EXPESSES HIS
Opinion of 1903 Immigration.

Winnipeg, Jan. 19.—Hon. Clifford Sifton, Minister of the Interior, arrived this morning. Seen by a reporter, Mr. Sifton said: "I found the country on my trip thru the west exceptions of the said."

When these two vessels would be launched Mr. Hill could not say, nor could be decide who would christen them. When asked if it was his intentionate make the long trip, to Seattle in one of them, he laughed and said. er, Mr. Sitton said: "I found the country on my trip thru the west exceedingly prosperous. I visited Brandon and Regina. The first is in better condition than it has ever been before, and business appears to be increasing all the time. Owing to the settlement in the neighborhood of Regina the business interests have become more firmly established. I found that land which could be bought a few years ago for almost nothing is now selling at from \$12 to \$15 an acre.

"What are the indications for a large American immigration this year?"

"So far as I can judge there will be probably between 30,000 and 40,000 come over this spring. Last year about 35,000 American immigrants came over and settled."

Mr. Sitton said: "I found the west exceedingly prosperous. I visited Brand that, for I can't find the time."

"What do you think of the business prospects of the country? Will we continue to be prosperous, or otherwise?"

"I cannot speak for this section of the country, but for the Far North-live west there-is a great field of development. When you remember the great stretch of country between Lake Superior and Puget Sound, and the 'fact that for every square mile there are, on the average, only twelve residents, it is easy to estimate the possibilities and the opportunities."

Mr. Hill reverted to the rumors printed about him, which had aussed annoy-
