Write us for samples that you may compare our salves with what we say about them.

Our  Tube

We claim:

1st, perfect incorporation of each ingredient in its vehicle;

2d, the only Aseptic method of putting up Eye Salves,

3d, they make possible a perfect method of application;

4th, that we manufacture the only painless yellow oxide of mercury on the market;

5th, we have complied with all medical ethics, and each formula is in the hands of the oculist complete, and that no goods will ever be sold to the layman.

Petrolatum white Drs 2  
M. Ft. Salve Sig

**OPACITOL**  
(Manhattan)  
Thiosulfamide Gr 1  
Petrolatum white Drs 2  
M. Ft. Salve Sig

## SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine, (each fluid drachm contains the equivalent of 1-64th grain of pure Strychnine).

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a Slightly Alkaline Reaction.

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; hence the preparation is of great value in the treatment of mental and nervous affections. From the fact, also, that it exerts a tonic influence, and induces a healthy flow of the secretions its use is indicated in a wide range of diseases.

*This preparation can be procured at all chemists and druggists, everywhere.*
