GRANVILLE STREET,

One door north of Dr. Black's, and near the Baptist
Chapel, is

DR. MACALLASTER'S

Complete Dental Establishment,

Where every variety of Dentistry is done in a skillful manner.
Those desiring Artificial Teeth should not fail to call and examine
Specimens before going elsewhere.

Dr. M. would respectfully call attention to the

VULCANITE RUBBER PLATES

FOR

ARTIFICIAL TEETH.

He has used it three years with great success, and it is in every respect better than Silver plates; he has now great pleasure in recommending it to his patrons and the public; in the United States it is being used by all the first-class Dentists; at the Dental Convention held in Ohio in July last, the whole convention spoke in its favor; it is also used in England to a great extent; it has many advantages over all other kinds of work, it is lighter, it is free from taste, it is strong and durable, and can be repaired should it break; it can be inserted in full Sets or partial Sets with suction plates or attached; there is no plate so easy in the mouth, or so cheap.

P. S.—Ladies from the country can be accommodated with Board and Lodgings while having their Dentistry done at the Complete Dental Establishment, 43 Granville Street,—without extra charge.
