FORT ERIE Address to the Rev. Joshua Smith. Rev. and dear Sir,—We, the Wardens and members of M. Paul's Church, Fort Erie, cannot allow you to take your departure from amongst us without some expression of the feelings with which we have regarded you during your short residence in this Parish.

circumstances which led to your temporary settlement here, connected, as they are, with a loss which we all make a second deplore, are of too painful a nature to allow us to make any more specific allusion to them. Yet we cannot but rejoice that we have been favoured, since the removal of our late much beloved Rector, with the ministrations of one possessing so many of his amiable qualities, and so exemplary in the discharge of the sacred duties of his calling.

Brief as has been your sojourn amongst us, you have both gained our esteem and won our affections; and now that

sained our esteem and won our affections; and now that you are about to return to your native country, we beg to assure you that you carry with you our best wishes for your future happiness and prosperity.

That it may please Almignty God long to spare you to the Church of which He has made you a minister and to grant His blessing upon your labours in the cause of the Coepelof our Lord Jesus Christ, is the sincere prayer of,

Rev. and dear Sir,

Resolved, As the sense of this Convention, that is the ounded duty of every clergyman having a Parochial large in this Diocese, to present annually to his congrelation, the subject of the several diocesan charities specified in a several diocesan charities specified in the several diocesan charities are may best hed in §4 of Canon XV, in such a manner as may best lend to procure the contributions for the support of such charities required by the canon.

This resolution caused a warm discussion; some of the clergy asserting that they could not conscientiously re-commend all their diocesan charities to their people. On account of some charges made against the Missionary Committee the Rev. R. Cox. Chairman of the Committee, oposed that the vote by which they had been re-elected, econsidered, "in order that those who were dissatisfled might have the opportunity themselves, of performing the arduous and responsible duties of that Committee."
The proposition caused some discussion. Dr. Anthon stated that he could not serve upon the committee. Dr. Balch offered to serve if it would tend to restore confidence. Hon. J. C. Spencer said that the plan which he would propose to the Convention was,

1. To lay the pending resolutions upon the table.
2. To reconsider the vote by which the Committee in questions.

VICTORIA DISTRICT FAIR.—The Fair and Cattle Show for this District took place in Belleville on the 2nd Oct. The number of competitors and spectators were far more numerous than on any former occasion. The improvement in young Cattle is the most perceptible change which has taken place since the formation of Agricultural Societies in this District, and these are of a superior quality. We cannot say so much for the Horses, although there were some noble animals on the ground, still, the change for the social amellowate of the work of the competition of the same as those exhibited last year, notwithstanding there were some very fine specimens of different breeds.

In the Dairy Department there was quite enough to satisfy the most fastidious epicure. The quantity of Butter and Cheese was very large, and of the best of quality. DARLINGTON ANTI-STATE CHURCH Asso-CLATION.—A Meeting was held on the 27th ultimo, at Darlington, for the purpose of establishing an Anti-State Church Association. Of course there was the usual amount of falsehood talked about taking the people's money to pay State-paid Priests. Mr. Roaf ventured on the old story that the Clergy Reserves are impeding improvement. He said these were "not in a block, but what is much worse, interspersed amongst your farms, impeding improvement, and spersed amongst your farms, impeding improvement, and deriving a value from your labour, left unsold and unimproved, to be the nests of wild beasts as it were." It would be as interesting to know the locality of these lands, inter-spersed amongst the farms, as it would be to be informed how much money was ever taken from the persons forming an offer was made in June last to the Emigrant Agent, expressive of the Committee's willingness to open the doors of the Institution to this class of applicants If he would agree to pay a dollar a-head for each person. THE BLOOD IS THE LIFE!!! The life principle of man is the blood, no sooner are those organs of the stomach which make and nowish the blood, cleansed of morbid matter, and restored to healthy action by the use of the Forest Pills, and pure rich blood made to flow in the veins by the use of the Forest Wine, than disease begins to AREKCHANT'S STOKE and DWELL-LIMBURY-two miles from Sharon, and five miles from the Rolland Landing: with an excellent Garden and Orchard, Stables and Warehouses. vanish, and the strength and energy of body return. This is the principle on which is founded these great medecines, and by which:

Scrofula, Dropsy, Billious Dis-ases, Dispensia, Indigestion
Weakness, Want of Nervous Energy, Jaundice, Coughs,
Colds, General Debility, Emaciation of the Body, Rhumatism, Ague and Fever, Diarrhea, Cholera, Ulcers and many other diseases are radically cured.

CHOLERA Which at this moment is spreading death and Terror over the eartth, it is still a great mystery,

Asiatic Cholera is but a disease. in its advanced stages, incontrolable and incurable. It is in the ntmosphere. The air everywhere contains Cholera infection. All who breath partake of the poison, all are exposed to the same malignant infection, and

ALL HAVE THE CHOLERA That all experience, Cholers, somer or later, may appear strange, but is nevertheless true. How few are there who have not already experienced that unnatural heaviness, looseness, or not already experienced that unnatural heaviness, looseness, of hearing down of the bowels, a sense of sickness at the stomach, and other strange symptoms? This is cholers; but why, it may be asked, if all inhale the same poison, do some die so suddenly of the disease, while others experience but its slightest symptoms? Our answer is ready! With cholera as with other diseases. In proportion as the system is disordered and charged with morbid matter, does the infection take hold of us, whether it be Asiatic Cholera, Influenza, or other epidemic disorders. If pure blood circulates in our veins, and the body he free from morbid matter, the attack of cholera will be but be free from morbid matter, the attack of cholera will be but light, or searcely preceptable. On the other hand, if the blood and system he charged with morbid matter, the cholera seizes

victim and death follows. De. Halsey does not pretend that his Forest Wine and Pills will cure cholera in its advanced stages; no medicine will do it no medicine will act, it is then roo late. Our advice is, in such

WHAT IS TO BE DONE THEN? What is to be done then?

When the first symptoms are felt, and before the disease takes a serious turn, the first thing to be done is to remove the morbid matter from the system, remove "the fuel to which the infection ignites," then purify the blood, strengthen and fortily the system. This, reader, is precisely the principle on which Dr. Halsey's Forest Pills and Wine act. Five or six of these mild and excellent pills taken at the commencement of the disorder, carries off all infectious matter, and the symptoms of Cholera disappear, while the great purifying and strengthening effects of the Forest Wine fortify the system against further attacks of Cholera or any other disease,
