

## R. GOULD PLANS ANOTHER RAILWAY

Would Link Presque Isle  
With C. P. R. on Que-  
bec Border

"If the project becomes a reality it will make Maine and Quebec more neighborly," commented Hon. A. R. Gould, president of the Aroostook Valley Railroad, at the termination of a convention in Montreal during which he had outlined a proposal for the construction of 112 miles of new line through Aroostook county, Maine, to connect Presque Isle with Frontenac Lake on the Quebec border.

Senator Gould was in Montreal yesterday, says Wednesday's Gazette, to come here for the purpose of meeting officials of the Canadian Pacific Railway. Afterwards at the Windsor Hotel he explained the proposals which had been discussed and which are now under consideration. The line, he said, would give a connection between two termini points of the Canadian Pacific and would offer to that road a second line across the State of Maine, bringing the cities of Montreal and Quebec closer to the heart of a rich country, and affording a more direct route between Quebec and St. John.

The project was under discussion in 1912," said Senator Gould. "But the outbreak of the war put an end to any proposals for new railway construction. Afterwards costs of labor and material precluded action, but the time now appears to be propitious for the development planned. There is now a section to Washburn in operation. This is an electric road, and the proposal is to operate electrically throughout. There is ample water for the development of electric power. Further, it is planned to furnish electric power for such saw mills as may be erected and obviate the use of steam power and reduce the fire danger. The proposed line would run through a heavily wooded country and open up a million acres of timber. There is ample pulpwood, with hardwood on the ridges. By taking out the hardwood and handling the softer woods on a proper plan, it has been estimated that there will be more room for the smaller stuff to grow and that there will be more wood in that section a hundred years hence than there is now. This is to be a forestry plan, developed along scientific lines. From another point of view, the line would give convenient access to a wonderful fish and game country."

There is, it appears, a considerable movement of freight in both directions, and Senator Gould said that the proposed new line would effect a considerable reduction in distances and give business to Canadian railroad connections. Some of this would be due to the fact of Michigan furniture manufacturers getting into the forest section for certain hardwood useful in their trade and which they are now compelled to seek farther afield.

In conclusion, Senator Gould said that the proposed line would bring a rich country within easier reach of Montreal.

## FLAPPER BANDIT?

Mrs. Pauline Farr, 19-year-old Chicago girl, is held by Cincinnati police in connection with the attempted hold-up of a conference store. Her husband, Albert Farr, is under arrest for alleged participation in several other holdups.

## Machine Guns For Liquor Patrol

Washington, July 4.—Results obtained by the customs marine patrol since its organization last April, to supplement operation of the Coast Guard in curbing rum running in the vicinity of New York harbor, have justified its continuance for another four months, it is announced by Assistant Secretary Moss of the Treasury. It was originally intended to discontinue the patrol June 30.

After frequent suspension of activities necessary to overhaul and rent boats and equipment, Mr. Moss said, the patrol will resume operations "with augmented equipment, including machine guns and rifles, manned by picked crews determined to surpass their previous record." The patrol to date has captured seventy vessels, with thirty-one now under seizure, and seized 12,500 cases of liquor valued at \$800,000.

## CANADA'S OLYMPIC TEAM IN PARIS

Paris, July 3.—The Canadian swimmers, wrestlers and oarsmen who will compete in the Olympic contests arrived in Paris this afternoon.

On Saturday the Canadians will don uniforms of cream flannel trousers, blazers bordered with varsity blue and with maple leaf pockets. They will wear royal blue ties in honor of the Prince of Wales and straw hats with a blue band and green leaf.

Aluminum, an alloy of aluminum, used for airplane steel, is reported as strong as the best steel and only one-third as heavy.

## MRS. PULTIZER TO WED FORMER TUTOR

Bride-to-Be is Great Granddaughter of Commodore Cornelius Vanderbilt.

Shelburne, Vt., July 4.—Mrs. Ralph Pultizer, great-granddaughter of Commodore Cornelius Vanderbilt, who divorced the publisher of The New York World in Paris last April, is to marry Cyril Jones, the former tutor of one of her sons. The engagement was admitted by Mrs. Pultizer who said that the wedding would take place in August or September.

