### RAISE SHEEP IN MONGOLIA.

is noted in a recent despatch from Tokyo that arrangements have been made for the organization of a Japanese enterprise, capitalised at 10,000,000 yen, to promote sheep-raising in Mongolia. The company is to raise sheep on a large scale and to develop the industry. It is estimated that the pasture land in Inner Mongolia for that purpose, which is six times the pasture land controlled by the south Manchurian Railway in North Manchuria, said to be the largest of the kind in Manchuria.

## TWO ISSUES LEFT TO THE CONVENTION

No Pronouncement on Ireland and Prohibition in Democratic Platform.

San Francisco, July 2. — Framed after days and nights of struggle with the Democratic party, the platform committee of the Democratic convention has today adopted a platform which leaves two questions for final settlement on the floor of the convention: Ireland and Prohibition. These are prohibition enforcement, upon which no agreement could be reached by the committee, and the Irish question, which the platform committee has decided to leave to the committee on this subject was not considered strong enough by the committee. The platform committee, which has served notice that they will seek to have the plank rewritten to include a flat declaration for diplomatic recognition of the Irish Republic.

The preamble sends greetings from the Democratic party to President Wilson, and "hails with patriotic pride the great achievements for country and the world wrought by a Democratic administration under his leadership."

Following is the text of the four planks dealing with the league of nations, Ireland, inland waterways, and the tariff.

**League of Nations.**—Regarding the league of nations, the platform says, in part: "The Democratic party favors the league of nations as the surest, if not the only practicable means of maintaining the permanent peace of the world, and terminating the insufferable burden of great military and naval establishments."

"We commend the president for his courage and his high conception of good faith in steadfastly standing for the covenant agreed to by all the associated and allied nations at war with Germany, and we condemn the Republican senate for its refusal to ratify the treaty merely because it was the product of Democratic statesmanship, thus interposing partisan enmity and personal hatred in the way of the peace and renewed prosperity of the world."

"By every accepted standard of international morality the president is justified in asserting that the honor of the party is involved in this business, and it was determined to initiate political antagonism to the treaty, the now plain relations committee of the senate for a separate peace with Germany, such as he and his party associates there reported to the senate, would make

us 'guilty of the blackest crime.'"

"We endorse the president's view of our international obligations, and his firm stand against reservations designed to cut to pieces the vital provisions of the Versailles treaty, and we commend the Democratic congress for voting against resolutions for separate peace, which would disgrace the nation. We advocate the immediate ratification of the treaty, without reservations which would impair its essential integrity, but do oppose the acceptance of any reservations making closer or more specific the obligations of the United States to the league of nations."

"Within the great principle of national self-determination has received constant reiteration as one of the chief objectives for which this country entered the war and victory established this principle."

"The tariff—We reaffirm the traditional policy of the Democratic party in favor of a tariff for revenue only and to confirm the policy of basing tariff revision upon the intelligent research of a non-partisan commission, rather than upon the demands of selfish interests, temporarily in the ascendant."

"Inland waterways—We pledge ourselves to the further development of adequate transportation facilities on our rivers and to the further improvement of our inland waterways, and we recognize the importance of connecting the great lakes with the sea by way of the Mississippi River and its tributaries, as well as by the St. Lawrence River."

"Following is a summary of the principle features of the other important planks."

**Mexico.**—Favors recognition of the new Mexican government when it has proven its ability to maintain order, dignified its willingness to meet international obligations, and given recognition in Mexico to the rights as well as duties.

## GERMANY PREPARED TO RESIST TREATY

Experts to Prepare Memorandum Regarding Her Failure to Fulfill Terms.

Brussels, July 2.—The supreme allied council met here this morning at eleven o'clock and began consideration of the program which will be discussed with German delegates at the meeting at Spa next week. A very unfavorable impression was created in conference circles when it became known that a memorandum prepared by German experts regarding the economic situation of Germany and her ability to meet the reparations demands had been submitted to the allied governments. The memorandum was regarded as a manoeuvre intended to prepare the way for strong resistance to the execution of the treaty on the part of the German delegation at Spa.

It was also taken as confirmation of reports from Berlin that the attitude of Konstantin Fehrenbach, German chancellor and head of the German Spa delegation, will be that financial settlement must be made on a basis of the present economic situation of Germany without taking into account any future economic improvement.

