POLICEMAN FIRES SHOTS **TO EFFECT ARREST**

James Lawrence is Charged With Theft of Tools of Great Value.

Charged with entering the shop of White and Thomas, sheet metal workers, 212 Sincee street, on several occasions and stealing tools of great value, James Lawrence, no home, was arrested on Sat-urday night after a lively chase by De-iective Newton, who found it necessary to draw his revolver and fire two shots at the man before he surrendered. According to the police, Detective New-ton was passing a York street second-hand store when he saw Lawrence en-deavoring to make a bargain with the dealer for a bag of tools. When the of-fiver entered the shop Lawrence ducker and ran out of the store and down York

who know his medicines, but are not familiar with his interesting life story.

The boyhood days of Dr. A. W. Chase were spent in the vicinity of Buffalo, N.Y., and as he had early decided to be a medical doctor, he took the first opportunity of attendance at the University of Michigan, located at Ann Arbor.

After graduation he began the practice of medicine in Ann Arbor, Mich., and, at the time represented in the illustration, his reputation as a physician of exceptional skill had spread far beyond the confines of his State, and people came to him for treatment from many miles around.

As he was accustomed to travel across western Ontario to his native city of Buffalo he frequently stopped over at Canadian towns and cities for special consultation, and in this way made many friends in Canada. The character and personality of Dr. Chase was such that to

know him was to love him. He inspired confidence and respect, and made lasting friends wherever he went.

And thus it happened that when Dr. Chase placed his most successful prescriptions on the market, so that the people might obtain them more readily, they met with a reception in Canada as well as in the United States.

This letter from Mr. Parish will give you some idea of how Dr. Chase's Medicines became known throughout Canada.

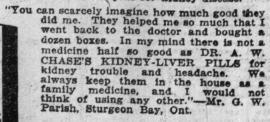

Went to Dr. Chase in 1867

"In the year 1867 I was very bad with my kidneys. I could not work on account of my back being lame, sore and painful all the time. Though I carefully followed the directions of our family doctor he was unable to do me much good. At this time Dr. A. W. Chase was becoming known as an especially successful physician, and on the advice of my uncle, Charles Williams, I went to Dr. A. W. Chase at Ann Arbor, Michigan, and he gave me a box of his pills for kidney disease.
