up the question of better fire protection along the waterfront," said a wellknown marine man on Saturday. "At present there is no felling where a fire could be stopped if it once got in around the shipyards at the foot of Bathurst street, and in that locality generally. Not that the fault would be with the fire department, but it would be hard to get sufficient water. Toronto has an extended waterfront that is building up rapidly. There are docks, steamers and vessels, big coal yards, shipyards, factories, warehouses, and the like, scattered all along the Esplanade and the bay front. In case of fire, there is only the water service from the city mains, and a fire can only be fought from the one side. Take the the city mains, and a fire can only be fought from the one side. Take the lake cities of importance across the line, and a fire tug is one of the valuable parts of the equipment of the fire department. Buffalo, for instance, has three for the protection of her valuable marine interests. The last valuable marine interests. The last one was put into commission quite recently, and it is just such a tug that Toronto ought to have. The Grattan, as it is called, is one of the largest and most powerful fire boats in the world, and cost about \$100,000. Of course, Toronto could get along with a less expensive one, but the Grattan is remarkable because of her capacity for winter work. markable because of her capacity for winter work. As an ice-breaker the tug has no superior on the Great Lakes, and 20 inches of solid ice is no more a bar to her than a crust of scum. Built of steel, with an armor 11-2 inches thick, and propelled by two 20-22 high pressure engines, with an aggregate of 800 horse power, she cuts thru the of 800 horse power, she cuts thru the frozen channels, leaving a mass of frozen channels, leaving a mass of crushed and broken ice which would be little obstacle to the smallest craft. She is 118 feet over all, with 106 feet 9 inches on the water line. For fire fighting she has three istand ripes, capable of sending 31-2-inch streams a distance of 800 feet from three 12-inch programs. She is capable of pouring 11. pumps. She is capable of pouring 11,500 gallons of water a minute onto a fire. It seems to me that if this city

The following are the officers of the steamers of the Thousand Island and a good fire tup the money would be regarded as well spent some day."

To Repair the Wharves.

At last, the Board of Control has made up its mind. The patchwork policy with regard to Geddes' Wharf has been declared "no go." The wharf will be rebuilt from the waterline, where inccessary. This will occupy some time, but the men will be taken off the Bay-street cribwork once again, and work will begin in earnest on Geddes' Wharf to-day.

Band at the Island.

Yesterday about five thousand persons took advantage of the increased accommodation given by the Ferry Company, and visited the Island City's summer recreation spot, which is looking in first-rate condition.

The steamer Shamrock went into commission on Saturday, and was join-

DO YOU SUFFER

LOST STRENGTH

Nervous Debility, Varicocele, Early Decay and

Waste of Power? They are Quickly

and Forever Cured by the Grand

Product of Nature,

DR. McLAUGHLIN'S

ELECTRIC BELT

With Belts for Weak Men.

Electric Suspensory Free

This Suspensory is made for the purpose of treating all special ailments of men, and assures a cure of all waste of strength, early decay and debility. Its current is invigorating and wonderful in power. I can give back to any man what he has lost by violation of the control of the control

the laws of nature. I can stop all drains upon his vitality in ten days. Power which has been lost for years can be restored in a few months.

PMILIP WHITNEY, Hintonburg, Ont., wrote me the other day:—I have only worn the Belt for about one month; the drains have stopped, that burning sensation has disappeared, I have gained in weight. No money could buy my Belt if I could not get another one.

which men suffer, are due to an early loss of Nature's reserve power through mistakes of youth. You need not suffer this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

ments from which men suffer can be traced to it.

can cure vou?

No man should suffer the loss of that vital element which renders life worth living: no man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from

My Electric Belt, with special Electric Suspensory (free), will restore your power. It check all the unnatural drains and give back the old vigor of youth.

The drain upon your power causes kidney trouble, rheumatism and stomach ailments. You know it is a loss of vital power, and affects every organ of the body. Most of the ail-

I have cured thousands of men who have squandered the savings of years in useless

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn as old style belts) and you feel the nerves tingle with new life flowing into them. You get up feeling refreshed, with the vigor of youth returning to you.

I don't ask you to take my unsupported word as to what my Belt will do. Tell me where you live and I will give you the name of a man in your own town I have cured. When your neighbor tells you Dr. McLaughlin's Electric Belt cured him, will you then believe I

My Cures Prove the Truth of My Arguments:

NORMAN CARMICHAEL, Carleton Place, Ont.—I now feel far stronger and better than I did before wearing your Belt. I consider that I am completely built up, and feel strong and healthy in every way.

J. M. PATTERSON, Smithville. Ont.—You must excuse me for not writing before, as I have been very busy. I am getting along nicely. The varicocele has disappeared, and the parts are regaining their proper size.

JOHN KELLY, Holland Landin Z. Ont.—Your Belt has cured me of rheumatism. It is just the thing for this trouble. I was so bad that I could not feed my own stock nor raise my hand to my head. I don't feel anything of this now.

WM. J. THOMPSON, Omermee. Ont.—I have been wearing one of your Belts for about thirty days, and feel more than pleased with it. I do not feel any of the rheumatism now. I am also a great deal stronger and have none of that the feeling after my day's work is done. Thanking you for your good advice.

HENRY ARMSTRONG, Gainsboro, Assa.—I am happy to say that the losses have stopped completely, and the varicocele has all disappeared. I have just worn the Belt for thirty days.