The council listened to Marshal Poch and others report on the disarmament clauses of the treaty which Germany has not executed and instructed the military, naval and air experts to draw up a complete list of such omissions.

**To Prepare Memorandum.**—Experts of the reparations commission likewise were instructed to prepare a memorandum on Germany's failure to fulfill the coal delivery requirements, which were discussed in a note to the council submitted by the reparations commission. The reports of these experts it is intended to present to the German representatives at Spa.

**Paris Fashions In False Teeth.**—Paris, Mar. 8.—We may safely predict for the coming season the artificial teeth will include their being worn snug-fitting and smoothly cushioned in place by means of the dental plate compound-powder Cores, procurable at drug stores and dental dealers.

This antiseptic adhesive powder gives a pleasing sense of security to wearers of false teeth. It allows complete mastication of foods with ease, relaxes facial muscles and prevents sore throat.

shall Wilson and Captain Roper, Admiral Levasseur, Charlon and Gravel and Rear-Admiral Tida, drew up a list of violations and non-executions of military, naval and aeronautical clauses of the treaty of Versailles. The document will be submitted to the chiefs of government at their next meeting.

Paris, July 2.—The memorandum submitted to the supreme allied council at Brussels this morning was presented to the British, French and Italian governments today at their respective capitals. It bears date of May 10 and was signed by experts, having been drawn up for submission at the Spa conference. It is understood it tries to establish Germany's inability to materially fulfill her treaty obligations.

## ANXIOUS TO SEE STATUE OF "PROHIBITIVE LIBERTY"

New York, July 2.—Prospect of obtaining higher wages on vessels flying the United States flag is believed by Cunard Line officials to account for the desertion here of 42 firemen of the steamship Mauretania, the departure of which was delayed three hours yesterday. The vessel left for Cherbourg and Southampton after replacement stokers had been procured.

Lady Geddes, wife of Sir Auckland Geddes, British ambassador to Washington, sailed home to bring her children to the United States.

Other passengers included the Earl of Limerick, who is returning to England rather than his estate in Ireland, because of disturbances there, after having visited his daughter and son-in-law, James C. Brady, at Gladstone, N.J.

## TOURISTS FIND GERMANY THE DEAREST COUNTRY

Berlin, July 2.—As a result of the steady rise of the German mark, foreigners are discovering that for them Germany is now perhaps the dearest country in Europe. And as the mark strengthens prices continue to rise.

For several months German hotels have been forcing foreigners to pay from 100 to 200 per cent more than natives are charged. Many shops also make a practice of mulcting foreigners, some haberdasheries in Berlin charging 60 cents American, for an ordinary white collar.

Newspapers, learning of the great influx of American tourists to England and France, are beginning to wonder if the extortions of shops and hotels will have the effect of keeping the Americans and other foreigners out of Germany.

## RAGGED, HATLESS, BUT MONEY TO BURN

Street Newspaper Vendor in Paris Proves Wizard as a Tipster.

Paris, July 2.—Ragged, hatless and practically shoeless, an elderly man was sitting in a park on the south side of the Seine a few nights since, muttering to himself, 50, 60, 70, the while stacking thin little slips of paper one upon the other. He attracted the attention of two gentlemen, for he had apparently been drinking too much wine. He was taken to the station.

The desk sergeant was bewildered when the ragged man explained that the little slips of paper he was counting were good bills of the Bank of France, and that the figures he was mumbling represented their amount. He had 115,080 francs.

"I won this money at the races," explained the denizen of the park. "It developed that the man was one Billigot, a former colonial soldier, at times street newspaper vendor, known to the citizens of Grenelle ward in Paris as Father of Luck, or Father Cherry (the little fruit being known in the parlance of the Paris gambling circles as the emblem of luck). He had run up 140 francs, the amount of his pension, paid to him as an ex-soldier, into 115,080 francs. The police released him, after giving him a little advice about counting his wealth in public parks while slightly under the influence of red wine."

Billigot invested 80,000 francs in a life annuity the next morning, bought a suit of clothes, shoes, etc., and before departing for Saint Cloud race track he called on the friendly police sergeant and gave him a tip on the races for that afternoon. The horse won. The newspaper L'Echoir has offered him 100 francs per day for his racing selections until the end of the season.

