# Honey Prices Advance

Reports received by the Ontario Beekeepers' Association from double the number of beekeepers reporting in 1911 indicate a still further decrease per colony over last year, the average being 48.7 lbs., as compared with 50.9 in 1911, a short year, and 58.3 in 1910. It is also noted that there is a decided shortage in the eastern counties, and many large beekeepers did not report, as the crop was a failure. The heavy loss is put down to the severity of last winter.

The following are the prices which will likely prevail in the honey market:

No. 1 light extracted (wholesale).....	11 1/2c to 12 1/2c per lb.
No. 1 light extracted (retail).....	14c to 15c per lb.
No. 1 comb (wholesale).....	\$2.25 to \$3.00 per doz.
No. 2 comb (wholesale).....	\$1.50 to \$2.00 per doz.

A later report will be sent out on buckwheat honey.

# COMPLAINT OFFICE

### Acting Mayor Would Have One in the City Hall.

That the city should have a complaint department in charge of an officer and two or three assistants is a suggestion which comes from Acting Mayor Church. Mr. Church claims that the present system of receiving complaints involves long delays and often it is five or six days before they reach the head of the department who has authority to remedy them. It would also, he claims, be a great saving on the time and patience of the members of council who at present are bothered continually by people with grievances. In one night, he said, 25 complaints were phoned to him at his home.

The late Mrs. Harmini Mei.

The insured will have a standing permit for workmen making repairs 15 days in year, instead of five as formerly. In the cases of renewal receipts, if accepted by insured, they are an acceptance of renewal of policy. The company may sue for the amount of the premium unless receipt is returned immediately. On the other hand, the company is liable for the insurance, in case of loss, from the moment the receipt is sent out.

Commissioner Dougherty says the developments in the last few days have been very important but does not expect any more arrests for a day or so, except any more arrests for a day or so.

# Freight Handlers' Strike is Spreading

### Northern Pacific Railroad Has Six Hundred Men Out for Forty Cents Per Hour.

DULUTH, Minn., July 27.—The strike of freight handlers at the docks of the Northern Pacific Railroad is spreading. Six hundred men are said to be out to-day. The men still refuse to consider anything less than their original demand of 25 cents an hour for straight work and 40 cents an hour for handling cement. It is not a local question, according to railroad officials, but one that will affect the wages all along the line of the system if an increase is granted here. Some boats have been taken to Superior to be unloaded. It is hinted that a boat load of workmen will soon arrive from Chicago and Milwaukee, but the men here claim there are no idle freight handlers at these points.
