

BOSTON SHOE STORE

The Challenge Price Sale---Challenges You

We certainly are making wonderful footwear chances for you—and remember that every pair is on the tick for style, and produced by the best makers of fine American boots and shoes. Is it any wonder that a house like this "shows the way"?

FRANCE WILL STICK BY ALGERIAS POLICY

Delcasse's Remarks Will Stiffen Public Sentiment in Moroccan Matters.

PARIS, Jan. 25.—The dramatic speech made in the chamber of deputies yesterday by M. Delcasse, who spoke upon foreign affairs for the first time since his retirement from the foreign ministry during the crisis of 1905, has produced a sensation in political circles where it is regarded as a trumpet call summoning France not to take a backward step in the Moroccan situation. His charge that France, in a moment of panic, consented to the Algeiras conference, when in reality Germany would not have dared to make war upon her, has caused her alliances and friendships to create a deep impression throughout the country.

M. Delcasse, in his speech, practically assumed personal credit, not only for the British, Italian and Spanish ententes with France, but also for bringing Great Britain and Russia together. A portion of the French press is of the opinion that M. Delcasse's remarks may bring a number of surprises, but a majority of the newspapers advise prudence. The cabinet reconsidered the situation, but it is not likely that M. Delcasse's discourse will alter the direction of the government to announce on Monday its determination to adhere strictly to the Algeiras agreement. Nevertheless, the utterances of the former foreign minister undoubtedly will stiffen public sentiment in favor of more energetic action in Morocco.

M. Jaures, the Socialist leader in the chamber of deputies, announced today that on Monday he would read in the chamber the letters he claims to possess which prove that the late Dr. Mauchamp was a secret intermediary between Mual Hafid and the French foreign office.

A telegram received from Admiral Phillibert says Mual Hafid is reported to be at Chaur, 30 miles from Settat.

Peculiar, if Not Original.

A brilliant comedienne and feminine fun-maker is Kathryn Osterman in her clever comedy, "The Girl Who Looks Like Me." It is peculiar, if not original, to have all the fun centre about female characters. The action is brisk and the laughs are many and come close together, which is as it should be in a comedy.

Nationalists to Lose Taschereau.

MONTREAL, Jan. 25.—(Special).—A special to The Herald from Quebec says:

Another split in the Nationalist party appears to be indicated by the announcement made by Allyn Taschereau, yesterday, that he desired to retire from the defence case in the action of Hon. Adolphe Turgeon against Mr. Asselin's Le Nationalist.

TORONTO JUNCTION.

TORONTO JUNCTION, Jan. 25.—Nearly all the ministers of the different local churches are now anxious to preach to their own congregations for a few successive Sundays, as the local opinion campaign necessitated the absence of the pastors to such an extent that the congregations almost felt like sheep without a shepherd. Exchanging of pupils will not therefore be much desired or appreciated to any great extent for some time to come. Rev. Dr. Hazelwood, who is preaching at both services, morning and evening, in the Annette-street Methodist Church, in connection with the new church, which is rapidly nearing completion, the following description of the building, particulars of which were furnished by the architect, Messrs. Burke and Horwood of Toronto, will give a good impression of the handsome edifice. The new building is located at the corner of Annette-street and York-street, and is placed immediately east of the present structure, which faces north to Annette-street. The old building will be retained for Sunday school purposes and will have a seating capacity of 1200, and will be up-to-date in every particular. The choir and organ will be placed in a alcove at the west end, which will be very commodious and somewhat unique, being the full width of the nave. The column and trusses supporting the roof are of steel, which will be concealed by

the groined plaster ceiling, which will be enriched with moulded arch ribs. The stairs to the galleries at both ends, four in all, will be inside the auditorium, bringing the gallery more into touch with the lower floor and making the seats more desirable. The basement will have cloak and toilet rooms for the choir, and having an entrance from the rear of the auditorium, suitable for social purposes, and having an entrance from the rear of the auditorium, suitable for social purposes, and having an entrance from the rear of the auditorium, suitable for social purposes.

The extreme width of the edifice is 51 feet and the length 93 feet. The building is of Gothic design, with suggestions of the perpendicular period and is of red brick with grey stone dressings.

At the Annette-street Baptist Church to-morrow, the pastor, Rev. Thomas Cowan will preach at both services. The subject for the morning service will be "The Christian's Preparation for the Lord's second coming." The evening theme will be "The relation of the Lord's coming to world wide evangelization."

The anniversary services of the Baptist Church were held last Sunday and attracted large congregations. Rev. J. B. Kennedy of the Memorial Baptist Church, Toronto, preached in the morning and Prof. Campbell of McMaster University in the evening. On Monday evening the annual roll call and tea meeting was held, when addresses were given by Thomas Urquhart and S. J. Moore on "The laymen's missionary movement."

It is interesting to note at this anniversary of the Annette-street Baptist Church, how the congregation has grown during the last twelve months. The seating capacity of the church was increased a year ago from 200 to 300, and already the new building is taxed to the capacity of the old one before the added space was provided.

Rev. Dr. Pidgeon will preach at both services to-morrow in Victoria Presbyterian Church.

Social evangelistic services will be held to-morrow morning and evening in the Gospel Hall on West Dundas-street. Everybody welcome.

DELAY OF THE MONTROSE.

Already local people who had relatives on the unlucky Mount Montrose and who are now on the Montrose are beginning to chafe at the delay of the arrival of the latter steamer.

It was four days overdue yesterday. She is a slow, heavy and safe boat and the delay is not regarded as serious by officials.

The Grand Trunk Railway authorities have issued instructions to their trainmen running west that they must slow up while approaching Parkdale station, so that the train must be under control and stopped at the shortest notice. This order the outcome of last Saturday's accident.

SYSTEMATIC MINING

Is Now Being Done Instead of Exploiting the Share Market.

NEW YORK, Jan. 24.—Thomas A. Nevins of the banking firm of Thomas Nevins & Son, has just returned from a trip to the Cobalt silver district in Canada, where he spent several days inspecting the mines and investigating conditions in the camp generally. Mr. Nevins was greatly impressed with the development that has taken place there within the last six months.

"Capital has been flowing into the camp and mining and milling is being done on a systematic and scientific basis. Before the question of permanency was settled, the whole idea seemed to be to get out the rich values to pay dividends, and exploit the shares in the stock market; now the chief aim is to develop the properties for permanent dividend results, irrespective of Wall-street influences. In consequence, the whole camp has taken on a substantial aspect. Mills are being erected everywhere, and Cobalt now has more the appearance of a manufacturing town than of a mining camp. A big customs mill is now being erected on the Nipissing property, and all the companies are giving their attention to the mining and milling of the low-grade ores. Formerly ore assaying no less than 400 or 500 ounces was shipped to the smelter; now Mr. Timmins of the Timmins mine tells me they are shipping 40 ounces ore to Denver at a good profit, notwithstanding that the freight charges are \$12.50 a ton. It was told

This company has just shipped the first car of concentrates to the smelter at Sudbury, and the values run over \$25,000.
