

The Locked- Wire Fence Company, INGERSOLL, ONT.

The accompanying cut represents five panels of fence and gate of the **LOCKED-WIRE FENCE**, which is now built with improved corrugated hardened steel stay, and Bessemer steel clamp, a combination which is proof against the most manly stock or designing men. The crimp in the wire, in combination with steel clamp, when locked, acts as a spring, adjusting the fence to heat or cold.

**Perfectly Safe.
Stronger,
Better,
and Cheaper**

than any other fence,
and without doubt
the best fence on the
American continent.

All persons having wire fences erected in the past should use the stays and steel clamps of the Locked-Wire Fence Co. on them. The crimp consumes all the slack, makes the fence tight, and adds over 100 per cent. to its value, at a very small cost.

We desire to inform the farmers and public generally that we are prepared to supply the material or erect this fence throughout the Dominion of Canada.

Recollect, we are the only firm that is furnishing the genuine material in the form of the corrugated hardened steel stay and Bessemer steel clamp.

THE LEMIRE STONE and STUMP EXTRACTOR

UNIQUE OF ITS KIND

Patented 1894.

Lifts a stone of 18,000 lbs.

Can raise, carry off, and put in a fence 4 to 5 feet high, the stones extracted. By buying this strong and durable machine you can build your fence with your large stones instead of buying barbed wire for fencing. You will also clear your land for your mower and binder. In order to raise a stone, use the lever, and the hooks will hold the stone as it rises. You can let it down in the same way, or you can let it fall at once by touching a ring that is in the wheel. The axle-trees of this machine are made of wood, and we will sell it without the wheels to those who have wheels with tires 3 to 4 inches in width. Several farmers can combine and buy one.

PRICE - \$120
