Mezzo Knor Swell; also Maestro Percussion Patent Combination Swell. To which is added the AEROSTATIC EXPRESSION INDICATOR, or REGULATOR, which shows at a glance the amount of pressure upon the bellows; like a compass to the ship in this new improvement to the organ. The great popularity of "The Beethoven Organ" makes it so exceeded by many thousands that of any other style made by us. As shown in the picture, it is a beautiful piece of furniture, and an ornament to any parlor. It is made of selected material, Heavy Black Walnut Case, with Raised Panels, highly polished, Scroll and Carved Work used freely in the ornamentation, thus making it a model instrument. The great variety of Patents owned by the Beatty Organ and Piano Co. and used in this instrument, together with the immense variety and beautiful, but simple combination of Stops, and the great care given to its construction in both the Musical and Mechanical effects, make it combine more excellencies than instruments that are sold through dealers for several hundred dollars.

A MOMENT'S CONSIDERATION will show you the certainty of securing a superior instrument by ordering from us. Dealers can trust to their own shrewdness and the ignorance of the purchaser to conceal defects in the instruments they sell. We cannot know who will test ours, and must send instruments of a quality so superior that their merits are apparent, therefore you take no risk, so order direct from this advertisement, and REMEMBER the Organ will be shipped immediately on receipt of the money and order. If you find on fair trial the instrument is not equal to guarantee, it may be returned at our expense, and the purchase money will be promptly refunded. Address, W. P. HADWEN, Manager, Daniel F.
