

Second Kenilworth Meeting Opens Before Attendance of 10,000

CHRISTIE WON FEATURE AT KENILWORTH OPENING

Great Crowd Attend on First Day of Second Meeting—Favorable in Front.

WINDSOR, Oct. 15.—Racing on a mud-packed track, Kenilworth Park's fall meeting got off Saturday afternoon with the disappointment of a single serious upset. Not all the favorites were in the main the handicapper's choice made good. About 10,000 persons sat thru the seven events without discomfiture despite the chilly weather, a bright sun warming the grandstand.

Early light, in the third race, was the longest win price of the day. He paid the meagre sum of \$12.70. There was little more of "big grub" in the other notches until the sixth race, when Dundreary popped into the money and paid \$20 for place and \$150 to show.

In view of this the day was a triumph for form. Although the appearance of the track when it first glimpsed scared the spectators a bit, the fear was dispelled after the first race when Hampton Dame galloped home lengths ahead of her field.

Christie, W. A. Burtchell's bay gelding, won the feature. He was ridden by jockey Claver. The distance was a mile and 70 yards, and he won by a length.

Revive Trotting Races in the South

Atlanta, Ga., Oct. 14.—Grand circuit races to be run here beginning Oct. 16, will mark the revival of trotting races in the south. It has been years since the last southern meeting was held in Memphis. The track, which has been constructed for a long time, is now ready for use.

A lake have been filled and cut down to complete the mile track. The spectators have it as arranged that spectators, sitting in a natural amphitheatre can see every hoof every time it hits the ground. About \$50,000 has been spent on the track by the Southern Race Association.

Several years ago an artificial lake was left when a waterworks plant was removed from the site at Lakewood. It is around this lake the race track has been constructed. It was necessary to cut away part of a steep hill at the place selected for the track. The remainder of the hill sloped at a proper angle to support the concrete grandstand.

At the first turn an arm of the lake was filled in and around the first turn it was necessary to take a large slice out of another hill to build the track. Just at the end of the back stretch and leading into the second turn a forty-foot fill almost 100 yards long had to be made.

As the horses flash over this fill they immediately will be given another dirt background as they enter another cut, and then they will speed upon another fill in the turn for the home stretch. As they straighten out they will be in a short cut and then they will go over
