[From THE DAILY COLONIST, Oct. 9.]

An Apparatus by Which the Beating of One's Heart May Be Seen.

Dr. John Duncan to Have Improved Roentgen Rays Process in His Office.

assistance of Mr. W. C. Cheney, electrical superintendent of the tramway, Mr. Richard K. Winters, a native of who has already done some highly in- Halifax, N.S., forty-two years of ago. teresting work and original investigation The deceased was well known to Vicwith the Roentgen rays, is having a torians, having kept a barber shop here plant put up for the practical applica- and latterly in Vancouver until 1894, tion of the Roentgen rays process. The when he purchased the Marble Baths in be placed at the disposal of the medical

The process, which is a very great improvement over the ordinary X ray picfluorescent screen to look directly into of Mr. C. N. Owens, Chatham street. or through a person's body, to see the outlines of the organs or bones and, in fact, a physician can by its use diagnose by sight a great many internal ailments For example, the heart's action can be seen, or stone in the kidneys or bladder, or after a limb has been set the surgeon can see through splints and bindings whether the bone has been properly placed in position. The fluorescent screen is tungstate of calcium, or platinocyanide of barium powdered over an taken common-sense care of it. Yet I aluminium plate say six or eight inches square. The Roentgen rays are sent on heat, cold, sleeping, eating, drinking, through the body to be examined and or anything. I am out in all sorts of on the opposite side the observer looks at the subject through the screen, which stereoscope, and through the aluminium eases—from typhus fever and consump-plate and its mineral coating he sees tion to influenza and pneumonia. Yet I other organs of the body. The strength of the current used in making the rays is graduated in strength for the object tis wished to see. For example a very it is wished to see. For example, a very strong current would go through everything, rendering bones and all invisible, a lesser current would show the bones and a still milder current the organs.

It may easily be seen how invaluable such an apparatus is for the diagnosis of patients by physicians or surgeons, and what a very useful field may be opened up in Victoria by its use. The apparatus will be ready for operation in a very

A SINGULAR DECISION.

SAN FRANCISCO, Oct. 8.—The Supreme court yesterday decided that to obtain real estate under false pretenses is not a \$300,000; Big Three Gold Mining Co. crime under the statute. Jas. H. Cummings was tried for such an offense in Celtic Queen Gold Mining Co, (foreign), the Superior court and acquitted on a government he would notify their solicidon, capital \$1,000,000; Seattle Mining tate from the section, the words "and

Adoption of Ald. Williams' Motion. for Proceeding With All Possible Despatch.

Twelve Thousand Dollars' Worth of Waterworks Improvement to Commence Immediately.

Bridge matters occupied the attention of the council at the opening of the of Berlin that an improvement had been made in the Roentgen process by which the has kindly presented to the provincial museum. These specimens compared to the provincial museum. These specimens compared to the provincial museum. These specimens compared to the provincial museum of the mile-and-a-quarter or mile-beauth and all the members and all the members and and a half of use road required, as the present except Ald. Wilson. The Mayor good condition. one may see the brain and study the prise a bull seal, a young pup and reported the result of his interview with action of the internal organs of the body in a picture thrown out on a fluorescent screen. This process, while it has been screen. This process, while it has been much prized addition to the museum.

A resolution having been offered authorizing the appropriation and the employment of Mr. J. G. Brown to supersistent of the Lorne in company of the bark Java, hailing from Hiogo, Japan. The Lorne in the Roads about 5 o'clock, and later in the Roa in use in some of the large cities, is to be put to a most practical use in Vicbe put to a mos

THE MAYOR also reported the receipt of a notification from Yates & Jay, solicitors for Mr. Elworthy in the matter of his application for an injunction against the Point Ellice bridge, to the effect that a suitable foreman; and after further apartment in which it is contained in Dr. Duncan's offices on Fort street will shop in the Northwest, and which he ceedings, without prejudice to his rights. ceedings, without prejudice to his rights, the question of costs to be reserved. An duce a by-law to authorize a loan of date, declaring that by the consent of counsel on both sides the injunction this was agreed to, and the by-law was stands suspended until the trial of the read a first time.

With respect to the resolution authorported that in the absence of the president there is no person here who can bridge accident damage suits. authorize an agreement on the part of the company to pay a portion of the cost over on the steamer in the morning, and inherited a good constitution, and for an engineer to consult with the city en- for him in case of delay on the way. reported on the bridge for the company is away from the city the company will send to Vancouver for an engineer to re- the matter because of the comment he present them.

ALD. HUMPHREY here expressed himself indignantly about "those who can be bought for a few dollars to get out an injunction," and his surprise that there should be men like this in the city and men in the council to support them. His reference was specially to the injunction proceedings on behalf of the Municipal Reform Association.

