

THE T. EATON CO., LIMITED.

190 Yonge-st. Canada's Greatest Store. Toronto.

The Thanksgiving Dinner

is always the centre of attraction. Housekeepers

plan to have things extra nice, and the table is set to better advantage than on other days. But however good the turkey, the dinner will be practically spoiled unless the tablecloth and napkins, the dishes and cutlery give evidence of some care. [The surest way to have things right and the quickest way in an emergency is to draw on us for the things you need, including:

- Linen
- Knives
- Table
- Olives
- Nuts
- Figs
- Candies
- Napkins
- Forks
- Chairs
- Pickles
- Raisins
- Almonds
- Cocoa
- Dishes
- Spoons
- Glasses
- Jellies
- Coffee
- Oranges
- Mince-meat.

We can supply about everything from the dining table and chairs to choice fresh groceries. And the store service never shows to as good advantage as when you're in a hurry. Prompt delivery of all goods purchased here and the satisfaction of money being refunded if things are not exactly as represented.

In order to add relish to the Thanksgiving dinner, we offer these special values for Wednesday morning:

- Table Napkins, pure linen, size 24 x 34, large assortment of latest patterns; regular price \$1.25; special for Wednesday morning **\$1.00**

The Gerrard Street Extension.
The opening of the district lying between Greenwood and Cowell-avenues for the purpose of extending the Gerrard-street car line into East Toronto Village, a project which has received the hearty approval of the Township authorities, does not appear to be now very far from realization. During the past few months a large portion of the Ashbridge Estate, which comprises about two-thirds of the district, has been devoted to agricultural purposes, and the owners take the stand that a road out through the

THE VOICE OF THE TEMPER.

New York Sun: In the first quarter of

the century there was a great domain added

to the territory of the United States

through the Louisiana purchase. In the

second quarter another great domain was

added to the territory of the United States

through the acquisition of Alaska. So far

the century has been unlike each of the three

preceding quarters. In the third quarter

of the century no new domain has been

added to the territory of the United States.

It seems to us that the last of the quarters

of the century ought to be at least as

good for us as any of the others. We

are pleased with the news from Canada

that an independence party of a republic

kind is on the move. Canada is a

region of a good shape and size, lying

longside of this continent, and is

of the North American continent that is

under a foreign yoke, a royal dynasty.

European flag. It is a pity that we

before the end of the fourth quarter of

the century it will be a free and

independent nation. By this union the 10th century would

be founded off, as nearly as one could desire. There

would be something to show in America

for every quarter of the century.

How much better off are the people of

Louisiana and Texas on the Gulf, and those

of California and Alaska on the Pacific

coast than they would be if they remained

under their old masters? Only Canada

has left the United States. The Dominion

of the United States in the 10th century have

been added in its second quarter, and 1847 in

its third quarter. In the last quarter of

the century the last of the quarters of

the century shall the news of the

extension of the territory of the

United States be sent out to mankind?

True enough, it would be a beautiful

thing to round off the century of

the United States. The United States

of America in the way proposed. The

idea of extending the territory of the

United States up to the North Pole,

and of converting almost the whole

of the North American Continent into

one gigantic republic is a most in-

spiring one, and we very much regret

that we are unable to take an active

part in its realization. We are

glad to see that the Dominion of the

United States is a necessary part of

the project, because we have, with no little

pleasure and enthusiasm, committed

ourselves to another idea still more in-

spiring and gigantic than the one we

are now so beautifully by The New York

Sun. The Dominion of Canada is an

integral part of the greatest empire

the world has ever seen. It is of much

more importance than the whole of

the British Empire be rounded up

than that the United States should be

squared off. The United States is

local and confined to a single contin-

ent. The British Empire is cosmopol-

itan, its sway extending over every

continent, and on every sea in the world.

An empire with such vast and remote

possessions requires a right of way

through every continent, and the Dom-

inion of Canada is a necessary part of

the empire; and however badly the

United States requires squaring off,

the Empire cannot square off without

MR. GREENWAY'S REPLY

WILL, IT IS SAID, EMBRACE IM-

PORTANT CONCESSIONS.

A Winnipeg Gentleman in Montreal Speaks

on the School Question—Gossip About

the Lachine, Meeting and the Tem-

iscouata Railway—Two Minutes and an

Attempt—Other Montreal News.

Montreal, Nov. 18.—A gentleman

away from official circles just arriv-

ed from Winnipeg declares that, al-

though the Manitoba Government

would never consent to the re-estab-

lishment of Separate Schools, it is gen-

erally understood that the local Min-

istry's reply to Ottawa will embrace

one or more important concessions. It

is said that the Premier a sick man

and is willing to do anything for peace,

but the trouble comes from Hon.

McNair and Watson. However,

the Government will agree to make the

schools of the province absolutely non-

sectarian, and any trace of Protestant-

ism that may have worked into the

system will be done away with. The

objections to the local works used

in the schools will also be met in a

satisfactory manner; and last, but not

least, the Minister will be per-

mitted to come to the schools after 3

o'clock and give any religious teach-

ing to the children that the reverend

gentlemen may see fit.

The Lachine Meeting.

It is generally believed that the

results from a party point of view,

of the Lachine meeting on Saturday

will be sufficient to bring about a

change in the Government. It is

thought that a great change has come over

the country. It had been said that the

manufacturers were quite indifferent

as to whether the Liberal or the Con-

servative power or not, but Saturday did

not show any such conclusion. The

majority of the Lachine meeting

manufacturers to close down for the

afternoon, but none of them com-

plained with the Government. The

demonstration was a failure in point

of numbers. Mr. Charles Hyman, it ap-

pears, has been the most active of the

friends of the Liberal cause in Lon-

don. It is so great that while Mr. Hy-

man's section of the Liberal cause

next time by hard fighting, London

would elect the Liberal leader by a

great majority. This afternoon

C. A. Geffroy, M.P., gave a lunch in

honor of the Hon. Mr. Laurier and the

other members of the Government who

were in the city on Saturday.

Three Try and Two Succeed.

A man named J. E. Lloyd, aged 73,

living on Park-avenue, put an end to

himself this forenoon. He had an at-

tack of paralysis a year ago and had

been suffering a good deal since

the old man took a 32 calibre re-

volver and, going into the woodshed

in the rear of the house, shot himself

through the head. He lived but a very

short time.

A man named John Finerty, aged

45, who attempted to hang himself at

Point St. Charles yesterday afternoon,

did not meet with the same success as

Mr. Lloyd. Finerty had a clothesline

around his neck, but was prevented

from carrying out his terrible design

by several boarders who happened to

be in the house at the time.

The third case is that of Mayor Cho-

quette of Parham, who had been in-

jured in his mind of late, and on

Sunday he took a knife, cut a vein in

his neck and bled to death, almost be-

fore he was discovered.

Grand Trunk Adopts the Block System.

The Grand Trunk Railway has in-

augurated an important change in the

running of its trains over the entire

system. It is the adoption of what is

known as the block system, and prac-

tically abolishes the danger of colli-

sions by trains colliding or telescoping

each other.

Proprietors and Temiscouata R.R.

Montreal has become a centre of

political activity in regard to one sub-
