BRITAIN TO SELL TEA
TO PEOPLE AT COST

Edinburgh, Nov. 19.—Baron Rhondia, the food controller, in an address here, said that although the country rejoiced over the small number of ships sunk by German submarines last week, the serious

business of the food situation had not diminished. The speaker said he intended buying all stocks of tea in Ceylon and India, and selling them here at cost price. He added that he also was going to provide cheaper milk for nursing mothers and for children, at the cost of the state.

Let us get back to common-
sense natural food

A CENTURY ago a wealthy faddist in old London invited his friends to a "white dinner." Nothing but the old-time whole-grain bread had ever been used before, but a Hungarian miller solved the problem by removing from the dark-colored flour everything but the white starchy parts so that the bread too, at the dinner, might be white. The idea of white foods became a fad and the craze spread all over the world.

Dr. Jackson's

Roman Meal

is a return to the old-time, common-sense, natural diet. The almost universal use of white foods is founded upon a FAD. The daily growing popularity of Roman Meal is founded upon NATURAL FOOD. Roman Meal is a well balanced combination of whole berries of wheat (30%), whole berries of rye (35%), wheat bran (10%), and flaxseed (25%). The flax has been rendered absolutely tasteless and odorless by electricity; it is the most nourishing seed known. Roman Meal prevents indigestion. It relieves constipation, or we will return your money.

There are many Roman Meal recipes printed on the package—but you can use all or any of your own favorite recipes by mixing 1-3 white flour with 2-3 Roman Meal. Roman Meal restores the lost balance to the white flour. It makes pancakes so digestible that the most delicate person will relish them, also waffles, muffins, fruit cakes, gingerbread, brown bread, steam pudding.

You just ought to see how the kiddies and grown-ups relish Roman Meal porridge with its delicious milk-like flavor. Roman Meal porridge MUST never be stirred, except while mixing meal and water.

Roman Meal prevents indigestion. It is porous and remains porous if you do not stir while cooking. The digestive juices reach every particle quickly. Digestion is thus both rapid and thorough.

The bran in Roman Meal gives the muscles of their digestive system its natural work to do—and thus relieves constipation. The flaxseed also aids in this and prevents the bran from causing catarrh of the bowel. Ask your doctor. At all grocers.

Medill McCormick, Home Front
Front, Says Reasons Are Russian
Collapse and Unreadiness
of United States

Chicago, Nov. 19.—Russia's collapse and the unreadiness of the United States to see peace before 1919, in the opinion of Medill McCormick, congressman at large of Illinois, who has just returned after a visit to most of the important fronts of the European battle line, Mr. McCormick last night said in a speech.

"The Germans are not winning the war. Neither are we. The war presents a stalemate from which we are unable to extricate ourselves, because of the collapse of Russia, and the unreadiness of the United States."

"Nowhere in Europe did I find an informed soldier or public man who believed that military decision could be achieved before 1919, when the United States might add effectively to pressure on the central empires. There is practically no hope that Russia can be useful during 1918. Russia is so disorganized that she cannot make war. Happily in all probability, neither can she make peace."

"I say very earnestly that we must have greater co-ordination of effort. We must have a true war council—such as does not exist in Washington—a council of men who represent in the greatest degree the energy and the genius of America. It will be fruitless if we are ready late."

**THE HUNDRED
MILLION MARK
IN LOAN PASSED**

First Victory Money Week Successful—New Brunswick in Seventh Place

Toronto, Nov. 19.—It was estimated at midnight last night that the \$100,000,000 mark had been passed in the Victory Loan campaign. At Dominion headquarters incomplete reports showed a total of \$98,940,000, but the unreported subscriptions would bring the actual figures for the first week well in advance of the centenary mark. Some of the provinces here have reported for only three or four days.

Ontario, with \$59,987,100 is the only one officially covered by full returns up to Saturday night.

Following are the figures so far sent in to headquarters: Prince Edward Island, \$1,739,700; Nova Scotia, \$8,468,600; New Brunswick, \$2,198,800; Quebec, \$1,383,100; Montreal, (city and suburbs), \$28,200,000; Ontario, \$59,987,100; Manitoba, \$7,292,500; Saskatchewan, \$8,218,700; South Alberta, \$2,590,600; North Alberta, \$1,119,900; British Columbia, \$1,805,300. This makes a grand total for the Dominion of \$86,944,600.

**David Linton, Sr.,
Killed By Train**

A shocking accident occurred at the Fairville station on Saturday night, at 5:15 o'clock, when David Linton, Sr., while hurrying to catch the Fredericton train, was struck by a freight train, and his left arm practically severed from his body. He was removed to the general public hospital, where he died at 11:30 o'clock on Saturday night. Mr. Linton took a short cut through a yard and was running for a train which he mistook for the Fredericton train. While crossing the tracks, he was struck by the freight train in charge of Conductor Charters and Engineer Harold Haley. The train was brought to a standstill and the injured man was picked up by several men and carried in an unconscious condition into the Fairville depot, where first aid was rendered. Dr. J. H. Allingham was summoned and the man was removed to the General Public Hospital.

