26-28 Charlotte Street, Opposite City Market

"THE LATE TENANT"

By GORDON HOLMES

(Continued.)

And then Ermy L'Estrange did a thing which enabled her to see her own eyes for many a day. "Yes," she said, "I found out that I occupied your sister's flat after her death; so he came to see me, and if I may venture to say so, he betrayed an interest in you, Miss Mordant, which had such a man shown it towards me, would have been deemed a very pleasing and charming testimony of his regard."

It was only a line out of an old play; but it served, and they kissed each other when they said "good-by."

Although Violet was startled at alighting on such rosy confirmation of Van Hupfeldt's duplicity, there was a remarkable brightness in her eye, a spring-time elasticity in her step when she emerged into the High street of Chelsea, which had not been possible a little while earlier. In truth, she felt as a thrush may be supposed to feel after having successfully dodged the attack of a hawk. Were it not that she was treading the crowded streets of London she would have sung for sheer joy.

And now, feeling hungry, after her long journey, she entered a restaurant and ate a good meal, which was a sensible thing to do in itself, but which, in its way, was another tiny factor in the undoing of Van Hupfeldt, as, thereby, she missed meeting David at Dibbin's office.

When she did ultimately reach that unconscious rendezvous, she found there the clerk who had given David such interesting information. This man knew Miss Mordant, and had some recollection of the dead Gwendoline; so he was civil, and assured Violet that his master would return from Scotland in a few days.

"Mr. Dibbin has been at Dundee for some days," asked Violet.

"Let me see, miss; he went away on the fourth and this is the ninth; practically six days, counting the journey."

"Then he certainly could not have written to me on the evening of the 1st?"

The clerk was puzzled. "If you mean that he wasn't in London, then—" he began.

SUFFERING WOMEN

Made Well and Strong by Dr. Williams' Pink Pills.

Made Well and Strong by Dr. Williams' Pink Pills. Every dose of Dr. Williams' Pink Pills makes new blood. Every drop of pure blood brings the ill-disheartened woman nearer to health and happiness. Dr. Williams' Pink Pills have brought the glow of health to thousands of sufferers who gladly bear testimony to that effect. One of these is Mrs. Elizabeth Dunham, of Walland, Ont., who says: "For more than a year I was greatly run down. I had sickening headaches and my heart would palpitate so violently that at times I feared death was near. I was under the care of a doctor, but instead of improving I lost strength and my weight decreased from one hundred and forty to ninety pounds. I was discouraged, but finally decided to give up the doctor's treatment and try Dr. Williams' Pink Pills. Glad I did so, for after using the Pills a few weeks I could see a marked improvement in my condition. The headaches left, my heart palpitation ceased and at the end of two months I was fully restored to health and felt better than I had for the past twenty years. Dr. Williams' Pink Pills are truly a marvellous medicine and I cannot praise them enough."

Heart palpitation, anaemia, headache, loss of appetite, general weakness, backache, neuritis and a host of other troubles are all the outcome of bad blood. Dr. Williams' Pink Pills make new, rich red blood—the pure blood does the rest. That is why these pills cure all troubles due to watery blood or weak, shaky nerves. There is not a nook or corner in Canada where you will not find some grateful person who has been cured by the use of Dr. Williams' Pink Pills. On the word of your neighbor we ask you to try this medicine if you are weak, thin or run down. The pills are sold at 50 cents a box, or six boxes for \$2.50 at all medicine dealers or from The Dr. Williams' Medicine Co., Brockville, Ont.

Daily Fashion Hint for Times Readers.

VELVET PRINCESSE NOVEL IN VARIOUS WAYS.

A costume that possesses much novelty in its make-up is this castor colored chiffon velvet princess. The style of the dress is extremely simple, being tight fitting over the bust, at the waist line and over the hips, as a really and truly princess should be. The upper part of the bodice worn with a separate guimpe of white chiffon and Irish crochet lace, is Japanese in outline. The material is draped on the shoulders and so cut as to form the exaggerated mandarin armholes and stole effect both back and front. Huge embroidered buttons in black, gray and white are set in groups of two on the

elbow inside of circles of white cloth embroidered around the edge with heavy white silk. Over the shoulders are appliques. This decoration matches that on the front of the skirt, a feature which makes this gown one of great value. A novel effect is created at the bottom of the skirt by a heavy cording of feather-like material in a very narrow hem and at the top of the applique border is another cording. The effect is attractive and the skirt does not cling in around the feet like it would were it not treated in this manner. Velvet of the chiffon quality and velveteen should always have some support in the skirt to give it a fashionable flare.

They were given notice that the rate per box for coal digging in their places would be reduced by two cents. The men at once returned home and saw the managing committee of the lodge. A special meeting was held to see if they could be persuaded to go back to their places in the morning and that they would be paid the full rate.

Underground Manager Hargrave informed the committee tonight, which was sent from the meeting to see him, that the matter was all a mistake. He did not know of Mr. Cowan's statement that there would be no reduction. The men then returned to work.

This prompt action is very satisfactory, as otherwise the mines might have been idle tomorrow. It shows that Mr. Cowan stands by his statement regarding conditions of work and on the other hand that the men are relying on the word of the general manager that if there can be no advance there shall be no reductions.

