Pic-nics and Petrolea were the order of the day on July 1st.

A considerable quantity of hay is already cut in the township.

Those who took in both pic-nics on Dominion day report a good time at each,
Mr. John Laing has purchased a fine Royal
George horse from Mr. E. McGillicudy.

Abraham Saunders and wife are visiting their son, Mr. Isaac Saunders, Morden, Manitoba.

We are pleased to learn that Miss Ada Reid, who has been ill for a few weeks, is

Mr. Trueman, the only Freewill Baptist
Minister in Ontario, preaches in the Baptist
Church on the 9th con.
Mr. Win. Butler, 12th line, has a batch of
barley which is ready for the sickle. The
heads are well filled and are remarkably
forward for this season of the year.

While driving one day last week Mrs. McLellan and Miss Lucy Chittick were shrown violently out of the rig, but they escaped with slight injuries. The back seat of a buggy should be securely fastened.

Ida know but what pic-nics are all right in their place, but Annie body who would take a Tripp on foot for a distance of five miles and Walt-z back in the same manner with no other amusement than to Rob the honest farmer of his best bed of onions, or run here and there over the Cliff-s that shut the way, must indeed be very fond of the business. We don't care for mosquito soup, thanks.

An open-air religious meeting conducted by the Non Sects of Petrolea was held in the Trowbridge grove, 12th line, on Sunday last. Mr. VanTuyl was present and opposed the doctrine laid down by the Non Sects. The wrangling and jangling lasted nearly all day, and on being submitted to a vote use decided to hold an evening session. Another meeting will be held in the same place two weeks from Sunday.

The pic-nic held in the beautiful grove of Mr. Lett on the 1st inst. was a decided success. This could hardly be otherwise as the day was fine and every person seemed to take an interest in everything from the laying of a table cloth to the delivering of an address. All being satisfied with what had been spread before them (and well they might) at the tables. The swings were resorted to by the younger portion of the audence and the older interviewed each other and held conversation, such as fancy dictated, and with which they were pleased. In due time the platform was approached and taken possession of, and after a few introductory remarks by the Chairman, Rev. J. Neelands, a good programme was presented which was listened to gladly by all intelectually inclined. The recitations by the children were good and the singing excellent. All the young ladies who took a part in the programme acquited themselves well and would shine any where as musicians. To much could not be said in praise of the addresses of J. Mitchell Esq. and the Revs. McInnis, Fallis, Graham, Philp and Hay. They were practical, racy, logical in fact in every way, and as might be expected appropriate. After the usual votes of thanks all went to their homes well pleased with themselves and everybody else.

A very pleasant day was spent on Friday, 20th his the occasion heing a pic-nic given.

A very pleasant day was spent on Friday, 30th ult., the occasion being a pic-nic given under the auspices of S. S. No's 7 and 2, Warwick and Brooke in Mr. Barber's grove. Warwick and Brooke in Mr. Barber's grove. The day being clear, bright, warm and an ideal one for the purpose in every respect the crowd was large, about 700 persons being present. In the atternoon a game of ball was played between the pupils and those of the section west, resulting in a score of 16 runs to 2 in favor of the home team. Dinner was served between the hours of 1 and 2. runs to 2 in favor of the home team. Dinner was served between the hours of 1 and 3. After the viands had been despoiled to such an extent that the wants of the inner man were satisfied a lengthy and well rendered program was presented by the chairman, Dr. Stanley. The chairman, C. A. Barnes, I. P. S., A Conner, Revs' Graham and Philp delivered short interesting and instructive addresses. Messrs. O. E. Brandreth and Int. Williams contributed excellent vocal addresses. Messrs. O. E. Brandreth and Jub. Williams contributed excellent vocal music eliciting much favorable comment. Misses Cook and Scott gave readings in their usual realistic style. Some of the pupils sang and recited in a very creditable manner. The program concluded by the singing of the National Anthem by the audience after which a photo of the ground and people was taken by Mr. T. B. Taylor. The pupils of S. S. No. 4, Brooke (the school in which Mr. Woods taught last year) were in attendance. A phrenologist, Mr. W. S. Duncaa, of London, contributed much to the pleasure of those who were anxious to possess the power to see "ourselves as others see us." Swinging was enjoyed by a number present. On the whole the pic-nic was a decided success and will furnish pleasant recollections for some time to come. It reflects great credit on all those who had any connection with it, and the opinion of the majority was expressed by Dr. Stanley when he expressed a hope that Mr. J. T. Woods would be retained as teacher for another year and that he would then give another pic-nic.

