"A Great Nation Misrepresented."

Editor World: The article on this subject appearing in to-day's World, as well as one which you recently published, on a similar subject, deserves the thanks of all truly loyal and particite Canadians. Your fearless exposure of the character and aims of the United States representatives is certainly in marked contrast with the milk and water vaporings of the so-called leading dailies—The Globe and The Mail and Empire. Politics and party seem to be the first and only consideration with these newspapers. Each asks the question: "How would such an article affect our party interests?" and their utterances are measured by this standard alone. In the face of the supreme arrogance and insolence offered to Canadians by the press and people of the United States, your outspoken and timely articles upon the duty of loyal Canadians are most timely, and cannot be too highly valued. It is to be hoped that these articles will be "marked, learned and inwardly digested," and be so appreciated as to increase the daily increasing circulation of a fearless and enterprising paper. Patriotism. Aug. 16, 1897. "A Great Nation Misrepresented."

Storms Damaged Railroads. Pueblo, Gol., Aug. 16 .- Storms around Pueblo damaged railroads north, west and south. Twenty miles north of Pue-blo hail fell in great quantities and dirifted to a depth of three feet, in some places covering the surface of the ground three inches. Twenty miles south of Pueblo a cloudburst sent Salt Creek and the Attoyas on a tear and damaged a thousand feet of Denver and Rio Grande tracks, besides the approaches to several

ENGLISH WHEAT FOR FRANCE.

London, Aug. 16.—The Mark Lane Express in its weekly review of the grain situation says: "The French wheat harvest over-yield is estimated at 33,000,000 quarters, though excellent judges say it is not so much. The German yield is expected to be 1,000,000 quarters below that of 1896. Austria-Hungary will be almost self-supporting, with nothing to spare forexport. Russia reports that her wheat is somewhat below the average, though not seriously so." In conclusion, The Mark Lane Express notes the curious fact that England last week exported wheat to France.

STOCKS AND DEBENTURES

ceived the following despatch to-day from New York:

The stock market opened about the best prices and closed about the lowest of the day. The range was narrow, and the market comparatively dull. The market looks overbought, and the manipulation in interests of bulls is rather too apparent. Stocks are now in a vulnerable position, the outside public being heavily long. It would be hard to find a market for them should they wish to sell. One of the strongest features has been the excellent prospects we have had of raising a bumper spring wheat crop. We regret to say that the outlook now does not justify these expectations. Our reports indicate that even an average crop in the Northwest Is unlikely. This is probably a bull year, and short selling may prove dangerous, but it would seem conservative on the part of longs to take profits and await a healthy reaction before again entering the market.

Wheat—The market was very sensitive to-day, and consequently fluctuated in an erratic way all day. The selling pressure was light, and the recoveries from the declines were swift and sudden. The line held by the Allen Grier syndicate was apparently undisturbed, but there was apparently undisturbed, but there was considerable realizing by the smaller longs around top prices. The closing was firm at 1½c advance over Saturday's closing prices. Cable advices continue strong, and, in spite of the advance to-day. New York reported over 30 loads worked for export. Northwestern advices are not very encouraging, and the weather conditions are not calculated to cause any improvement in the growing wheat. The market acts-very strong, and we rather think still higher prices are probable.

Corn and Oats—The corn market opened strong, about ½c over Saturday's close. There was active trade, with & good deal of buying for foreign account and some speculative purchases on the cool weather in the corn belt and on good shipping demand.

Provisions—Opened strong and higher, with the grain markets. Hors. 2000 mere

mand.

Provisions—Opened strong and higher, with the grain markets. Hogs, 3000 more than expected. Packers were good buyers of September ribs, and later were sellers. The market was inactive until near the close, when lard was bought by Anglo-American Provision Co.and commission houses, closing at the highest prices of the day. Estimated hogs to-morrow, 15,000.
