

## REPEAL FIGHT IN GALT TOWN

Anti-Local Optionists Confident of Victory, But the Chances Are Greatly Against Them.

GALT, Ont., Jan. 4.—(Special.)—“Galt will recover its senses and vote to repeal the local option act,” said H. K. Cockin, managing the local option repeal campaign. “Situations as it is, within easy access of half a dozen license municipalities, I don't see how this town reasonably can remain so conspicuously abnormal. I think the drys received the option not on a sort of a wave and the receding performance is now fairly on. So far as we can soberly foretell it, freedom and the good license act is what the Galt people will declare for on Monday. That's what our figures show anyway.”

Asked what he had for the press this morning, James R. Cavers, secretary of the local option committee evidenced no hesitation in declaring that the anti-repealers had the other forces beaten sure. “They simply can't get a three-fifths vote, even on the most liberal allowance. Our list are perfectly dependable and they indicate that with simple concessions to the other side the situation is with us. Let us get our vote out and we will score a decided and decisive win.”

The truth about local option in Galt, according to non-partisan and well-informed authority, is that three years ago the local optionists caught the trade napping. The vote to go dry was as much a surprise to them as it was with hotel men; having taken a stand and the experience of three years having yielded nothing of the calamitous nature predicted by partisans of license, the community is hardly going to reverse judgment. Moreover, resurrection of an invidious comparison publicly instituted between Chatham and Galt by the gentleman conducting the repeal fight has had due effect.

Mr. Cockin urged in Chatham papers that the two towns were not at all in the same class. Chatham was bright and up-to-date. Galt was dull and up-to-date. You will find a cow will submit to treatment that a spirited horse would resent,” declared Mr. Cockin and the imputation that Galt is a “cow town” has hit the good people hard. If they are glad to rank as cows on the license issue, they will not be short on rather, they will enter in the Fohed Angus class.

If the Sunday World correspondent were betting on the Galt campaign for the repeal of local option, he would place every dollar on the anti and another three years dry spell.

IS TORONTO REALLY SHORT OF GOOD HOTEL ACCOMMODATION?

It has been said that Toronto is very short of good hotel accommodation, and that it is practically impossible to find a first-class family hotel, and that the few hotels that remain first-class are at exorbitant prices. That a man who wants first-class accommodation in Toronto should go to the Hotel Waverley, situated at the corner of Bloor street and Avenue Road, is a statement that is not only true, but is a statement that is well worth repeating. The Hotel Waverley is a first-class hotel, and it is situated in one of the best locations in Toronto. It is a hotel that is well known to all who are familiar with Toronto, and it is a hotel that is well known to all who are familiar with Toronto. It is a hotel that is well known to all who are familiar with Toronto, and it is a hotel that is well known to all who are familiar with Toronto.

## The Real Cure for Constipation and Piles

No, this does not consist of some special or new form of drug, because drugs are not a permanent cure for Constipation. The real cure for Constipation is something that will appeal at once to your common sense, because this cure consists simply of pure sterility. The sufferer from Constipation usually realizes the danger of his affliction because from Constipation arises the vast number of more serious diseases brought about by the retention and promulgation of germ life in the system. In turn caused by our failure to get rid of this waste.

Such a sufferer has probably tried all kinds of drugs and his experience is enough to prove that drugs form only a temporary relief, and require constant use in constantly increasing doses as he is so effectual. The sufferer greatly adds to his illness by becoming a slave to this drug habit.

How much simpler and safer is the method of Dr. Chas. A. Tyrrell, inventor of the J. B. Cascade—an appliance now endorsed by physicians everywhere, and used by over 200,000 people. With this system of the internal bath you dispense with drugs entirely, and you get a permanent cure. ## Every Knock at the West is a Boost

It is the huge wealth making possibilities of Western Canada, which has so aroused the envy of older settled countries, that is causing the knocks in the eastern papers. They are so terribly afraid that the prestige of the east will have to give way to that rising young upstart the west, and it will too.

## Late Whitelaw Reid Buried at Tarrytown

President Taft and British Representatives Attend Service in New York Church.

NEW YORK, Jan. 4.—The funeral of Whitelaw Reid, late ambassador to Great Britain, took place today to the Sleepy Hollow Cemetery at Tarrytown. President Taft, cabinet officers, representatives of the army and navy and of the British embassy, the bereaved family and friends and the associates of the late ambassador and editor attended the funeral this morning in the Cathedral of St. John the Divine.

Great Britain was represented by Ambassador James Bryce, and members of his suite and the officers of the cruiser Natal, which brought the body across the Atlantic.

After the services, which began at 11 o'clock, the casket was escorted to the Grand Central Station by a battalion of infantry from the army, a battalion of marines and a battalion of sailors. At the railroad station a special train was waiting to carry the family and immediate friends to Tarrytown. There the final rites of the church will be read when the body is put in the Mills' Mausoleum.
