CANADIANS WILL NOT FAITH WITH THE DEAD HEROES

"We Are Not Going To Let Huns Hold Land Where Our Dear Ones Sleep."-Chaplain Almond.

Montreal, April 28 .- "We are not going to let the Hun hold the land where our dear ones sleep! We are not going to let the Hun trample that pathway our sons and brothers have trod. If the war lasts five or ten years we are going on."

This was the spirited declaration at the Ypres anniversary celebration yesterday by Rev. Canon Aimond, chaplain who has recently returned from France. Canon Almond declared that General Byng had never sent men

over the top without going on his knees, while General MacDougall, who commanded the Canadians towho commanded the Canadians today, had told him after an examination of the lists, that not one
Canadian had won honors at the
front but had come from a Christian home in Canada.

"You cannot leave God out of
your life there," he said.
Col. Almond concluded by reciting Lieut.-Col. John McCrae's famous poem on the grayes in Flanous poem on the graves in Flanders, and declartd: "We are not going to break faith with them, please God. We are going on to victory, through our Lord Jesus Christ."

BRITAIN WILL SPEND 40 MILLION DOLLARS

Brantford, April 29.-Major Gordon Smith, superintendent of the Six J. Smith, superintendent of the Six Nations Indian Reserve, this morning announced that he had been instructed by the Indian department at Ottawa to engage the services of Mr. W. S. Brewster, K.C., "to punish those guilty of committing indignities on the body of the late Alfred Isaacs, a member of the Six Nations."

Alfred Isaacs died in the Brantford General Hospital April 1 from injuries alleged to have been inflicted by his half-brother. George Duncan of this city, during a fight in the latter's home on Sunday, March 31.

Duncan was arrested and charged with murder, the charge being later reduced to manslaughter. He is now out on \$1,000 bail. Shortly after the body of Isaacs was interred at Sour Springs Cemetery, it was reported that the remains had been disinterred and viewed. This was found to be correct, and a few days afterwards the acthorities admitted that the head had been severed from the body and retained by the authorities to be used as evidence in the trial of Duncan.

THE WAR SITUATION

The Germans began today what seems to be a general assault on the British hill positions on the Kemmel front, niii positions on the Kemmel front, southwest of Ypres, opening a new phase of the great drive in Flanders. Apparently the crucial test of the Allied holding power in this area is at hand. The preliminary bombardment, started in the early morning, took in a tenmile front from Meteren, west of Bailleut to Voormezgele, two miles south of leul, to Voormezeele, two miles south of Types. Infantry attacks in this area developed shortly afterwards, and the battle appears to have been on in earnest when Field Marshal Haig's report was Issued in London at noon.

Striking With Fury. Striking With Fury.

The enemy has been striking with great fury at Voormezeele for the past two or three days, evidently hoping to drive in behind Ypres and break up the orderly withdrawal of the British from the further portions of the Ypres salient, which they have been evacuating.

Gen. von Arnim as been successfully. ent, which they have been evacuating. Gen. von Arnim as been successfully held off from this southern bulwark of the salient, but meamwhile he has been preparing to take advantage of the success he won last week in the capture of Mount Kemmel, which he was unable to develop immediately because of the stiff Allied resistance.

After the Heights. Further attacks in the Voormezeele sector may accompany the delivery of today's blow, but the greatest force of this thrust seems likely to-manifest itself in the vicinity of Locre, where Scharpenberg, Mont Rouge, Mont Note and other eminences are the enemy objectives. The French, who are holding the line at Locre, fortified themselves late last week by clinging to this village.

NEW TRY FOR YPRES.

With the British Army in France, April 29-(By the Associated Press).-The 4th German army this morning heavily attacked the Allied front in Flanders. Prisoners captured have admitted that the German intention is to attempt to capture Ypres. Severe fighting is reported in both the French and British areas. The attack extends over a front of about fifteen miles. The Beigians on the Yser front also are reported to have been attacked.

HUN MORALE POOR-REVOLT NEAR? With the French Armies, April 29.—It is generally thought that with the second drive at Amiens a new period of desperate fighting has begun after a pause which has given the Germans time to bring up their artillery. The first round strengthened the Allies confidence, if that were necessary, and will conribute to a corresponding degree to a depression of the German morale, which

risoners are unanimous in declaring is greatly lowered. The Allies have only to maintain their resistance with the same success, it is held, during a comparatively brief period for an all-important factor to intervene, which a French general emphasized strongly a few days ago—a reaction the German army against the extravagant hopes with which the enem inched his "decisive battle of the war."

London, April 29.—The Germans this morning opened a heavy CARRY ON FOOD PRODUCTION Serious Anti-German Demon- bombardment with high explosives and gas shells on the entire front between Meteren and Vormezeele, south and southwest of Ypres, the war office announced today. Infantry attacks developed shortly afterwards.
