increase in Weight Ten Pounds or More. Increase in Weight Ten Pounds or More.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal, amount of fat, the nutritive processes must be artificially supplied with the power which nature has denied them. This can probably best be accomplished by eating a Sargol tablet with every meal. Sargol is a careful combination of six splendid assimiliative agents. Taken with meals they may with the food to turn the sur. sargoi tablet with every meat. Sargoi is a careful combination of six splendid assimiliative agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe nourishment for the tissues and blood and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by druggists everywhere and every package contains a guarantee of weight increase or money back. If you find a druggist who is unable to supply you send \$1.00 to Sargol Co., 74 St. Antoine street, Montreal, Que., and a complete ten days' treatment will be sent you post-paid.
