DEATH OF MRS. DANIEL DEACON.

Many residents of this city and the surrounding district will be grieved to learn of the death of Mrs. Daniel Deacon, which occurred last night at the family residence, 55 Bruce street. Mrs. Deacon was born at Malahide, East Elgin, 77 years ago, and after her marriage she lived at Belmont, moving subsequently to this city. Until a short time ago she was in good health. A slight cold developed into pneumonia, and she was seriously ill for only five days. She was an es-

timable woman, and her death, coming even at such an advanced age, will cause sorrow to a very many friends. Mrs. Deacon's husband, who is in his 85th year, survives her, together with the following family: Mrs. L. G. Jarvis, Montreal; Mrs. C. R. Newall and Mrs. Robert Finn, Mr. John R. Deacon and George B. A HAPPY AFFAIR.

A happy affair was the gathering of Camp Flower o' Dumbane, S. O. S., last evening, when Secretary G. E. Saunders was presented with a watch chain, engraved with the emblem of the order. The presentation was made by Past Chief R. K. Cowan and was suitably acknowledged by Mr. Saunders. Rev. Dr. McCrae, of Westminster, the grand chaplain of the order was present, and gave an interesting address. Several members of the camp also contributed to the enjoyment of the evening.

The league is in a flourishing condition at present, and has promised to pay \$100 of the \$2,000 now being paid off the church debt. One hundred dollars have already been collected for that purpose.

GOOD-SHIPLEY.

A quiet wedding took place yesterday, at 1 o'clock, in Memorial Church, when Mr. Joseph Good was united in marriage to Miss Maggie Shipley. Rev. C. C. Owens performed the ceremony. The bride was charmingly attired in blue henrietta, white taffeta silk trimming, and carried a shower bouquet of white roses and carnations. She was attended by her niece, Miss Lizzie Haldane, who was becomingly gowned in grey serge, with a bouquet of white carnations. Mr. Will Frank, nephew of the bride, supported the groom. After the ceremony the party returned to the residence of the bride, 402 Dundas street, and after customary congratulations, entered the spacious dining-room, where a sumptuous wedding dinner was served. Mr. and Mrs. Good left shortly after for their country home near St. Johns. Their many friends wish them long life and happiness.

A MUTINY VETERAN.

At the city hall today an aged man approached the mayor for a pass to Amherstburg, where he once made his home. Though decidedly weak physically, he gave every evidence of a possession of a remarkable memory.

In the days of the Indian mutiny he was a lusty soldier in a regiment stationed there. To a coterie of hearers, the old man gave a graphic description of burned towns, sieges and forced marches that were incidents of the mutiny. Subsequently he voyaged to South Africa, and then came to Canada. "I'm sorry I ever came to London," he said. "I have not been treated well." Inspector Bell thinks he may blame no one but himself for his treatment he has received. When the inspector offered to send him to Amherstburg, where the old man demurred, asking until Monday to gather his effects together. Mr. Bell considers that a man whose baggage is so extensive should pay his own way.

"I was suffering I tried many of the advertised medicines and also doctors' prescriptions, but never found a cure until I procured a supply of Paine's Celery Compound. UNUSUAL SCENES IN CHURCH

At the Consecration of an Archbishop.

Remarks of John Kensit, Anti-Ritualist, Create a Noisy Demonstration.

London, April 17.—The scene in Bow Church today during the consecration of Right Rev. A. W. Ingram as bishop of London, resembled a political meeting rather than a religious service. Mr. John Kensit, the anti-ritualist, entered an expected protest against the appointment. He spoke for some time in a loud voice. His remarks caused an extraordinary uproar, and he was greeted with cheers, hisses and shouts of "Order!" "Shame!" and "No popery!" Mr. Kensit accused Dr. Ingram of being unfaithful to all his promises when he was consecrated bishop of Stepney, adding that he had helped lawbreakers and encouraged idlers, who in defiance of the law, contained an expected protest against the appointment. He spoke for some time in a loud voice. His remarks caused an extraordinary uproar, and he was greeted with cheers, hisses and shouts of "Order!" "Shame!" and "No popery!" Mr. Kensit accused Dr. Ingram of being unfaithful to all his promises when he was consecrated bishop of Stepney, adding that he had helped lawbreakers and encouraged idlers, who in defiance of the law, contained an expected protest against the appointment.

The friends and opponents of Mr. Kensit became so uproarious that the vicar-general tried to clear the church. Dr. Ingram appealed to his friends to listen quietly. Eventually the vicar-general overruled the objections and the election of Dr. Ingram was confirmed.

Disorderly scenes and hustling occurred outside the church. Finally Mr. Kensit was escorted home by a score of policemen and followed by a howling mob.

NEW LIGHT ON QUEEN VICTORIA'S REIGN.

New York, April 17.—The Quarterly Review, according to the London correspondent of the Tribune, contains a remarkable article on Queen Victoria, unsigned, but evidently written from a precise intimate knowledge during a period of 50 years. It throws a new light upon many secret passages in the Queen's characteristic traits of trenchant humor and racy talk. The explanation given of the Queen's prejudice against the Jesuits, is that it started in the suspicion that he gave her too much work to do, until she was, as she put it, "dead-beat." He tried, in his eagerness to press her to do what she considered to be his work, and when she resented it and he renewed the attempt, she formed a permanent prejudice against him, which never was removed. The author states that it was always an element in her prejudice with regard to Mr. Gladstone that he was too high church and had the mind of a Jesuit. The Queen's own attitude toward religion is discussed judicially. The headship of the Anglican Church or the Scotch Presbyterianism, she considered to be a part of the business of statecraft, and did not trouble her conscience about it. Probably the form of service which she preferred was that of the Presbyterian Church, but she was a broad church woman, with no curiosity about creeds. She liked Roman Catholics much better than Anglican ritualists.

