OTTAWA, Sept. 20.—The Mounted Police partment have been notified of a murder on the File Hills Reserve last Saturday. The victim and his slayer were Indians, the former having been employed by the police as a scout. The murderer made for the in-

From all that he had read of the facts, however, and being a thorough believer in Capt. Mahan's sound judgment and thorough navalakill, he was, with the Captain, of the opinion that the evil of land hugging had caused the inevitable results, which in this case had proved disastrous. Considering the platings on the barbettes, it was only natural that dire consequences resulted from the attack on the Chin Yuen. A great mistake, he thought, had been made in having in that vessel the barbette, instead of having the guns in echelon, which would have saved a gunship from being reduced to the level of a small cruiser. Admiral Gerhardi agrees that small cruisers are more effective than big battle ships, and as illustrating this had noted how much better the smaller ships had fared than their larger colleagues. In conclusion, the Rear-Admiral again remarked: "Yes, it is quite true that the praise of one of our navy commanders has Hon. A. R. Gallagher and Buchanan, strike leaders in the late railway trouble, has progressed to a point where the prosecution, represented by Attorney General Denis, was called upon by the defence to explain how it was that Denis had given legal advice to these men during the strike and was now prosecuting them.
