**BY-LAW NO. 2, 1907,
OF TOWNSHIP OF WARWICK.**

A By-law to provide for drainage work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the Municipality the sum of \$614.40 for completing the same. Provisionally adopted the 11th day of February, 1907.

Whereas, Robert Wilson, one of the parties interested and assessed for the construction of the Leach Local Drain, has petitioned the Council of the said Township of Warwick to have the said Leach Drain repaired.
And, whereas thereupon the said Council has procured an examination to be made by C. A. Jones being a person competent for such purpose, of the said drain and the means suggested for said repair of said drain and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications and estimates of the drainage work to be made by the said C. A. Jones, and an assessment to be made by him of the lands and roads to be benefited by such repair of the said Leach Drain and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, which in his opinion will be derived or incurred in consequence of such drainage work by every road and lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the road and lots or parts of lots hereinafter in that behalf, specially set forth and described and the report of the said C. A. Jones in respect thereof and of the said drainage work being as follows:

Petrols, October 23rd, 1906.
To the Municipal Council, Township of Warwick.
Gentlemen:—In compliance with instructions received from your Honorable Body I have made an examination of the Leach Drain lots 5 to 11 inclusive, concession 5, S.E.R., of your Township and would recommend its being repaired as it is considerably filled in since its last repair.

I would also recommend improving the lower portion across the easterly 3 of lot 5 and extending it a short distance into the drain on the northerly side of the Grand Trunk Railway right of way. The improvement referred to across the easterly 3 of lot 5 would consist of deepening it considerably across this lot more than in the last repair as the improved outlet on the G. T. Ry. will not permit this.
The culverts on the 6-7 side road and 9-10 side road are very much out of repair and need replacing with new ones the cost of which I have included in my estimate of the cost of the proposed work. I have staked and levelled the drain out in sections of 2 chains or 8 rods each commencing with station 0 at the head of the proposed work, which is at the line between the west 1/2 and east 1/2 of lot 11 and station 190 at its outlet into the drain on the G. T. Ry. property making a total length of 734 rods. Each stake is figured the distance it is in chains from stake 0 at its head.

I have also prepared plan, profile specification of work, estimate of cost and schedule of assessment on the lands and roads affected, all of which I herewith submit. My estimate of cost of the proposed work is as follows:

Excavating at 0 to 40, 100 rods at 50c per rod	\$ 80 00
" 40 to 132 308 rods at 55c "	202 40
" 132 to 162 120 rods at 55c "	66 00
" 162 to 190 136 rods at 75c "	102 00
Building new culvert on 9-10 side road	30 00
Replacing culvert on 6-7 side road	60 00
Publishing by-law and registering same	9 00
Township Clerk's fees	7 00
Letting and inspecting work	20 00
Survey, plans, estimates and report	37 50
Assistance on survey	4 50
Total estimated cost of work	\$614 40

SPECIFICATION OF WORK.
The drain is to be dug to the depths and dimensions shown and figured on the accompanying profile with sides sloped 1 horizontal to 1 vertical and the bottom an even grade between stations.
Where a fence is constructed along one side of the drain, the earth is all to be cast to the side opposite the fence and where no fence exists along the side of the drain, the earth is to be cast about equally on each side.

On Monday decision was given on the Frank Hyde, Bridgen, case which was up before P. M. Duncan on the 11th inst. The defendant was from the Balmoral Hotel, of Bridgen, and the charge was obstructing officers while making a search of the premises. He was fined \$50 and costs, amounting in all to \$67.

ITOE, Mange, Prairie Scratiches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by T. B. Taylor & Sons, of

each side, at least 3 feet clear of the edge of the drain in all cases and evenly spaced so as not to be more than 9 inches in depth nor 30 feet in width. In the extension from 190 to 196 the centre line of the drain is to be 6 feet from the line of stakes and any turns or bends therein to be made with a gradual curve.
All branch drains or runways entering the main drain to be let perfectly clear of any excavated cases.
Any cross fences required to be removed by the contractor in the performance of the work shall be replaced by him immediately after the completion of the drain opposite such fences.
The depths figured in black are from the ground beside the stake on the side next the drain and are to govern in preference to those in red which are approximately the amount of deepening of the present drain, and should any error appear in the figured depth at any stake, the grade is to be made to conform with that shown on the profile.
Build two new culverts or bridges, one on the 0-7 side road and one on the 10-10 side road, the former to be 9 feet wide in the clear and 20 feet long, and the latter 5 feet wide in the clear and 20 feet long. The posts for same to be at least 9 inches diameter laced at 3 feet centres and sunk at least 2 1/2 feet below the bottom of the drain, to be laced the full depth of the drain with 2 inch elm or hemlock plank and the stringers covered with 3 inch pine planks.
All the work to be done to the entire satisfaction of the Commissioner in charge of the work.
