and charged with man-  
slaughter.

The capital of the suspended English  
bank of the River Platte is \$7,500,000, half  
of which is paid in. The other half of the  
capital is only applicable in the event of the  
bank's liquidation.

**CITY AND COUNTY.**  
Meeting of the Finance Committee—  
Subsequent Talk with the  
County Councilors.

The regular meeting of No. 1 Committee  
of the Council was held last evening.  
There were present: Aldermen Spencer  
(chairman), Ivey, Taylor, Judd, Gartshore,  
Wilkey, Mayor Taylor and Secretary Pope.  
A communication from Mr. Dugg was read  
respecting the railroad desired by Ald.  
Winnett running close to his property. The  
chairman will refer the matter to the  
committee. Then report back to the com-  
mittee. George Dowling appealed against  
being assessed \$400 income for 1920. It  
was recommended that the appeal and like-  
wise one of a similar kind of Mr. McLean be  
granted.

The ADVERTISER was awarded the con-  
tract for the city's printing for the year,  
the advertising to be divided between the  
city dailies. John Mills received the  
contract for stationery and John Chapman  
for bookbinding.

A communication from the water com-  
missioners stated that the latter would re-  
mit no more water rates for charity's sake  
unless authorized by the Council. Referred  
back.

**THE AMALGAMATION ACCOUNTS.**  
County Councilors McLaughlin (Edfrid),  
Hodgins (Biddulph), Calvert (Metcalfe),  
Gilmour (Dorchester) and County Auditor  
Stanley afterwards met the city Finance  
Committee with the city solicitor in the  
Council Chamber to discuss the accounts  
between the two municipalities re the  
amalgamation of South London.

An account of \$23,391 was presented by  
the county as due from the city, \$15,293  
of which was claimed for three bridges.  
The city solicitor objected to the latter, on  
the ground that the bridges were included  
in the county debt, and that the city did  
not pay for the payment of assets. This  
matter was left in abeyance until the  
county solicitor's opinion is ascertained.

The county debt share of \$14,435 on the  
91-45 convention passed provided the city's  
contention on the bridge question was  
agreed to.

The assets allowed by the county were:  
House of Commons, \$221; P. P. for  
\$2,288; wooden bridges, \$896; cash on hand  
May 1, \$1,036; county buildings, \$1,096;  
total, \$6,337. The city solicitor thought  
for his client that the county should  
pay \$28,000, instead of May 1.

In addition the city claimed \$200 on hos-  
pital account and that \$638 should not be  
paid by them to the county for running ex-  
penditures of South London from Jan. 1 to May  
1, the county having collected the taxes  
there for that time.

An adjournment was made until the re-  
turn of the county solicitor.

Gracious Compliment to Prominent  
Canadian Preceptors of Education  
—A Speech by Dr. Oran-  
hyatka.

Toronto, Ont., July 17.—At this morn-  
ing's session of the National Educational  
Association the Committee on Honorary  
Members recommended the elections of  
Hon. G. W. Ross, Ontario Minister of Edu-  
cation; J. L. Hughes, Inspector of Toronto  
public schools; Prof. Goldwin Smith; Prin-  
cipal Grant, of Queen's University; Prof.  
Clark, Trinity University, and E. Bras-  
ford, secretary of the Protestant Council of  
Education, Quebec. The report was car-  
ried by a standing vote and hearty ap-  
plause.

A feature of the session was an address  
on the education of Indians in Canada, de-  
livered by Dr. Oranhyatka, who was re-  
ceived with round after round of ap-  
plause. He spoke of the education of the  
Indians of Canada as a Mohawk—a full-  
blooded Indian in tribal relations—and  
briefly sketched the history of the tribe  
during the revolutionary war; and, after  
the close of the war, when the British  
and their Indian allies got the worst  
of the little unpleasantness, how they emi-  
grated to Canada rather than remain under  
the Stars and Stripes. "I do not know,"  
said the doctor, "whether that was to the  
credit of their heads, but you will at least  
give them credit for fidelity to their friends,  
the British." Continuing, the doctor sketched  
the progress of educational work among  
the Indians of the British territories from  
the year 1827, when the first day school was  
established by the Government. It was on  
the Six Nations Reservation, and this  
movement, as well as that of the  
New England Society and the Church Mis-  
sionary Society, had done much to place  
Canadian Indians upon a high plane.

A quiet poke was administered to Principal  
Grant of Queen's. "My friend," said the  
doctor, "you last night that the early  
settlers here had much to contend with  
from the savage forest, the still  
unconquered wilderness, the trained armies  
of France. Now, the fact is, we, too, had  
a great deal to contend with in coming into  
contact with uncivilized white men."

The speaker, a copy of the speaker  
which Dr. Grant pointed to show that the  
Mohawks had come early under the in-  
fluence of civilization and profited by it,  
he told the story of the first Protestant  
Church in Upper Canada, was built  
by Brant's Indians on the reservation. In  
1842 the prayer book was translated into  
Mohawk and published in the  
tongue of the Indians.

There are in Ontario and all the Prov-  
inces eastward 27,829 in Manitoba and the  
Northwest 24,159, and in British  
Columbia 23,829. Of the 75,  
000 Indians in Canada 14,963 are of  
school age. There are 210 day schools,  
5,649 registered pupils and 2,902 in aver-  
age attendance. There were 19 in-  
structional schools; and in passing he ex-  
pressed the belief that they were the only  
proper places for the education of Indian  
children. Turning to the political status  
of the Indian he told amid cheers how  
they had been enfranchised and had  
shown the fear of their Majesty's loyal op-  
position that they would all vote on the  
franchise. At a meeting of the  
franchise in power to be unfounded.  
They voted almost half on one side and  
half on the other, and on the Six Nations  
reservation in the first election enfran-  
chisement there was not one spoiled ballot.

