

west shore. In sailing in or out of the bay you must not approach too near the south point of the *Great Island*, because of some sunken rocks, which lie a quarter of a mile from the shore.

A little to the westward of *Bonne Bay*, between it and *Facheux* is *Musketa Cove*, a small inlet wherein is from 30 to 47 fathoms water.

The entrance to the bays of *Facheux* and *Dragon*, lies west 4 miles from *Bonne bay*, and N. W. by N. near 3 leagues from *Pass Island*; this entrance is very conspicuous at sea, by which this part of the coast is easily known. *Facheux*, which is the easternmost branch, lies in north 2 leagues, and is one third of a mile broad in the narrowest part, which is at the entrance, with deep water in most parts of it. One mile up the bay on the west side is a cove, wherein is anchorage in 10 fathoms, with gradual soundings into the shore, and a clear bottom; and farther up the bay, on the same side, are two other coves, wherein is anchorage, and plenty of wood and water. *Dragon Bay* lies in W. N. W. one league, and is near half a mile broad, wherein is 60 and 70 fathoms water, and no anchorage till you come to the head, and then you must be very near the shore to be in a moderate depth of water.

One mile to the westward of *Facheux* is *Little Hole*, wherein is shelter for shallops. And one league to the westward of *Facheux* is *Richard's* harbour, a snug place for small vessels, and fishing shallops, wherein is not more than 23 fathoms. The east point of this harbour is a very conspicuous high head, lying W. half S. 7 miles from *Bonne bay*, and N. W. a quarter W. 3 leagues from *Pass Island*.

W. by N. one league and a half from *Richard's* harbour, is *Hare bay*, which lies in north about 5 miles, is about one third of a mile broad in the narrowest part, with very high land on both sides, and deep water close home to both shores in most parts of it. Near one mile up the bay, on the east side, is a small cove, wherein is anchorage in 20 fathoms, with gradual soundings into the shore; and one league up the bay, on the west side, is a very good harbour, wherein is good anchorage in 8, 10, 12 and 15 fathoms, and plenty of wood and water.

W. by N. 4 miles from *Hare bay*, and one league N. by W. from *Hare's Ears* point is *Devil's bay*, a narrow inlet lying in to the northward one league, wherein is deep water, and no anchorage till you come close to the head.

The bay of *Recontre*, which lies to the northward of *Hare's Ears* point lies in W. by N. 2 leagues, it is near half a mile broad in the narrowest part, with deep water in most parts of it. To anchor in this bay, you must run up above a low woody point on the south-side, then haul under the south shore until you are landlocked, and anchor in 30 fathoms water.

Hare's Ears point is a pretty large point, with a ragged rock upon it, that from some points of view looks like the ears of a Hare; it lies west southerly 11 miles from the point of *Richard's Harbour*, and W. by N. half N. 6 leagues from *Pass Island*; off this point is a fishing bank that extends a mile from the shore, whereon is from 20 to 36 fathoms water.

One mile to the northward of *Hare's Ears* point, at the S. W. entrance into *Recontre*, is *New Harbour*, a small harbour, wherein is anchorage for small vessels in 16 fathoms water, and good conveniences for a fishery.

West 2 miles from *Hare's Ears* point is the bay of *Chaleur*, which lies in first N. W. then more northerly, in the whole 2 leagues; it is about half a mile broad, and hath very deep water in most parts. At the north entrance into the bay, close to the shore, is a small island of a tolerable height; and half a league within the island, on the N. E. side of the bay, is a rock above water; a little within this rock, on the same side, is a small cove with a sandy beach, off which you may anchor in 28 fathoms, a cable's length from the shore.

W. S. W. near half a league from the bay of *Chaleur* is the bay *François*, which is a small inlet, lying in N. N. W. half W. one mile; it is near a quar-