He is survived by two daughters, Mrs. William J. Miller, of Dorchester street of this city and Mrs. James McKillop of Fairville; by three sons, William J. Linton, of the Manawagonish road, the Fairville fire chief (Samuel S. Linton, a farmer of South Bay, and David Linton, Jr., of the Sand Cove road. He is also survived by two sisters, Mrs. Kate Godfrey and Mrs. Margaret Elder, both of Wexford, and by one brother, William Linton, of California.

The funeral of Mr. Linton will be held on Tuesday afternoon at 2 o'clock from the Fairville Methodist church, of which he was such a devout member.

W. F. Burditt and H. C. S. Adams, members of the local exemption tribunal No. 86, held court all last week in St. Martins. During the week they tried seventy-three cases. Seventeen were disallowed; the balance were either exempted or given temporary exemption.

Dick Snow of Woodstock, who went overseas as a member of the 53rd battalion, has been killed in action, according to information that has been received in Woodstock by relatives.

The youngest son of Hon. Neil Primrose, M. P. in the Imperial house of commons, has been killed in Palestine. He was a lieutenant in the Bucks Yeomanry.

George Johnston of Chatham was advised yesterday that his son, Harold, who was reported wounded and missing at Vimy Ridge, was now officially reported killed in action.

The names of the following New Brunswick men appear in the midnight casualty list:

Wounded—H. S. Stuts, Moncton; H. K. Burchard, St. John; B. C. Flewelling, Woodstock; H. Brynston, Derby; E. Shorey, Newburg Jct.; C. H. Cielke, Milton; Lieut. W. C. Lawson, St. Stephen; Captain G. G. CHILD GETS SICK

CROSS, FEVERISH

IF CONSTIPATED

"California Syrup of Figs" Can't

Harm Tender Stomach or Bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour. Look at the tongue, mother! If coated, or your child is listless, cross, feverish, bad breath, restless, doesn't eat out of the bowl, and you have a well-playful child again. A thorough "inside cleansing" is often all that is necessary. It should be the first treatment for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

EIGHTY PER CENT PROFIT WAS MADE ON BACON.

As a result of the recent investigation into the war profit on bacon it was announced yesterday from Ottawa that certain companies had been making no less than eighty per cent on this commodity. Owing to the action taken by the government, it will be impossible for packing companies to make such profits in the future. The commission consisted of G. F. Henderson, K. C. chairman, and Messrs. A. B. Brodie and G. F. Clarkson.

The Victory Loan

The Victory Loan committee and canvassers met at Bond's on Saturday for luncheon and heard inspiring addresses by Senator Thorne and J. B. M. Baxter. The latter pointed out that there would be no difficulty in raising \$400,000 to save St. John from destruction if a German fleet outside the harbor threatened that sum as ransom, and argued that the danger is just as great if not so near. A telegram from A. E. Ames, chairman of the national executive, urging greater efforts to secure larger subscriptions, was read by Senator Thorne. J. M. Robinson presided.

The local subscriptions recorded on Saturday totalled \$196,750; the previous total was \$207,500, making a grand total of \$1,184,250.

The total of subscriptions for the rest of the province up to Saturday night is \$1,009,250.

This makes the total for the entire province \$2,193,500.

Union Ticket For Province Complete

With the nomination of D. A. Stewart as the union candidate for Madawaska-Restigouche at a convention held on Saturday evening in Campbellton, the list of union candidates for the province is completed. The nomination was tendered C. H. LaBelle, who was forced to refuse on account of ill-health.

H. R. McEllen, who was in the field as an independent Liberal in St. John, Albert, announced yesterday that he had withdrawn from the contest.

Sir Robert Borden was nominated for the constituency of Kings county, N. S.

his native county, at a convention on Saturday evening.

EDISON PLAN TO USE

SAILING SHIP HULLS

Install Power Quickly in 1,710,000

Tons Already Afloat—Shipping Board Impressed

Washington, Nov. 19.—Thomas A. Edison has worked out in detail a plan to equip 1,710,000 tons of sailing vessels with engines and has submitted it to Chairman Edward N. Hurley of the United States Shipping Board.

The scheme is receiving the closest attention. Mr. Edison, it is said, believes that sailing vessels can be fitted with twin-screw equipment which will make possible a speed of from ten to twelve knots and thus make it practicable for this large fleet of vessels to enter the submarine zone under convoy.

The success of the Edison programme would mean that the United States would be in a position to go far toward bridging the gap in shipping which may exist until the large merchant vessels now being constructed in American yards are off the ways.
