THEATRE LICENSE FEES ARE TO BE INCREASED

Moving Picture Institutions to Pay \$100 a Year—Curious Mistake in Regard to Prescribed Area.

HAMILTON, Oct. 15.—(Special.)—Richard Press, contractor, in-charge of the city of Hamilton, has decided this evening at his home, 142 North Ferguson-avenue. He was 68 years of age and leaves a widow, one son and three daughters.

The markets committee this evening decided to raise the license fee for moving picture shows from about \$20 a year, according to the existing law, to \$100 a year. This will also cover the Association Hall. The license fee for the Grand, Savoy and Benoit Theatres is increased to \$100. It was discovered that, according to the minutes, council had adopted a report recommending the location of small theatres and moving picture shows in the area bounded by Caroline, Hunter, Wellington and Barton-streets. Mayor McLaren was much surprised, and decided that there must have been some mistake, as it had been the intention of the council to defeat the report. It was probably he read at the next meeting. Ald. Robson was about the only member to oppose the increase of the license of the moving picture shows. He said they were the poor man's theatre. The mayor said that some people who spent their money in such places come to the city for work. Carstaker Hobson, when the license convention was suspended for a month for incivility.

Wants to Issue Debentures.

At a special meeting of the fire and water committee it was decided to ask the Ontario Railway and Municipal Board for authority to issue debentures for \$60,000 for waterworks construction. A new system of bookkeeping will be instituted in the department at the beginning of the year, and it is expected that there will be an opportunity for graft under the present system, although there was no suspicion that anything of the kind had occurred. It was stated that money borrowed for certain purposes was often used for entirely different purposes.

J. A. MacDonald of Toronto was the speaker at the opening luncheon of the season of the Canadian Club at the Hotel Royal. He made an address at an honorary member of the club.

J. Rhuem had one of his hands badly crushed at the steel plant at the noon, and one of his fingers had to be amputated.

Boys Cause Fire.

Frank Sullivan and Clifford Sinker, youngsters, are charged with starting the fire in the shed at the Gartschore and

Unightly Pimples and Blackheads

Excite Unfavorable Comment by Others, and Are the Bane of One's Existence.

The disease called acne, commonly known as pimples, is one which is very frequently in evidence, as it usually appears upon the face. It is caused by an inflammatory process of the sebaceous, or oil glands and hair follicles, which usually exhibits itself in the form of papules, nodules, or pustules, from the size of a millet-seed to that of a large pea or bean.

Inflammation is caused by a stoppage of the oil glands and pores, and the prevention of further exudation of impurities, and the elements of the body impurities are usually passed through the pores. One-fifth of the body impurities are disposed of by sending them out through the pores, and when the system becomes run-down and weakened, and the blood impoverished, and filled with a large amount of impurities, and the pores and oil glands plugged or stopped up from any cause, pimples, blackheads and boils are the natural and inevitable consequences.

A slight inflammatory redness may occur around a plugged gland or pore, owing to the congestion which exists, but at times the inflammation becomes very much greater, and large, hard pimples are formed from the size of a pea to that of a hazel-nut, like boils, extending deep into the skin, in which a process of suppuration proceeds slowly.

In all skin diseases such as acne or pimples, comedones or blackheads, furuncles or boils, and carbuncles, the logical treatment for their relief is to purify the blood, and cleanse it of all impurities, so that the skin will not be burdened with excessive secretions of the oil and perspiration glands, and will not become plugged up by morbid processes.

STUART'S CALCIUM WAFERS have been on the market for a number of years, and have attained the greatest prestige among both the medical profession and the people, and acquired an enviable reputation as the most powerful blood purifier and cleanser of the system yet discovered. They contain calcium sulphide, which is much superior to powdered sulphur, saraparilla, arsenic, blood-root, sassafras, and potassium iodide, in the work of relieving the blood and general system of all impurities, blood-poisons, bacteria, and disease germs.

Through the use of these wafers, every blood-and-skin disease is banished, including eczema, tetter, ringworm, barber's itch, psoriasis, herpes, skin ulcers, chronically running sores, Itchin, scrofula, scurvy, and many others.

Buy a package from your druggist without delay for 50 cents, and send us your name and address for trial sample free. Address F. A. Stuart, 175 Stuart Bldg., Marshall, Mich.

The Gladstone, Corner Queen and Gladstone Avenues.

Is prepared to receive permanent winter guests, at reasonable rates. Operates on the European and American plan, and service of the best. Under entirely new management. For rates, etc., phone Park 4, F. B. Gianelli.