Someone called "Names!" and Ald. Humphrey in reply said he could give from it. And be particular to notice and the names of the aldermen who belong to the association-Ald. Williams and ter. I wish she had said more, but it is Tiarks. The last named promptly denied enough to throw light on the point I the assertion that he is a member of the association, and Ald. Williams stated "In November 1867," she says, "I took that though a member he did not approve of the injunction proceedings. Ald. Humphrey thereupon said that he

ALD. WILLIAMS moved: That the being thickly coated. I had no relish for council deem it expedient that the city food, and after everything I ate I had weight and pain at the chest, and also tightness around the chest and sides. Point Ellice pile bridge (employing a There was a gnawing pain at the pit of night and day force if deemed necessary) so that it shall more than support any demand made upon it, thus being prepared should the Consolidated Railway Company have the legal right to use the yellow color. I was much troubled with giddiness and sick headache, and often vomited a green, bitter fluid. At night as to contribution by the company, thus

The truss was not Now cipher!—1867 from 1892 leaves designed until after it had been decided 25. Twenty-five years' continual illness—finally cured in a few weeks by Mother Seigel's Curative Syrup! Here is a fact to make you ask, How? Why? Wait another minute.

In the bridge was to be used for ordinary traffic only, but it has been made very strong as on account of its situation the bridge is likely to be crowded with people at times. It would not be Twenty-five years' continual illness that the bridge was to be used for ordin-

piles constituting the piers.

ALD. PARTRIDGE inquired whether the first money. action to be authorized by this resolution would be a violation of the agreement with the Dominion government or in conflict with any proceedings in court. The City Solicitor answered that to avoid any difficulty with the Dominion tors, Messrs. Bodwell & Irving, as to

what it is proposed to do. The resolution was adopted after further immaterial discussion, Ald. Partridge dissenting on the ground that he feared it would lead to further legal difficulties. A report from the finance committee ecommended an appropriation of \$2,000 for the purposes of the bridge. This was

WATERWORKS IMPROVEMENTS. Another report from the finance com- with the company.

mittee recommended an appropriation of \$11,750 out of the waterworks loan, to be appropriated as follows: For building the East Saanich road on the new ine necessitated by raising the level of

the lake, \$5,000; for expropriating the Tug "Lorne" Brings in a Trio of dam, \$750. ALD. PARTRIDGE brought up the matter of his resolution of last week, pro-

viding for the same work as above, and also for completing the reservoir. He declared his opinion that the Mayor had not been justified in ruling out his motion at last meeting, and protested against the omission of the reservoir from the present plan.

ALD. WILLIAMS suggested that perhaps the provincial government will

ALD. TIARKS moved for leave to introorder of court was read of yesterday's \$150,000 for the purposes of a permanent

ALD. WILLIAMS inquired if any steps izing him to invite the co-operation of the Consolidated Railway Company in the matter of the bridge, the Mayor remotion to come before the court in Vanmotion to come before the court in Vancouver to-day in connection with the The City Solicitor said he was going

of the bridge; in the matter of naming had telegraphed to an agent to appear gineer, as Mr. Keefer who has already The present proceedings being of minor importance no assistance is required. ALD, WILLIAMS said he had mentioned had seen in the press on the neglect of the corporation to retain counsel in the

recent injunction proceedings. The letter from a correspondent of the OLONIST on this subject had been made the subject of inquiry by Ald. Glover during a pause in the bridge resolution discussion earlier in the evening. reply to his question whether, as that correspondent intimated, the corporation had refused to engage counsel of what this would cost, the Mayor referred him to Mr. Mason's answer in yesterday's Colonist, without explanation as to the reason why counsel was not secured.

The applications for the position of health officer were not conmedical sidered last evening, as the meeting had been called for the special purposes of the waterworks and bridge business.

THE ANNUAL BALL

The annual ball, held in the society's hall yesterday evening, brought to a close the 29th annual exhibition of the North and South Saanich Agricultural Society in a manner thoroughly in keeping with the precedents of the past and well pleasing to the residents of the district and their city friends. As in the afternoon, the attendance was most encouraging and President Simpson, his associate officers and the ladies of the istrict joined heartily and effecti giving a cordial welcome to each and every guest. The hall was modestly but tastefully decorated for the occasion of the ball; lavish hospitality was dispensed by those in charge of the supper; and with good music, a good dancing floor and congenial company nothing remained to be desired.

The field sports were the chief attracion of the afternoon and were witnessed by many city folk; not forgetting that staunch friend of Saanich, Mr. H. D. Helmcken, M. P. P., and his wife. Messrs. W. Mitchell, James Brown and E. John directed proceedings, and several interesting events were contested by the local horses on the 3/8 mile track on the society's field. In the running dash for home horses ridden by pioneers of 30 years and upwards, Mr. X. Marcotte started an apparent winner and secured an appreciable lead. He was unable, however, to manage his mount, and received a rather nasty tumble over his horse's head. The race went to G, Harrison, with W. Thomson a creditable second.

