-Mr. Alfred Jones, wife and family, visit in Westminster.

-Messrs. McGugan and Jones, G. T. R. officials, were in the city on an official trip of inspection yesterday. -Miss Bertha Hinsley, Farnstan, Ore., formerly of this city, is visiting her cousin, D. C. Platt, 110 Wellington

-Detective Skirving, of the L. E. and D. R. R., was in the city this morning in connection with a case in which the company is interested.

-Miss Emma Larkin, formerly of this city, has been called from Roches-ter, N. Y. to the bedside of her sister, who is seriously ill at the family home in Thorndale.

—While answering an alarm at the corner of Piccadilly and Waterloo streets, the band off the hub of the ladder truck was lost. The firemen would be glad if the finder would re-

-The engagement is announced of Miss Miriam Hellmuth, daughter of Mr. Isadore Hellmuth, K. C., of Lawton, Deer Park, and grand-daughter of the late Bishop Hellmuth of Huron, and of Mr. Clarke Gamble, K. C., to Mr. John Meredith, barrister, son of the Hon. Chief Justice Sir William

-On the closing day of the Provincial Sunday School Association at St. Thomas. Mr. D. A. McDermid was reelected a member of the general executive committee as representative for London, and Mr. W. Thompson, Der-went, for Middlesex County. Mr. William Bowman was elected a vice-president of the association. Y. M. C. A. BOWLING ALLEY.

The new bowling alley, which has been fitted up as part of the gymnasium equipment of the Y. M. C. A., will be formally opened at 8 o'clock tonight. The mayor will be asked to bowl the PRESS CLUB MEETING.

A special meeting of the London Press Club will be held tomorrow night, at which important business will The attendance of every member is desired. WEEKLY HIGH COURT.

A sitting of the weekly high court will be held at the court house tomorrow. Several motions have already been entered for hearing. FUNERAL OF LATE F. J. STONE.

The funeral of the late Frederick James Stone was held this afternoon from his residence, Colborne street, to Memorial Church, where services were conducted by Rev. C. C. Owen. Interment took place in Woodland Cemetery. Those acting as pallbearers were selected from among the Chosen Friends, Ancient Order of Foresters, and Metal Polishers' Union, to all of which deceased belonged. STRATHROY WANTS WATER-

WORKS. The Town of Strathroy is contemplating the establishment of a waterworks system, either as a municipal department or as the undertaking of a company. Dr. Bryce, secretary of the Provincial Board of Health, while in the town on Tuesday night, addressed a public meeting on the subject. It is probable that a bylaw will be submitted in January.

BIG PRICE FOR POTATOES. It is predicted in agricultural circles that potato prices will take wings and soar high during the next few weeks. Many bushels of them rotted in the ground from constant soakings of rain, and at present the tubers are selling at \$1 10 a bag. Prices have risen 35 cents in the last few days, and will continue.

INTERRED AT WOODLAND. The remains of the late Mrs. Jemima Cooper, formerly of this city, who died in Chicago, were interred beside those of her husband at Woodland Cemetery this afternoon. Mrs. Cooper was born in Nottingham, England, 64 years ago, and came to this country when about 20 years of age, together with her husband. They lived here 29 years, and then moved to Chicago, where they had since made their home. Mrs. Cooper's husband died about a year ago. Two sons, E. J. of Chicago, and Wm. H., of Oklahoma, I. T., and one daughter, Miss Bertha, of Chicago, survive. Ven. Archdeacon Da-vis conducted the services.

A CORRECTION. The Advertiser in its report of the presentation of diplomas and prizes to the graduating nurses at Victoria Hospital, made an error in stating that Miss Dufton received a gold medal and Miss Mortimer a silver medal, while the other members of the class were presented with their diplomas. As a matter of fact there were no such distinctions, medals of uniform value being presented to all the graduating nurses. In other words, each member of the graduating class, besides re-ceiving her diploma, was presented

with a handsome gold medal. **CLOCK REPAIRING.** We give special attention to this de-artment. First-class work at reasonable

take the Work.

The local branch of the Imperial Order of the Daughters of the Empire have undertaken a most laudable work. At a recent meeting it was decided to provide funds, by means of entertainments, personal solicitation, etc., for the erection of a suitable monument in Victoria Park to the memory of the late Queen Victoria. It has been pointed out that London is the only city of its size in Canada which is unable to boast of at least one public monument. In Toronto a beautiful statue of the late Queen was recently unveiled; and there is a very general belief that patriotic London will respond liberally to an appeal such as spond liberally to an appeal such as the Daughters of the Empire contemplate making. There is already the nucleus of such a fund in the hands ing into the city from the mines. Whatever is being brought here is coming of the city council, over \$100, having been collected on a previous occasion

for a patriotic monument.

The energetic women who have undertaken the work are determined to carry it through to a successful conclusion. That the monument may truly represent the loyal sentiment of every lass of the community is their ear-Contributions, no matter nest hope. how small, will be gratefully accepted, and a donation of 10 cents will be as much appreciated as a larger sum, if reply to his inquiry re coal, he could the sentiment of loyalty prompts the make no promises whatever regarding gift.

He, however with the aid of a certificate from the hotel man, would get money for their board from the United States Government. The hotel man would get half and he would get half. The hotel man didn't quite appreciate the subtlety of this. Within six or eight weeks the two premises are to be remodeled and made into one large store, extending from Dundas to Carling streets. The fronts of both houses are to be entirely rebuilt to four stories. Others will be given employment, but the coal company has refused to discharge those who took the places of men who struck. The place on the afternoon of Dec. 10. miners are incensed at this action by the company, and there is a feeling of unrest in the Lykens Valley. The company has issued an order to the effect that only a limited number of men will be re-employed, and that it will not discharge the men who have taken the places of the strikers.