"We are of opinion," he added, amid  
laughter, "that the stupid voters are confined  
entirely to our white neighbors." At the  
close he expressed the belief that the  
proper educational facilities, the red man  
was not inferior to the white, and  
pleaded for a more liberal treatment of the  
Indians over the border. At the close the  
doctor was accorded a most enthusiastic re-  
ception by the delegates who crowded  
around the platform.

The last meeting of the convention was  
held in the Caledonian rink and was lar-  
gely attended and enthusiastic.

**PLUMBERS ON STRIKE.**  
Demands for Higher Wages and Shorter  
Hours Refused.

All except three of the local journeymen  
plumbers, gasfitters and steamfitters struck  
work Saturday. At a meeting of the  
craftsmen, held Friday night, James  
Greenway, spokesman for the former,  
asked for a week more in which to come to  
a final decision, but this the men declined,  
as they thought they had waited long  
enough. An employer asserts that for some  
time past the men have had the mistaken  
idea that the bosses, aided by the con-  
tractors, have been holding back the  
work.

Already a number of the master plum-  
bers and gasfitters have written away for other  
men to fill the vacancies caused by this  
stoppage. The demand is 12 That their  
day shall consist of nine hours for five  
days in the week and five hours on Sat-  
urday, thus making 50 hours constitute a  
week's work. 2 That for each hour they  
work overtime they be paid at rate of  
time and a half. 3 That they be paid  
25 cents per hour and receive the  
week's wages Friday afternoon.

This, he says, is the demand. 1 That  
the bosses and the contractors should  
for the first year and after that half  
journeymen's wages. They now work 50  
hours a week and receive \$12 wages.  
The boss and the contractor will be of much  
importance to them as work is rather  
scarce. The men feel perfectly confident  
that they are in the right and have not  
been treated fairly.

**Characteristic Letter From Mr. Glas-  
stone.**  
London, July 18.—Mr. Gladstone has  
written a letter in support of Mr. Brand,  
a candidate for Wiesbach, in which he says:  
"My physicians will restrain me for some  
months to come from the public use of my  
voice. I have, however, will be an ad-  
ditional proof that the country is de-  
termined to shake off the incubus of the  
Irish question."

**THE CONGREGATIONAL UNION.**  
A Pleasant Reception—Christ as Mas-  
ter, Man as Brother.

London, July 18.—At a reception given  
last evening to the delegates of the  
Congregational Council in London Guinness  
Rogers congratulated the council upon the  
presence of Americans, which he said,  
would insure more independence than ever  
into the blood of Britons.

Dr. Bradford, of Mont Clair, N. J., said  
the delegates had continued series of wel-  
comes, and he hoped they would have a  
chance to return the kindness. He thought  
a more intense evangelistic spirit prevailed  
in America than in Great Britain. Still he  
would that both the English and the  
Americans desired to know God better. He  
described the Congregational clubs in  
America, and advised the adoption of such  
clubs in England as a fresh element in the  
promotion of Christian work.

Rev. Tasanka Harada, of Japan, said he  
was proud to be called a descendant of the  
Puritans. Congregationalism in Japan,  
though the youngest child of the church,  
numbers 10,000 members.

Rev. Mr. Hedley, of Winnipeg, com-  
menting on the presence of colored brethren,  
said the words which Congregationalists  
most liked to pronounce were: "Christ  
Master, man as brother." The reception  
was a great success.

**THE BUSINESS OUTLOOK.**  
As Seen by Bradstreet's Observant Cor-  
respondents.

NEW YORK, July 18.—Among telegrams  
to Bradstreet's from leading trade centers  
these from Boston and Minneapolis are re-  
markable for reporting increased activity  
in several lines. The boot and shoe  
factories have resumed full time. Pur-  
chases of leather are freer. Wool is rather  
more active, and there is better request  
for woolen goods. Wool markets at Phila-  
delphia, Cincinnati and St. Louis show no  
signs of a revival, and woolen goods mills  
at Philadelphia report no improvement in  
the condition of the industry. Elsewhere  
the wholesale trade in general is fair  
for the season without being brisk.  
Hides and lumber continue quiet, as do  
iron and coal. Crop reports continue un-  
favorable as to wheat, sugar, rice and  
cotton. Corn, too, has improved.  
Merchandise collections are notably slow  
owing to the activity of work on the farms.  
There is a tendency reported at northwest-  
ern and western cities to scrutinize credits  
and to curtail time on which goods are  
sold. The total of weekly exports of  
the United States (including flour and  
wheat) is about 2,220,000 bushels.  
Stock speculation is at a standstill. The  
business and financial markets are in a  
customary summer dullness is aggravated  
by caution as to the future of the money  
market, while call money is superabundant  
at 2 per cent; time loans for six months  
demand 6 per cent, indicative of apprehen-  
sion of higher rates when the West calls for  
money in aid of the crop movement.

**IN CANADA.**  
General trade throughout the Canadian  
Dominion presents few new features. Dry  
goods are fairly active in Ontario, and  
groceries in Quebec. At Montreal ocean  
freights are active, also crop prospects  
generally are excellent. The Dominion re-  
ports 32 last week and 21 this week last year.  
The total number from Jan. 1 to date is  
1,076, against 920 last year.
