

Sir Arthur Currie (2)

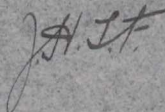

The Executive Committee ~~are~~^{is} quite willing to consider including some of these scholarships in the 1925 budget as for the year commencing January 1st 1925. If by any chance Dr. Dawson feels ~~the~~^{an} arrangement could be made by which Workers in Training could be given instruction at McGill during the second term of the Session, then the budget might be arranged to cover the Workers in Training scholarships from the beginning of the year. If Dr. Dawson feels that they would have the start at the beginning of the session, then the budgets would be arranged on the basis of scholarships commencing October 1st 1925.

I would be grateful if you or Dr. Dawson would advise me at an early a date as possible as to whether you wish the Executive Committee to consider making an appropriation through the Budget Committee for these scholarships as from Jan 1st. or as from October 1st 1925.

May I conclude by saying that I do most heartily thank you and the School for Social Workers Committee and the Board of Governors at McGill for the very generous appropriations you have given to the Department to enable the school for Socialworkers to develop as it has done.

I am convinced that Miss Reid's appointment will prove ~~a~~⁺ very real value to the Community, and have far reaching effects in years to come.

Yours sincerely,

Secretary.