## INQUIRY FROM HALIFAX ABOUT CANCER SERUM

Halifax, July 2.—At the meeting of the board of health this week, Commissioner Morrisey called attention to the report that Dr. J. Glover of St. Michael's Hospital, Toronto, had discovered a cancer-curing serum and suggested that the board take steps to corroborate the report, and if correct, secure some of the serum for the benefit of people here suffering with cancer. It was decided to write Dr. Glover for definite information as to his discovery.

Do not suffer another day with itching, burning, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box; all dealers, or E. H. H. Bates & Co., Limited, Toronto. Sample Box Free if you mention this paper and enclose a return postage stamp.

## GREEKS IN ASIA MINOR RESUME THEIR ADVANCE

Paris, July 2.—The Greek army, which last week halted its offensive against the Turkish Nationalists in Asia Minor, while the positions it had taken in the drive from Smyrna were being consolidated, resumed its advance on Wednesday and captured the town of Balikesir, 100 miles north-east of Smyrna, and about 50 miles south of Panderma, on the Sea of Marmora. It is announced in the latest Greek communique, received here today.

## CANADIAN RELIEF WORKER SAFE WITH TWO OTHERS

Constantinople, July 2.—Miss Katherine Bredemus, a Canadian relief worker, has arrived at Samsun, on the Black Sea, west of Trebizond, together with Miss Edna and Miss Mary, who were held captive by Turkish Nationalist forces in Adana, Syria, according to a cablegram received here today at the near east relief headquarters.

Couriers who have arrived in Beirut, the message said, report that the Turkish two weeks ago warned the relief workers to leave Adana, but they refused to go. Eighteen hundred orphans from the city had been moved to safety on the island of Cyprus.

## GERMAN BOAT CUTS OUT PILOTS OF BRITAIN

London, July 2.—In spite of the publicity given to her in press and parliament, the obnoxious German pilot cutter continues to patrol and sniff out Dungeness, and there seems to be no way of getting rid of her, says the Evening News.

"The pilotage fees quoted are high in marks, but very low in real money, the paper adds. The result is that practically all the neutral and American ships bound for the continent take a pilot from her instead of from the British Trinity cutter which patrols alongside her. Many of the American skippers who were at sea during the German submarine campaign are very outspoken on the subject, but they have their direct orders. "But in blaming others for having taken a pilot from her instead of from the British Trinity cutter which patrols alongside her, they are also ordering their masters to patronize her on the score of economy."

The result that practically the whole of the temporary Trinity pilots are receiving their notices. They were allowed to run the risks during the war, but now it is only a proportion of the British companies—the large majority, happily—who care whether they are shown out or not."

## REPORT SLACKENING IN SELLING TRADES

Credit Men's Association Says Wholesaler Sales Quiet, Especially in Quebec.

Winnipeg, Man., July 2.—Whether owing to the holiday season or other causes it is uncertain, but there is no doubt whatever that there is an apparent slackening down in wholesale and manufacturing conditions, says the weekly report of the Canadian Credit Men's Association.

While this is not so noticeable in the Maritime Provinces and in the Toronto area, it is rather marked in Montreal and Quebec, where the wholesalers find things very quiet and manufacturers are experiencing a general slowing down, particularly in boots and shoes and men's and ladies' wear. On the other hand, retail trade appears fair, with reports that business is up to the average in all other lines but clothing and boots.

**Business.**—Winnipeg and middle west wholesalers report business fair with better reports from country towns where a generally optimistic feeling exists, owing to ideal crop conditions. Retail business is reported to be up to the average in all lines excepting boots and shoes and wearing apparel. All stores in these lines carrying on mark-down sales. Farther west, in Calgary, the message said, report that the business is reported from last week, trade at points where crops were good last year being good, while at other points and in the cities, it is quiet. Generally good growing weather is expected to have a stabilizing effect on trade in the near future.

## TWO HAILEYBURY MEN SAVE LIFE OF A CHILD

Haileybury, Ont., July 2.—Sarah Abraham, 14 years old, fell into Lake Timiskaming when she ran over the end of the dock here in the darkness. When playing with some girl friends. She was going down for the second time when two men—Fred Carraet and Harold Scott—jumped into the lake and pulled her out safely.

## BE WELL

I am a woman who helps women to be well. I tell women how to be free of headaches, backaches, nervous spells, crying spells, tired, listless feeling, constipation, fretfulness, sleeplessness. Simply write me and I will send you postpaid, ten days' free trial treatment, with names of people in Canada who owe their present health and strength to my treatment. Write me today.