THIS LITTLE STRIKE DID NOT LAST LONG

Difficulty at Springhill Mines in which Six Miners Were Interested is Speedily Adjusted.

Springhill, N. S., Nov. 1.—J. R. Cowan allowed work to be resumed at the Springhill coal mines on the distinct understanding that the award of the board of conciliation should be accepted. He said he further said: "There will be no reductions, there can be no advances."

WOMAN BURNED TO DEATH

Hamilton, Ont., Nov. 1.—Two city firemen were badly injured and one woman probably fatally burned at noon today at the residence of Mrs. Martin Wilson, Hess street. Mrs. Wilson keeps a rooming house and one of the roomers is Mrs. Mary Sheehan. The fire started in Mrs. Sheehan's apartment. Mrs. Sheehan's clothing caught fire and she was badly burned about the face and body. She was taken to the hospital and her condition is critical.

Firemen were working under a stairway, which collapsed. Capt. Gilbert and Fireman Hottram were pinned beneath falling timbers and both were badly injured. The house was gutted.

Charlotte, N. C.—Captain Joseph Reed has arrived from Boston, where he had been called to look after the schooner Mary, reported badly disabled at sea. The vessel is unharmed and is expected to return to port in a few days. The schooner is now at Rotterdam and will proceed to a port in Wales.

COMMISSIONER COOMBS WAS IN CITY YESTERDAY

A large party of Salvation Army officers were at the depot last evening to see Commissioner Coombs and party, who were returning after a trip through Newfoundland. The commissioner is looking well and reports a very successful tour. Army work is flourishing in the ancient colony, he says, and the outlook is encouraging. In the party were Col. Puzmore, secretary of the prison gate work in Canada, and Col. Swinton, chief secretary and second in command. The commissioner arrived on the 5:40 train from Halifax, and left on the Montreal express at 6:55, so had only a few minutes, but these seemed to be well filled in greetings and words of advice to the local officers, and a short talk to the newspaper men.

TEACHERS PENSIONS

Committee of City Teachers Have a Plan Prepared. For some time past a committee of the city school teachers' association has been at work devising a scheme for the administration of teachers' pensions. They have now finished their labor and will submit the result at the next meeting of the association, but meanwhile it is not given out.

In the meantime the chairman of the committee will place himself in communication with some of the principal teachers of the province to ascertain their opinion on the subject. Should they vote of the meeting be favorable to the scheme submitted a meeting of the executive of the New Brunswick Teachers' Association will be called soon after when means will be devised to bring the matter to the attention of the government.

THE CAUSE OF EARACHE

It is usually a cold. The one sure cure is Nervine, which relieves in ten seconds. It kills earache swiftly because it penetrates like lightning to the seat of the pain. Away goes the ache, cure is complete, just because Nervine has been used. No household liniment so economical, so strong, so good—all-round as Bolson's Nervine, which has been Canada's popular liniment for nearly fifty years. Large bottles sold for 25c. everywhere.

The following Battle Line steamers are reported: Arcola, Capt. Shaw, arrived at Speke Oct. 29 from Cardiff; Mantissa, Capt. Wright, arrived at Cardiff Oct. 31 from Belfast; Kelson, sailed from Cartagena Oct. 31 sailed from Fernandina Oct. 31 for Savannah and Hamburg; Pandora, Capt. Forrest, sailed from Cardiff last Wednesday for Genoa.

SYSTEMATIC CATARRH HAS BUT ONE CURE

Lotions and Powders Will Never Help Unless the Blood is Given Attention. The way to radically and permanently cure catarrh is to cleanse the blood of its unhealthy secretions that keep the mucous membrane inflamed. Catarrhal poison usually interferes with the stomach, kidneys and liver. These organs must be properly toned and strengthened, otherwise you feel sick all over. To go direct to the source of the trouble—cleanse, nourish and purify the blood—where you find anything so potent as Dr. Hamilton's Pills? This grand medicine regulates the eliminating organs and completely drives the virus of catarrh out of the system. Thousands of cures prove this. Of course to clear the nose and head of mucous discharges, Dr. Hamilton recommends the use of Catarrhose Inhaler, which, if used with his pills of Mucrodine and Bismuth, cures the most obstinate case of Catarrh even known. All dealers sell Dr. Hamilton's Pills in 25c. boxes.

NEWBRO'S HERPICIDE

Is the original remedy that "kills the dandruff germ"

WITHOUT dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, this germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

A woman to be pretty must have pretty hair. Beautiful locks have a subtle charm, for the poet says, "fair tresses man's imperial race ensnare." The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lustreless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide. Overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye. Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp, and also for its excellence as a regular hair dressing. It is delightfully fragrant and refreshing.

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and it leaves the hair soft and silky."
(Signed) EDNA D. ALLEN,
Syracuse, N. Y.

Two Sizes—50c. and \$1.00 at Drug Stores.

Send 10c. in stamps to the Herpicide Co., Dept. N., Detroit, Mich., for a sample. Guaranteed under the Food and Drugs Act, June 30, 1906. Serial No. 915.

Insist upon Herpicide.
