# WHY Are "Prohibition" States? Notoriously Intemperate?

THOSE who honestly advocate prohibitory legislation as the wholesale means of enforcing sobriety, must stare aghast at the record of Maine, the farce of Kansas, and the dismal failure of the propaganda in the other so-called "dry" States.  
How painful it must be to learn that in all France there is "less drunkenness than in the State of Maine" (Chicago American, December 28th).  
With what a shock will they read of the increasing intemperance of Kansas, the illicit distilling through the South, the bloody affrays following secret drinking in Georgia.

## The Report of Former United States Commissioner

Mr. Roy E. Cabell, formerly United States Commissioner of Internal Revenue, summarizes his findings in these words:

"1. The records, federal or local, demonstrated that the enactment of state-wide (or country-wide) prohibition laws not only do not prohibit the consumption of strong drink, in the area covered by such laws, but gives no indication of decreasing that consumption, and, in many sections an actual increase is indicated.  
"2. The economic conditions in states in which state-wide prohibitory legislation is enacted is oftentimes seriously impaired, and that those states do not show a rate of progress and improvement which in any respect surpasses their neighboring states that remain 'wet,' but often the contrary.  
"3. As state-wide prohibition destroys regulation of the liquor business the conduct of this traffic passes from responsible into the hands of the lower and more irresponsible part of the population, who purchase and sell in violation of such laws the worst grades of liquor, thereby increasing crime and corruption; that instead of an improvement resulting there is an impairment of the social fabric of the state."

# PROHIBITION Introduces Irremediable Evils

The Personal Liberty League of Ontario believes in temperance in all things, and in its promotion; we favor the license system under proper regulation and control, but we are opposed to prohibition or any legislation which encroaches upon or curtails the purely personal liberties of our people.

Application for membership cards should be sent to The Personal Liberty League of Ontario, Head Office, 15 Wilton Avenue, Toronto.  
No fees are required for membership in the League.  
Fill out the application for membership and forward to the Secretary of The Personal Liberty League.

## Experience Teaches Wisdom

WHERE the sale of liquor is open and licensed, proper supervision can be kept, and the seller is subject to such regulation and competition that it is only profitable for him to offer for sale pure brews and spirits that conform to Government standards.  
Denied the liberty to purchase these wholesome beverages, the aim of Prohibition, the purchaser obtains by stealth, and in violation of the law, such liquors as the "blind pig" keeper offers.  
Beer and other beverages, low in alcoholic content, are not sold because of their bulk, and the consequent inconvenience in handling.  
The illicit dealer finds he can sell crude, cheap spirits as readily as the pure liquors, which under open sale have acquired favor solely on a quality basis.  
In most cases where people can get the lighter beverages they do not go out of their way to drink strong liquors to excess.  
Here, then, lies one of the glaring evils of Prohibition—the man who has indulged moderately, now turns to the illicit seller, receives what may prove to his system a positive poison, and degenerates into a drunken fiend.  
Boys, who are not permitted in licensed bars, are fascinated by the opportunity to violate law, and the "blind pig" keeper, being under no restriction as to age limit, introduces minors to ardent spirits of the most vile type.