Sarnia Sun:—"For some time a discharge of oil from the Sarnia Oil Co's works in the Fourth Ward into the river has bothered fishermen on the banks below the refinery, and they complained that the oil on the water rotted their nets quickly and that fish cleaned from water taken from the river had an odor of oil. Manager Platt, of the company, has endeavored to stop any discharge of oil into the river. However, complaint was made against the company, and the case came before the Mayor on Thursday. Evidence was taken on both sides, D. S. McMillan defending the company. The latter was fined \$25 and costs, and will appeal the case."

We were greatly surprised as well as amused when we read the poetry which appeared in last week's Aye from the pen of the bay roadster's driver. We were not aware that the 2nd line north had such a fertile brain in their midst. There was a belief in ancient times that when a person died his spirit left his body and departed into some other human being. If this be the truth surely the second line north poet has been blessed with having received the spirit of Byron or perhaps Shakespeare, but more likely one of those modern poets who step around with no other occupation but to likely one of those modern poets who step around with no other occupation but to pull their little white moustache and write unintelligible poetry? However, take it on the whole, he did very well for a green horn and we would like to ask him how much poetry he would write for a penny when he writes so much for nothing. writes so much for nothing.

The first cargoes of baryta ever shipped from Port Arthur were put on board the steamer Lothair and censorts last week. Baryta is a whitish earth used in the manufacture of paint and glass, and has hitherto been imported from Europe.

The wool market for the season is about over. About thirty thousand pounds have been marketed in Sarnia at prices about the same as last year. The quality is yearly growing better, indicating steady improvement in the breed of sheep.

Barnum's advance agent was in Port Huron last week making arrangements for the great show on August 16. The show is an immense affair this season, the circus and menagerie being allied with the "Fall of Nero," which feature alone requires the services of 250 persons in its presentation. The big show will pitch its tents on Lapeer avenue, near Fourteenth street.

Saturday last was the hottest June day recorded in Sarnia for sixteen years. The temperature in the shade reached 94 degrees, which is one degree higher than any previous temperature for the period named, in 1888 reaching 93 degrees. The highest temperature recorded during June of last year was 84, 10 degrees cooler than Saturday last.

Those who where in the neighborhood of the Grand Trunk station when the excursion train was leaving on Wednesday evening last, were treated to a bit of romance in real life. A family party consisting of father, brother, and daughter, the latter about sixteen, had come in from Petrolea on the excursion. When the time came to return the girl refused to start, saying that her relatives did not treat her well and that she would not go back home. While the dispute was going on a good-looking young colored man joined the party and took the girl's side of the question, saying that she should not be forced to go with her relatives if she did not wish to do so. When asked by the father what business he had to interfere, the mulotts pulled out a marriage certificate which showed that John Holland; of Petrolea had that morning been joined in the bonds of matrimony to Carrie Webb, of the same place. The disgusted tather and brother gave up their disgussion and entered the train, while the newly-wedded husband started up town with his bride.

Many years ago Mr. Samuel Iver, one of the earliest residents of St. Thomas, left \$3,000 in the hands of trustees, to be administered by the churches for the benefit of the poor of the city for all time to come. The sum has now grown to \$12,000, and it is contended by many, that the interest on this amount should be expended each year to relieve the needs of the poor, and not allowed to accumulate in the bank to the benefit of no one.

HARRISON. OF STRATHROY.

The wonderful cheap Furniture man, is paralyzing prices in the furniture trade.

He is selling away below all other dealers as his prices plainly show.

You can save money on every kind of furniture by buying from him because he manufactures furniture, and what he does not manufacture he buys in large quantities for cash, and can therefore sell cheap.

An enormous stock to choose from.

Drop in when in Strathroy, or come down on purpose to see him. It will repay you.

F.L. HARRISON
