## Three Sent to Prison For Business Frauds

New York, May 18.—Harold S. Thomas, Carl A. Bann and Richard Kretzner, employees of the importing firm of Alexander and Baldwin, and Samuel Blowers, commodity broker, were given indeterminate prison sentences of from three to seven years each when they pleaded guilty to grand larceny of more than \$500,000 by means of false trade acceptances, issued in the name of Alexander and Baldwin. The money was all lost in business ventures.

CALLED GOOD THING  
Financial Editor Talks to Retail Credit Men of Boston

Bartholomew F. Griffin, associate editor of the Boston News Bureau speaking on Wednesday evening at the monthly meeting and dinner of the Boston Retail Credit Men's Association, declared that the present reversal of the stock market and partial decline of business was a good thing for the property which has succeeded the depression period.

"If we had continued as we were going during first three months of this year," he said, "we were heading straight for another inflation period such as followed the war. This time it was due not so much to lack of bank credits as to limitations of machinery, materials and men. Henry Ford was right in declaring that the price of raw materials was too high and in determining to produce his own. Raw materials are always the most sensitive to changed conditions. Had the situation continued we would shortly have faced a consumers' strike, a strike of buyers and bankers. These last few weeks have brought a wholesome taking breath. This is no time for bigger inventories, but rather a time for stabilizing the property we have."

At the close of the regular practice for the members of St. Luke's choir last night a kitchen shower was tendered Miss Florence Brown, one of the choir members who is to be married next month. The presentation of the gifts was made by H. W. Bromfield, the choir leader, and hearty good wishes were extended to Miss Brown. Although taken by surprise, she expressed her thanks in a pleasing manner. There were about forty members of the choir present and after the presentation refreshments were served and a pleasant social hour was spent.

A special meeting of the Germain Street Baptist W. M. S. was held yesterday afternoon with Mrs. Hope Thompson presiding. Mrs. George Parker led the devotional exercises and Mrs. W. E. McIntyre showed a number of slides of the work carried on by the Canadian Baptist missionaries in Bolivia. Mrs. E. M. Sippel told of the work at the Penial Farm at La Paz.

Among the local people who will attend the closing of the Mount Allison University next week are Miss Alice Hea, Mrs. Kent Scovill, Miss Beryl Blanch, Miss Gillis, Mr. and Mrs. J. C. Johnson and Mrs. W. H. Nice. Miss Phyllis Hall is medalist at the Conservatory of Music.

## Doctors Gave Up His Case of Eczema

But a Sample of D.D.D. Relieved Him  
This is one of the many striking stories we are publishing of what the D.D.D. Prescription is accomplishing among Canadian sufferers. Cases from your own neighborhood will be sent on application.

"Just a word about your D.D.D. Eczema medicine. I suffered for one whole year with eczema. I went to two doctors but they couldn't help. I found D.D.D. and I got the free sample. I found that I got free from eczema and I only used the sample." Yours truly, Mack Bateschick, Toronto, Ont.

## COPPER MARKET.

Boston, May 18.—Copper has practically struck bottom on this decline, with consumers about to enter the market for third quarter requirements. While fabricators appear about to enter the market they intend to order so this time that they do not shoot the prices up upon themselves as they did when buying early this year. However, those generally best informed are inclined to expect buying to result in quick recovery to 15 8-4 or 16 cents a pound.

## HARDWARE MARKET.

Boston, May 18.—Hardware Age says: Hardware retailers in the larger cities report that the public is beginning to shop for lower prices, which is regarded as significant, and representative of the public's attitude toward present prices. Cold and unseasonable weather is retarding retail sales. Manufacturers are behind on deliveries and jobbers in some sections are said to be embarrassed by stock shortages. Nails, wire, cloth, poultry netting and builders' hardware are all difficult to obtain, jobbers say.

## CUBAN SUGAR CROP.

Boston, May 18.—Willet & Gray are now about the only recognized authorities to cling to an estimate of 4,000,000 tons for Cuban sugar crop this year. If their estimate is realized, the 38 mills still grinding in Cuba, out of 122 that operated this year, will have to produce about 800,000 tons in excess of their last crop.

## The London Life Once More Leads the Way!

SOME Canadian Life Insurance Company had to put into action its realization of the need by certain classes of business and professional people, of adequate insurance at rates which would not entail too great a tax upon their resources at a time when all possible funds are required for the development of business. The need of such classes in the past has been partially met by policies of non-participating insurance, with stationary premiums, paid in over a stated period, producing set results.

## Now comes a plan providing insurance with annual dividends at non-profit rates.

The London Life Insurance Company, by reason of its strong financial position and enviable dividend record, is peculiarly able to meet the genuine need of the classes referred to, and has devised a plan whereby they will be enabled to carry adequate policies at low rates, and yet share in profits.

For example—if you meet the requirements and are age 23, you may secure \$10,000 of participating life insurance with this Company for the extremely low premium of \$149.50 per year.

At age 35 your rate for participating insurance under this special policy would be \$214.00—only \$1.40 per \$1,000 more than for non-participating insurance.

This new policy of The London Life is meeting with popular approval to a remarkable degree, and millions of dollars of insurance will be effected on this special plan by those who should benefit by its provisions. In your own interest, call up The London Life agent and find out whether you can qualify and so enjoy the exceptional benefits this most modern of policies offers you.

## ROD AND GUN.

The brotherhood of anglers ought to be particularly pleased with the June issue of Rod and Gun in Canada, because it is the Fishing Number, and because it features that splendid sport generally. In fact, the June issue, which is now on sale, is so chock-full of attractive material that it is certain to be an absolute treat for fishermen all over Canada. "Fishing on the Great Slave Lake" is a rattling good story and illustrated profusely, "Spearing a Devil-Fish" is a yarn that is different, while there are many others equally good. But non-fishermen are not forgotten in this number, and there are other features. There is a big, grand, and Gun in Canada is published monthly at Woodstock, Ontario, by W. J. Taylor, Limited.

**A Quality Chassis Which Can Be Used With Any Standard Body**

Chevrolet transportation is now available to the light-truck owner at a lower price than ever before. It is no longer necessary for the buyer of a Chevrolet Chassis to have a special body prepared.

The construction of this new Chevrolet Superior Chassis permits any standard body being built on to it. This has been made possible by changing the position of the gasoline tank and making other slight alterations in design. Two popular types of body are shown in the illustration above. Many others are available at moderate cost, to the buyer of a Chevrolet Superior Chassis.

Accompanying this new measure of economy are the usual Chevrolet qualities of power and endurance, and the many improvements recently completed in the Chevrolet Superior line.

Combined, these render the new Chevrolet Superior Chassis the greatest value of its kind in Canada. Every prospective light-truck owner should inspect it at any one of the many Chevrolet dealers' showrooms.