There were five starters in the trot and as many varieties of vehicles behind the horses-the buggy, the road cart and winner among the buggy horses. Second onors were won by Mr. T. Tunstead,

revented. But she hadn't heard of it it would not be feasible to repair the old racers, putting up a sprint that would bridge without driving piles to support have turned Gibson, Cary and Bethune eating away the cement between the for he failed to get under steam quite soon enough, and Anderson took the

THE STRIKE ENDED.

WINNIPEG, Oct. 8.—This afternoon peace and harmony reigns, and the train and telegraph business of the Canadian Pacific railway company is going on as usual. The officials were prompt in getting trains moving, and furing the balance of the week it is anticipated there will be a rush of grain in order to get it to the coast. It will take, nowever, some days before all things are in order. It is said that had not a compromise been effected there would have been a general strike of the members of the different organizations connected

Cox, the three having been towed in during the early morning by A resolution having been offered auther Lorne in company of the bark Java, immediately afterwards ordering her reand her handsome string of tows arrived justifiable arrest, and sealing men conin the Roads about 5 o'clock, and later sider that she has a just claim for clusion that they could not do justice to themselves and allow the bridge to be employed for about a year now at \$5 a Robt. Ward & Co., her agents directing her to proceed to Portland to-day or tomorrow for a grain cargo to Great Britain. Capt. Futwurst, her skipper, ered it splendidly, not having lost a single sail, although she exsingle perienced three typhoons-having been the middle of one - one cyclone and numerous heavy gales. The Dora Siewerd had been becamed outside since Monday. She got a catch of 832 skins in Behring sea, making a total of 1,209 for the season. The Dora Henings, Prof. and Mrs. Antonio Meyarda a total of 2,000 for the season. The Dora Henings, Prof. and Mrs. Antonio Meyarda a total of 2,000 for the season. The Dora Siewerd had been becalmed a total of 1,209 for the season. The bold lost two of her canoes on August 12. They were picked up by Capt. Grant's schooner Penelope, and subsequently J. Molineaux, P. W. Symons, wife and J. Molineaux, P. W. Symons, wife and J. Molineaux, P. W. Symons, wife and J. Richards, Mr. Andrew Halkett, of Ottawa, who made the trip to Behring Sea and return on the vessel, made a thorough study of the mode of pelagic sealing as carried on by the Canadian vessels, and even spent days out in canoes and boats. He proved

an indefatigable worker at his post day and night, and aside from the fact that Her Majesty's government through him will obtain an unbiassed and accurate knowledge of the pelagic system of sealing, his observations from a scientific standpoint will be of great value, throwing as they will light on the nature of the ood, etc., of the seal. Apart from losing TYPEWRITING, LANGUAGES, an Indian hunter, who died of consumption in Behring sea, Capt. Clarence N Cox of the Triumph has little to report n regard to his own cruise this year. His catch for the season totals 1,388 skins, 600 of which were obtained

on the Japan coast. He is of opinion that the Annie E. Paint, Sapphire and Favorite will share nearly equal luck in the Sea and that these vessels will rank top liners of the fleet this year. The Carlotta G. Cox, Captain Byers, brings home a catch of 235 skins from the Sea, which gives her a total of 1,456 for the season. When she called at Kyuquot on her return home the Otto and Kate were in port, the former reporting a catch of 1,200 for the season and the latter 300 for the Sea and 261 for the Coast. The Kate, as will be remembered, was the vessel seized by the U.S. steamer Perry on August 26. She was taken in tow by the steamer, but instead of proceeding direct to Ounalaska three days were spent while the Perry was boarding other schooners. When eventually she reached Ounalaska it was discovered that she had no firearms on board and then it was realized that a lease. The Kate lost a week by her undamages.

THE WARRIMOO OUTWARD BOUND. Carrying as usual heavy freights for Honolulu and Sydney, the Canadian-Australian liner Warrimoo departed on her outward voyage yesterday evening. Nearly half her passenger list was made up here, among those embarking at Vicreports a very rough passage, lasting fifty-six days, but says his ship weath-Mrs. Smith, Mrs. Waterhouse, Miss M. Hardy, Mrs. Bellman, Mr. Bellman, Mr. Marsmith, Mr. Larson and Mr. Weatherbee. Alfred Lefone and friend, McLaren party, F. Conan, Garner party, Mr. and Mrs. T. J. McBride, Mr. and Mrs. Clechild, Mr. and Mrs. J. Richards, Mr. Millan, Miss Hay, Mr. Magee, Mr. Hatchinson, A. H. Newall and Mr. J. J. Blandy were the passengers who embarked at Vancouver. The vessel carries a full cargo including shipments of flour and salmon from Victoria.