Mr. Jones, who is 34, is a few years younger than Mrs. Pultizer. They met in the autumn of 1921, when he was engaged as a special tutor for Seward Pultizer, the younger of Mrs. Pultizer's two boys. He remained with the Pultizers until the spring of 1922 when he joined the faculty of the Milton School, a private school for boys at Milton, near Boston.

## ACID STOMACH IS DANGEROUS

Sufferers From Indigestion  
or Stomach Trouble  
CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic acid stomach," says a well known authority.

Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with pepsin or artificial digestants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

Instead, neutralize or sweeten your acid stomach after meals with a little hot water and dissolved Magnesia. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with pepsin or artificial digestants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

## "THUMBS DOWN" FOR EX-KAISER

This is the Attitude Adopted  
by Many of Former  
Officers.

By CARL D. GROAT  
(United Press Staff Correspondent.)  
Berlin, July 4.—Kaiser Wilhelm II can never again be the throne again, so far as German officers are concerned.

The "Deutscher Offiziers-Bund," chief organization of the officers of Kaiser Wilhelm's former army, has taken a vote against him, the United Press has learned. The question was raised whether the Bund favored his return, and fewer than one-third of the voters were in favor thereof.

The Bund's action is extremely important, so far as the monarchist movement in Germany is concerned. In the first place it shows that the bulk of the officers are breaking away from an earlier conception that, once having given their oath to the Kaiser, they must still hold it.

In the second place, it is significant that dyed-in-the-wool monarchists have switched over to the position that the general populace has long entertained, namely, to a feeling that the Kaiser cannot even be dreamed of as a throne candidate.

The United Press learns that the consideration of the Bund, that the Kaiser is actually principally by two Kaiser fled to Holland in the hour of need, even though he was counselled to do so by higher officers; and, second, that he married Princess Hermine so quickly after the real Kaiserin died.

## Recalls Tale of Heroism in War

Dover, England, July 4.—A dramatic incident of the war is recalled by the necessity of removing a British monitor which was sunk north of the fairway at the entrance of Dover Harbor.

The vessel had just taken on board a supply of shells and was anchored near the harbor entrance, awaiting a chance to slip out to sea, when she caught fire. Anchored beside her were two ammunition boats. The danger of an explosion and disaster to a large scale was imminent. Troops were ordered out, townspeople were cleared from shore. To save the harbor and town the monitor's bottom was blown out, and many of her crew perished.

Mrs. Thomas Mowry and son, have gone to Digby to be away until September. Mr. Mowry, whose business interests are in Digby during the summer, has been there since May.

## MERRY WAR OVER A BUILDING LAW

Arkansas Town Does Not  
Want Apartment House  
Near Capitol.

Little Rock, Ark., July 4.—The power of the United States District Court has been invoked by a Memphis, Tenn., corporation in an effort to prevent the city of Little Rock from enforcing a zoning ordinance which would prohibit the erection of a seven-story hotel apartment building within a few hundred feet of the state capital building. A movement was started by those who said they sought to maintain the beauty of the city, the Arkansas river and historic Fort Root across the river. Several acres south and west of the new capital have been acquired by the state and made into a park, but the legislature has postponed action to acquire land north and east of the building which was contemplated to round out the capital grounds.

Recently the Tennessee corporation purchased several of these lots and announced its intention to erect a large apartment which would overlook the capital and even tower above the huge dome of the state house. Immediately a movement was started by those who said they sought to maintain the beauty of the city and grounds to prevent the erection of the building. This culminated in the passage of a city zoning ordinance, prohibiting the erection of buildings more than three stories high within certain prescribed limits near the capital.

The apartment corporation answered with a petition in federal court asking for an injunction to restrain the mayor, aldermen and other city officials from enforcing the ordinance.

APPOINTED TO CAMP.

Miss Leonora Belyea has been appointed leader for rural recreation work at the teachers' camp, rural science summer school, which opens in Sussex on July 15. Miss Belyea spent the year studying at the Margaret Eaton School of Expression in Toronto. A. C. Gorham is the director of the school and it is expected that there will be a very large registration of students.

PRIESTS VISITING HERE.

Rev. Edward Howard, C. S. S. R., who has been teaching in the Redemptorist College in Brockville, Ont., has arrived in the city and is a guest at St. Peter's rectory. Rev. Joseph McLaughlin, C. S. S. R., who like Father Howard, is a former St. John boy, is also at St. Peter's rectory. He is now stationed in Montreal.

