HOKEY.

Cleghorn III; Kennedy Serious.

Seattle, April 3.—Ole Cleghorn, centre with the Canadians, is the latest eastern player to be stricken with the influenza. Manager Geo. Kennedy took a turn for the worse last night and his condition is regarded as serious.

Three Improving.

Seattle, March 2.—"Newy" Lelonde, Manager Kennedy and Berlinguette of the Canadian hockey team were reported improving today. The other influenza victims were reported to be still in high fever.

BASEBALL.

New England League Organized.
Lawrence, Mass., April 2.—The New England Baseball League, which will have a six club circuit, was organized here today. John H. Donnelly, of Lowell, who had obtained the territorial rights of the old New England league for the new organization was elected president, secretary and treasurer for a term of two years. It was decided to open the season on May 15 and to close it on Labor day. The schedule will be drawn up by a committee to be named at a meeting here on April 15.

Jesse Burckett, former manager of the Worcester club, and John Connolly, exercised their option on the Haverhill franchise. Options for the franchises for Lawrence and Lewiston (Me.), were not closed, but it was stated that the cities were certain to have teams in the league. Other clubs in the circuit will be Portland (Me.), Fitchburg and Lowell.

Barry Going to France.

Jack Barry, former manager and second baseman of the Boston Red Sox, is going to France for the Knights of Columbus and will supervise the baseball activities in the A. E. F. Barry, with several other players, left the Red Sox at the end of the 1917 season and went into the navy. It caused some surprise when the player announced that he would not join the Red Sox again this season.

Barry will take up the same kind of work in France that was started by Johnny Evers. He expects to sail in a week or two and will get in France just when the baseball season gets into full swing among the soldiers.

Brooklyn Insider Hurt.

Jacksonville, Fla., April 2.—The Dodgers' training camp was thrown into bloom here when Raymond Schmandt, the brilliant second baseman, was spiked on the left foot in a game played between the regulars and Yannisians. The accident occurred in the third inning. After two men were out, Brail drew a pass and attempted to steal Snyder's throw was slow and Brail slid into the bag feet first. His spikes tore through Schmandt's shoe and inflicted a deep gash about four inches long on the player's foot. The spikes grazed a bone, and came within an inch of cutting a tendon.

Dr. Baumgardner responded to a call and sewed up the wound. Five stitches were required. The player will be out of the game for about a month, and will be sent to his home in St. Louis to rest up. With Schmandt out of the game the Dodgers are greatly weakened both in the field and at the bat.

Owing to the injury of Schmandt Manager Robbie stopped the practice game at the end of the seventh inning. The regulars won by a count of 5 to 4. Larissey, a local lad, pitched for the Yannisians. He was relieved at the end of the third session. Hy Myers, who reported yesterday, went through his first workout this morning, and appears

Semi-ready Shop Talk:

"We sell a lot of clothes in our shop—have to, for the price label in the pocket compels us to sell Semi-ready tailored suits and overcoats at a smaller profit than any merchant in Canada thinks is possible—

"In fact, the only objection ever offered by any merchant when he was offered the exclusive selling rights for Semi-ready was that it was not possible to sell at such a close profit.

"All can see the fact that small profits make a big wholesale trade. Many wholesale houses handle goods on 10 per cent. margin."

USING THE MOVIE CAMERA TO PRESENT CANADA'S ATTRACTIONS

Local Government Assisting to Boost Dominion—Display at Fredericton Arouses Enthusiasm

Fredericton, April 2.—Members of the legislature and their friends had an opportunity this evening to get an idea of what the federal department of trade and commerce is doing in the way of advertising the resources and attractions of Canada through the medium of motion picture films. When the house adjourned at 10 o'clock the members adjourned to the Gaiety Theatre which had been placed at their disposal for the purpose, and there witnessed a series of exceptionally fine pictures taken in various parts of Canada. The demonstration was in charge of B. E. Morris, M. Sc., superintendent of exhibits and publicity bureau of the department of trade and commerce, Ottawa. He had come to Fredericton on the invitation of Premier Fos-

ter as the result of arrangements made by E. S. Carter, secretary to the premier, who had had an opportunity to learn what the department is doing along this line on the occasion of his last visit to Ottawa.

St. John Men Present.

The announcement that he was coming was received with satisfaction by those who have been endeavoring to stimulate outside interest in this province and in addition to the members of the legislature and of the Fredericton board of trade and Tourist Association those present included E. A. Schofield, A. H. Wetmore and W. H. Golding, of St. John, representing the provincial organization recently formed for the purpose of stimulating tourist traffic. It is expected that some of these gentlemen will wait on the government tomorrow to ask for provincial co-operation with the federal department in order that New Brunswick may share with the other provinces in the advantages to be derived from this form of advertising.

Judging from the comments heard at the exhibition of the pictures this evening, there will be no doubt of their favorable reception. The larger railways of Canada, particularly the Canadian Pacific, were pioneers in the domain in acknowledging the value of the moving picture as a means of portraying accurately and interestingly the beauties and resources of nature in Canada to the people of the world.

The pictures shown this evening included scenes illustrative of methods for preventing and combating forest fires, showing some of the water powers on Winnipeg river, wooden shipbuilding in Canada, from the start where the timbers are secured to the completion of the vessel, fisheries and hatcheries, and mountain climbing.

The large gathering which witnessed the exhibition were enthusiastic over them, but the spectators were quite ready to agree that New Brunswick offered many opportunities for pictures equally striking and interesting. Among the subjects which have been suggested are log driving operations from the big woods to the lumber mill, and the shipment of the manufactured lumber on foreign-bound vessels, fisheries of the North Shore and Bay of Fundy, big game hunting and fly fishing, and some of the leading industries and possibilities.

The late Stephen O'Meara, police commissioner of Boston and formerly editor of the Boston Journal, who was a native of Charlottetown (P. E. I.), left an estate of \$82,000, all of which is left to his