A LITTLE BETTER. Wilkesparre, Pa., Oct. 24. - There is a slight improvement in the coal min-ing situation in the Wyoming and Lackawanna regions this morning, but in the Schuylkill and Lehigh regions there has been little chance since yes-

terday.
All of the collieries of the Delaware,
Lackawanna and Western Company
are being worked with an increased force of miners.

The Ontario and Western Company started all of its mines this morning.

The Lehigh and Wilkesbarre Coal Company resumed operations at two of its mines, but owing to the accumulation of gas they had to shut down

again.
The Delaware and Hudson Company has more mines in operation in the Lackawanna district than yesterday, but in the Wyoming region the com-pany could not get an additional col-liery started, although steam was up in readiness for hoisting coal.

The Lehigh Valley Company reports that it has one more mine in operation this morning than yesterday. FEELING THE WAY.

A general resumption is not looked for until Monday. With the mines in operation the output of coal must be somewhat curtailed, because the mines cannot be worked to their full ca-As one mine superintendent expressed it today: "We are only feeling our way. It will take some days before anything like a normal output will be obtained."

ant Branch of Church,

At the last day's session of the Provincial Sunday School Workers' Convention at St. Thomas, Mr. Merchant, M.A., D.Paed., principal of the Normal School, London, spoke on the subject who is accompanied by Lady Laurier of "How Far Can the Methods of will leave for Quebec tomorrow, and Secular Schools be Applied in Sunday on Saturday they will go to Artha-School Work?" Well-lighted, well-heated and well-ventilated school- Mr. Henri Laurier. rooms were as neessary to the Sunday schools as to the day schools. Few churches have made adequate provision for the accommodation of Sunday school classes. No public school could do satisfactory work under the condi-

tions existing in the Sabbath school rooms. The speaker was surprised Thousands of Men Will Be Re- us recruiting in Canada. My territory that the Sunday school accomplished as much as it did. Better buildings could be secured only by agitation. Congregations should do more for the Sunday schools.

The acommodations for Sunday school children were not at all equal to those provided the congregation for brief services each Sunday. The home has relegated the Biblical training of children to the Sunday school. An attempt has been made to foist it upon the secular schools, but the speaker declared that this would never be accomplished. The money devoted to supervision of public schools was the best invested of any educational funds. Such supervision was much more greatly needed in the Sunday schools. Teaching must take its place beside preaching. A better selection of lessons should be made for the sunday school. The lessons must furnish material for free play of the imagination. There were many Biblical stories suitable for the primary classes. Diversity rather than uniformity is the proper method for teachers to follow. Actual study of the class to be taught is more important than preparation of the lesson. Speaking of secular schools, many a school room tragedy was enacted because teachers do not understand the tendencies and capacities of their pipils, and the same is true of Sunday school teachers. Vividness of presentation, rather than repetition, should be always aimed at. When it is considered that there is three times as much money spent upon the choir as is spent upon the Sunday school, it was no wonder that the church had come to be regarded as an aesthetic rest day social club. The growth of the church has been in the form of public lecturing or preaching. More attention should be given to Sunday schools.

In answer to an inquiry, Mr. Merchant said he did not favor detached lesson; all should be consecutive. Asked as to how secular school authority could be enforced in Sunday schools, the speaker said actual compulsion was always a source of fricgood results.

#### Bishop Grant Married.

Springfield, Ohio, Oct. 24.-Bishop Abram Grant, D. D., of Indianapolis, bishop of the Fourth Episcopal district of the A. M. E. Church, married Mrs. Louisa Armstrong, widow of the late Bishop Armstrong, at the home of the officiating minister, Bishop B. W. Arnett, in Zenia, yesterday afternoon. The bride was formerly matron of the Wilberforce University.

GREAT MEDICINE.—Tonti, one of the pioneers of French Canada, lost a hand and wore an iron hook as a substitute. He was in the habit of boxing the ears of refractory Indians with this iron hand, and they have remarked that it was "great medicine." Dr. Thomas' Eclectric Oil is great medicine. It takes hold of pain with an iron hand and knocks it out of the system.

### ROYALTY WILL LAY LAST STONE

Open the Nile Dam at Assouan.

for the dedication of the dam on the Nile at Assouan are complete. The Duke and Duchess of Connaught will with the Khedive will go by special train next day to Luxor, whence they will take a steamer to Assouan, arriving Dec. 9. The inauguration takes On Dec. 10 the party, including the guests, goes to Assiout on steamboats. The following day the supplementary dam at Assiout will be inspected, after which the party will return to Cairo. The ceremony of inauguration consists in laying the last stone and opening a number of sluices to let the

water flow down the river. The Assouan dam built across the Nile is the greatest work of the kind ever attempted. As a triumph of en-gineering it stands perhaps at the head of human achievements. It has cost a little more than £25,000,000. It is a little more than £25,000,000. It is nearly a mile and a half long, 38 feet high, and is pierced by 180 sluice gates, which are opened and shut by machinery, and regulate the flow of water in the river. The supplementary dam at Assiout, a few miles up the river, is intended as a reinforcement of the great dam, to assist it by breaking the force of the spring floods and restraining them in a local reservoir capable of storing more that 1,000,000,-000 cubic feet of water. By means of these dams the surplus waters will be stored in the rainy season and released in the time of drought. This system of irrigation will make capable of cultivation vast areas of what is considered the richest soil in the world, and the effect of the harvests thus obtained on the food markets is worth consid-