T. A. MCCORMICK, Copper Cliff, Ont.—It is now thirty days since I began using your Belt, and I find a great improvement from its use. I sleep soundly every night, something I didn't used to do, and my appetite is very good. I haven't had a loss for over four weeks. Thanking you from the bottom of my heart, and wishing you every prosperity in the future.

DR. McLAUGHLIN'S OFFER.

The proposition I make is a fair one, and should remove all doubt as to its ability to cure all forms of weakness in men and women. I take all the chances myself. If my Belt should fail you have the satisfaction of knowing that the strongest and best electric appliance in the world has failed. All I ask of any man or woman is that, if they offer me reasonable security, they can

PAY WHEN CURED.

READ WITH CARE! Every patient wearing Dr. McLaughlin's Electric Belt receives FREE, until cured, the advice of a physician who understands his case.

DR. M. () McLAUCHLIN, 130 Yonge Street, TORONTO, ONT.

It explains how my Belt cures weakness in men and women, and gives prices. Send for it to-day

I have a Book especially for women. Address:

FREE BOOK.—If you cannot call, write for my beautiful descriptive book, showing how my Belt is used.

The proposition I make is a fair one, and should remove all doubt as to its ability to cure all forms of

Toronto Ferry Company's fleet, formerly owned and operated at Owen Sound by Mr. McLauchlan, has been chartered by Marks & Wiley of Port Arthur, and was to have left Toronto on Saturday for that point. Leparture, however, was delayed, and it will leave some time this week. The Mazeppa will be used as a ferry steamer, running to several places within a short distance of Port Arthur.

But Did No Good.

Milburn's Heart and Nerve Pills CURED.

Read what Miss L. L. Hanson, Waterside, N.B., says: "I feel it my duty to express the benefit I have received from Milburn's Heart and Nerve Pills. A year ago last spring I began to have heart failure. At first I would have to stop working and lie down for a while. Then I got so bad I had to give up altogether and go to bed. I had several doctors attend me but they did me no good. I could get no relief until urged by a friend to try Milburn's Heart and Nerve Pills. Before I had used three quarters of a box I began to feel the benefit and by the time I had taken three boxes I was completely cured."

Milburn's Heart and Nerve Pills cure nervousness, sleeplessness, palpitation of the heart, skip beats, and all troubles arising from the heart or nerves. Price 50 cts. box, or 3 for \$1.25, all

#### Heat Conservation

A hot oven and a cool kitchen is what every housewife is looking for this summer. It is absolutely impossible with a coal range, and almost as impossible with the ordinary gas range. The

# Improved Oxford Gas Range

makes a hot oven and a cool kitchen a practical certainty. The oven is lined with asbestos—this keeps the heat in and leaves the kitchen cool. It also heats the oven more quickly to a higher degree and with less gas than any other range. The illustration shows that immediately outside an oven hot enough to cook a roast it is comfortably cool. We would like to show you this and many other improvements peculiar to the Oxford Gas Range. Won't you call at one of our agencies? We can prove to you that this range does away with kitchen drudgery. If you can't call, write for our leaflet—it will interest every housewife.

UNION FORMED IN JAIL.

Better Grub or Strike, Convicts Cry—Put on Bread and Water.

Indianapolis, Ind., April 26. — When fifteen men confined in the Muncie Jail to the stone pile, he was told by one of them that the prisoners had organized a union, elected the speaker president, and had adopted a resolution not to work unless a larger bill of fare was promised for the ruture.

It was the turnkey's first experience with a union, and he attempted to show the prisoners the unreasonableness of their demands, but they replied firmly that they would not break stone except upon the conditions named. Finding them determined, the turnkey locked them in separate cells, and announced that he would put them on a bread-and-water diet until they were ready to work. William R. Boyer of the Broom Makers' International Union made application for the extension of the jurisdiction of his organization, and to be known as the Broom and Brush Makers' International Union. J. T. Dobson of the Bricklayers' and Masons' International Union requested the Council not to grant a charter to the Stone Masons' International Union, inasmuch as his organization claims jurisdiction over that trade, and the question of the work unless a larger bill of fare

INDURATED FIBRE WARE,

bread-and-water diet until they were

One of the most novel and also im-One of the most novel and also important of The Eddy Company's industries destroyed by the great fire in the spring of 1900 was their Indurated Fibreware Factory, which, at that time, was turning out all sizes of Tubs, Pails, Wash Basins, etc.

All of their other mills were quick-

ly rebuilt on a larger scale than ever before. The Indurated Fibreware Factory has, however, just resumed opera-tions, but is now turning out better goods, in greater number, than ever, as, by the new and improved processes, by which the ware is made, it is vast-

by which the ware is made, it is vastily superior to anything else of the kind on the market.

The reputation of the Eddy Fibreware was well established in Canada before the fire, so it will now rapidly take the place of the ordinary wooden articles for all house and factory use.

The new factory is already taxed to its The new factory is already taxed to its limit to supply the demand. This ware being light, strong and durable, as well as handsome in appearance, its superiority is at once apparent, and to those of our readers who have not used it, we would say, give it a trial.

New York, April 26. — The Executive Committee of the National Rifle Association has fixed May 18, 19 and Association has fixed May 18, 19 and 20 as the dates for the trial shoots, to determine upon the personnel of the team which is to represent this country at Bisley, England, in competition for the Palma Trophy. The trials will take place at Seagirt, N. J.
