

The Canadian cases are all brought down to the date of handing the manuscript to the publisher. If there are any missing, it is because they do not elucidate any question not previously or otherwise covered by authority.

I am indebted to W. C. Chisholm, Esq., Solicitor to the Corporation of the City of Toronto, for copies of the opinions and decisions of judges in several cases that have not been reported. These will also be found scattered through the work.

I wish furthermore to acknowledge my indebtedness to the authors of the following text books for information I have been able to derive in the preparation of the work: Jones on Negligence of Municipal Corporations, Dillon on Municipal Corporations, Biggar's Municipal Manual, Williams on Municipal Torts, Elliott on Roads and Streets, Bevan on Negligence, Pollock on Torts, Thompson on Negligence, and Thompson on Highways.

It is hoped that the work may prove of service to the profession and to municipal officers generally.

J. HERBERT DENTON.

Toronto, February, 1906.
