Whooping Cough

From the board of health reports for the past month, it is evident that there

son, who returned from India some little time ago, are now living in Man-chester, where Capt. Denison expects to be stationed for some time.

Above your sinks have sorew gooks, on which hang small articles used often. It will save many steps.

For darning stockings, use crochet cotton. It is preferable to darning cot-

A white porcelain bath tub that has cleaned by the use of spirits of turpentine applied with a fiannel cloth.

The mica windows of coal stoves can easily be cleaned with a soft cloth dip-ped in vinegar and water. This should be done when putting the stove up.

Good Cleaner

When cleaning delicate fabrics, laces, ribbons or plumes use a mixture of flour and gasowne. Mix this as you would flour and water. Dip the articles in and scrub them thoroly. Hang in the air, without shaking, until dry. Then shake them gently. All the dirt will come out with the flour. This preparation will clean the most delicate materials of the palest colors. materials of the palest colors.

At the Theatres

Mme Nazimova at the Princess To-

Mme. Nazimova, the Russian actress will be the star at the Princess Theare many cases of whooping cough in atre this week, opening tonight. Mme. are many cases of whooping cough in the city. Whether it is more prevalent now than is usual, I do not know, but it is just as wise for the young mother to know something of the symptoms of the disease. It is not well to worry over every gurgle and gasp your baby gives, else you will be in no condition to murse if he should become ill; but every mother should take a common sense view of the everyday problems that confront bables.

For a week or ten days whooping cough runs like an ordinary cold on the chest. Then gradually the coughing grows more severe and vomiting may follow. After a severe coughing fit the breath is caught with a peculiar noise known as the "whoop."

This disease is not generally as contagious as some of the other infections, but it is quite as dangerous once it is acquired. It cannot be carried by a third person, but it may be contracted in the open air. Keep your children well away from whooping cough victhe city. Whether it is more prevalent Nazimova's, play this season is "The

and Sybil Mattland. There will be the tit is acquired. It cannot be carried by a third person, but it may be contracted in the open air. Keep your children well away from whooping cough victums, especially if there is a baby in the family, for it is most fatal among children under one year of age.

A child suffering from this disease should be kept away from other children for two months, or even longer if the cough continues.

When a child shows the first symptoms of any serious filmes, put him to bed immediately and didute the food to one-half the usual strength. Take his temperature, and if the bowels are constipated give a teaspoonful of castor oil, but no other medicine except with the consent of a doctor. Keep other children from contact with the patient, As soon as possible teach your baby to show you his tongue and to garge his throat. This saves a lot of trouble when illness comes.

Home Helps

Above your sinks have serew hooks, on which hang small articles used often. It will save many steps.

For daming stockings, use crochet conton, as it does not harden when washed.

If paint spots stick to window panes do not use a knife to loosen them. A cloth wet in hot vinegar will clean them perfectly.

The Crisp, Tasty Toast

Food science has taught us that there is much body-building nutriment in the whole wheat grain which we do not get in white flour. The only question is how to make the whole wheat grain digestible. That problem has been solved in the making of

It is the whole wheat, steam-cooked shredded, compressed into a wafer, and baked—the maximum of nutriment in smallest bulk. Many people prefer it to ordinary bread toast. Heated in the oven to restore its crispness it is delicious for luncheon, or for any meal, with butter, potted cheese or marmalades.

popular young Irish tenor is at his best in the type of romantic roles which he has been given in this piay, and it is said that in the character of Gerald O'Donnell he has found the most satisfying part of his whole career. The hero of the play is a young insurgent leader in the "rising" of 1798, who runs the blockade to France to secure a charter which will protect the estates of his flancee, the Rose of Kildare. He is shipwrecked on his return and pursued by a relentless private enemy, who secures his arrest by the military authorities and has him condemned to be shot. An amnesty arrives in time to prevent his execution, and he lives to wear his Rose next to his heart.