## WOULD HAVE NEW PENSION BOARD

Ottawa, July 3.—At the close of the hearing of the parliamentary committee on soldiers civil re-establishment early this afternoon L. W. Humphrey, Progressive, West Kootenay, gave notice of a motion that in view of the evidence adduced before the committee the present personnel of the Board of Pension Commissioners should be removed from office.

LAKE LOUISE HOTEL

DAMAGED BY FIRE

Calgary, July 3.—After a strenuous fight, lasting several hours, volunteers, aided by the Banff fire brigade, succeeded in bringing the fire at the Lake Louise Hotel under control, according to meagre reports received here early this evening. The old wing, which was the original hotel, was destroyed, the new wing being saved.

One or two of the members of the staff were slightly burned while fighting the flames, but all the guests escaped without injury and lost none of their effects.

The American condor, the largest bird that flies, is fast becoming extinct, though a few still exist in the Sierras.

## DROVE CAR WITHIN 8 FEET OF MOOSE

Woman Had Interesting Experience on Road—Saw Bear Last Year.

Houlton, Me., July 4.—It is not often that a moose is chased for 200 feet and one can get within eight feet of one but such was the experience of Mrs. Annie E. Newell on Sunday while she was driving a party to her home at Forest City.

The party sighted a deer in an oat field and watched it for several minutes seeing it start off gracefully and disappear in the woods on the opposite side of the road and in less than a half hour later a young bull moose came onto the road just a little way ahead of the automobile and for a second all thought it must be a young colt until getting nearer it was seen to be a moose. The driver stepped on the gas and soon the car came within eight feet of the moose. During the running the moose looked back once or twice and saw its face to good advantage. It went off into the woods by the side of the road and disappeared out of sight.

Last summer Mrs. Newell had the excitement of having to stop her car between Forest City and Forest Station to allow a large bear to cross the road ahead of the car.

## SAYS GUNMAN'S NAME IS DAVIS

Bangor Official Talks of the  
Man Arrested by Biddiscombe Here.

Police Inspector Frank J. Golden, who returned to Bangor on Sunday from St. John, N. B., making the trip in John H. Lyon's Packard touring car which was recently stolen and was recovered in St. John, calls Dan O'Brien, arrested here by Detective Biddiscombe John Davis. Golden said Davis made a trip to Bangor in a Ford sedan which he took from John E. Black's garage in Woodland. The abandoned Ford was found by the police in the yard of the Sidney Robinson farm on the O'Brien road.

According to the inspector's story Davis is one of four men who recently made a series of breaks between Portland and St. Stephen, N. B., including a break at Columbia Falls, where large quantities of clothing, tobacco and other goods were stolen. A small footprint which has been found in the vicinity of several of these breaks has caused the authorities to believe that one of the burglars was a woman, but Inspector Golden says that it has been ascertained that these footprints were those of a young boy who has been a member of the burglar party.

Davis is the only member of the quartet who has been arrested but it is expected that the other three will soon be in the hands of the law.

Cruelty.

The tall, proud girl turned haughtily to the white-robed figure. "Have you no heart?" she asked in a low tone.

"No," he growled.

"Well, give me ten cents' worth of liver."

## SAYS BAD NAMES CAUSE OF TROUBLES

Columbia Professor Speaks  
Frankly to Educational Association About U. S.

(United Press.)  
Washington, July 4.—Bad manners of the U. S. are responsible for most of her international troubles, Dr. J. Russell Smith of Columbia University told delegates to the National Education Association here today.

"Get a foreigner into a frank frame of mind and ask him what he thinks of American manners," Dr. Smith said. "He will tell you that our manners are hateful, it is difficult not to hate a man whose manners are hateful."

The educator also criticized the more vociferous apostles of "100 per cent. Americanism" whose, he said, who claim for the U. S. "the one first class civilization in the world."

"Here is a perfectly useless, perfectly needless, non profit making cause of international trouble," Dr. Smith said. "The broader Americanism is polite and humble, and not proud and arrogant."

He urged teachers of geography to instill in their students sympathy for the problems and achievements of other peoples.