The article closes with this remarkable sentence: And gradually she hypnotized public imagination so that at last, in defiance of the theories of the philosophers, the nation accepted the Queen's view of her own functions, and tacitly concluded with her that she ruled, a consecrated monarch, by right divine."

THE IRISH NATIONALISTS.

Dublin, April 17.—At a meeting of the National Directory of the United Irish League, at which Mr. J. E. Redmond presided, it was resolved not to accept or acknowledge subscription to the league funds from any persons identified with the addresses presented to Queen Victoria during her visit to Ireland last year, as their action was in direct opposition to the principles of the league.

KAISER GOING TO ROME.

London, April 17.—The Rome correspondent of the Chronicle says that Emperor William will visit that city early in June about the time of the queen's accouchement. This is regarded as additional proof that Italy will not leave the triple alliance.

A GROWL FROM GERMANY.

London, April 17.—A dispatch to the Times from Berlin says there is considerable indignation in authoritative quarters there over the statement in

the American press purporting to give on Mr. Rockhill's authority the exact sums demanded from China. The statement is exceedingly incorrect in respect to Germany as claiming \$30,000,000 more than France, and only \$20,000,000 less than Russia. As a matter of fact, Germany only demands \$50,000,000, France \$55,000,000, and Russia \$55,000,000.

BUBONIC PLAGUE IN ANN ARBOR, MICH.

Doctors inoculated as a preventive in view of their attendance on the patient.

Detroit, April 17.—A special to the Tribune from Ann Arbor says: Drs. Rock and Arsenal, who were injected with the bubonic plague serum as a preventive for the disease in view of their supervision of Student Hare's case, are sickened, although there is nothing more serious than an aggraving condition resulting from vaccination. The preventive was applied in time, so that no contagion could arise.

Dr. Hovey, who has the case of Hare in direct charge, said last night: Although ten days have passed since the animal experiments have been under way, they have not died, but every view taken of the microscopical line of investigation indicates that Hare has bubonic plague.

A THOUSAND THANKS

A Grateful French Lady Cured of Rheumatism After Dodd's Kidney Pills, Expresses Her Gratitude.

St. Flavie, Que., April 15.—Madame Maria Guimond, of this place, is loud in her praises of Dodd's Kidney Pills. She says: "I had followed the treatment of the first doctors in Montreal for Rheumatism, from which I have been suffering for over six years. I got no relief whatever, but as I was getting old, I heard of Dodd's Kidney Pills for Rheumatism and I tried them. 'I have taken in all seven boxes, and I am perfectly cured and as well as ever. Of course, I am telling all my friends of the excellence of this great remedy. I thank Dodd's Kidney Pills a thousand times for my wonderful cure.'"

Dodd's Kidney Pills will do for anyone suffering with Rheumatism just what they did for me. I am sure, when a sure, safe, and speedy remedy is at hand.

COL. STEEL DENIES THE STORY.

Montreal, April 17.—Lieut.-Colonel Steel is most indignant at the story that Lord Strathcona had presented him with \$25,000 as a mark of his appreciation of his services in South Africa. The story originated in Montreal some time ago. Col. Steel, who is here, gave the story an emphatic denial.

"It is too bad that a soldier who has tried to serve his country and his Queen honestly and faithfully should be subjected to such misrepresentation as this," said Col. Steel.

BUILDING RAILWAYS IN CUBA.

Washington, April 17.—Sir William Van Horne, of Montreal, intends covering the island of Cuba with a network of tracks. Instead of securing charters, except as purchased with existing lines he is buying right-of-way and building as one would acquire any other property. He has 3,000 men at present to construct a trunk line from one end of Cuba to the other, 700 or 800 miles and then feeders as business may demand.

HILL MADE \$4,000,000.

St. Paul, April 17.—It was reported yesterday in which are usually well informed railroad circles that James J. Hill had disposed of his Baltimore and Ohio and Erie stocks and that the operation had netted him \$4,000,000. The stock, it is said, was bought by Mr. Hill simply as a speculation. Wall street, however, at once jumped to the conclusion that gigantic combinations were being formed, and these stocks were put up rapidly. Mr. Hill persistently denied the rumors, and stated that his purchases of the stocks were simply for investment.

THEY ARE NOT VIOLENT IN ACTION.—Some persons, when they wish to cleanse the stomach, resort to Epsom and other purgative salts. These are specious, but serve no permanent good. Their use produces indigestion, and if persisted in they injure the system. Nor do they act upon the intestines in a beneficial way. Parmelee's Vegetable Pills answer all purposes in this respect, and have no superior.

ANEMIA

is little red in the blood.

The red in the blood is the oxygen-carrier. Better to breathe with half of one lung than not have enough red in the blood.

The blood is full of digested food; but it can't build muscle and nerve and bone without oxygen.

Scott's emulsion of cod-liver oil puts red in the blood: the oxygen-carrier. It is like building a railroad into a famine-stricken country.

We'll send you a little to try, if you like.