SELL GILLIES LIMIT

Tenders Invited for Another Block of Twelve Hundred Acres.

Another sale of lands in the Gillies limit is to be made by the department of lands, forests and mines. A strip of land containing 1200 acres, lying immediately south of the portion already sold, will be offered for sale in 20 acre parcels. Tenders will be received until Nov. 15. The conditions are similar to those of the previous sales. A royalty of 10 per cent. will be imposed on all ore taken from the limit.

When this sale has been completed in all about 2100 acres of the Gillies limit will have been disposed of, leaving a balance of about 62,000 acres.

Algonquin Park in October is Delightful.

One of the many remarks made by tourists who go to the northern resorts during the months of September and October. It will be a good spot for your Thanksgiving Day holiday trip. Call at city office of Grand Trunk, the line that goes there, and full information with illustrated literature will be given you.

Suspected Revolutionist Goes Inane.

LONDON, Oct. 15.—An extraordinary sequel to recent bomb outrages in Sweden, Professor Martin Ekman, a well-known Swedish scientist, has lost his reason, and to-day was removed to an asylum.

He was suspected of complicity in, if not with being the author of the crimes.

Tenders for Dreadnoughts Invited.

LONDON, Oct. 15.—The admiralty has just invited tenders for the construction of four contingent dreadnoughts, which the government decided upon in July last. These are to be completed by March 31, 1912, under severe penalties for delay. The firms tendering are asked to submit prices for both battleships and cruisers.

ART OF GOOD SPEAKING

Senator G. W. Ross Speaks to University College L. and S. Society.

Starting on their new term last night Convocation Hall, the members of University College Literary and Scientific Society had the pleasure of listening to an address from Senator G. W. Ross, T. A. Russell, B.A., the new president of the society, delivered his inaugural address and J. L. Ross, B.A., his retiring oration, while Chairman W. J. Alexander, Ph.D., and President Falconer also spoke.

Senator Ross was in a reminiscent frame of mind. He remembered when Toronto University had a teaching staff of but 16, whereas now it had 400 or more; also when it had 353 students in arts, while this year there were 1499 enrolled. He also remembered when the subject was broached. Pointing out the advantages which students could obtain from active association with the Literary Society, Senator Ross said the art of good oral expression was one of the chief, thru 37 years of public life he had known many men who were highly gifted as public speakers, and among them he could recall none more forceful than Sir John A. Macdonald.

Toronto Conservatory of Music

BOY'S BODY FOUND

Clears Up One Mystery But Leads Up to Another.

SAULT STE. MARIE, Ont., Oct. 16.—(Special.)—The mystery surrounding the disappearance of Wilfred Delisle nearly two weeks ago is solved by the finding of the remains in the river near the international dock.

It had been believed by his parents that he had been kidnapped and Ross Craft, who declares she had stolen the boy and is now under arrest, may be prosecuted for perjury.

Byits antiseptic influence

Dr. A. W. Chase's Ointment prevents all danger from blood poisoning when applied to scalds, burns, sores and wounds.

It is soothing and healing. Takes out the fire and inflammation, heals up the sore, forms new, soft skin.

Dr. A. W. Chase's Ointment is best known because of its wonderful record in curing eczema, piles and all sorts of itching skin diseases.

There are a score of other ways in which it is invaluable in the home.

Dr. A. W. Chase's Ointment

has no substitute which can be compared to it as a means of stopping itching and healing the skin. Wherever its merits are known it is considered of utmost value in the cure of itching skin diseases.

Dr. A. W. Chase's Ointment comes in a box, at all dealers or direct from the manufacturer. Write for free copy Dr. Chase's Receipts.

A BROKEN-DOWN SYSTEM

This is a condition for doctors to witness, give many names, but which few of them really understand. It is simply weakness—break-down, as it were, of the vital forces that sustain the system. No matter what may be its cause for the moment, the most prominent being sleeplessness, nervous prostration or weariness, depression of spirits and loss of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases to insure permanent recovery—VITAL STRENGTH & ENERGY

THE NEW FRENCH REMEDY THERAPION No. 3

shows by any other known combination. So sure, as it is taken in accordance with the directions accompanying it, will the shattered vitality be restored. The EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existence imparted in place of what had been a broken-down system.

THERAPION

is a new existence imparted in place of what had been a broken-down system. This wonderful medicinal is suitable for all ages, constitutions and conditions, in either sex, and is difficult to imagine a case of disease or derangement whose main features are those of debility, that will not be speedily and permanently cured by this recuperative essence, which is destined to cast into oblivion everything that had preceded it. It is a wide-spread and numerous class of human ailments.
