CHATHAM, N. B., JUNE 29, 1882.

THE MASONIC HALL MEETING.

The Masonic Hall Meeting, held on the call of Mr. Thomas Troy, one of the Candidates in the late contest for the representation of Northumberland in the Provincial House of Assembly, on Monday evening last week, was a large one and nearly all the seats were filled with more favourable consideration than those portions of New Brunswick, because of her large contributions to the stumpage revenue and she should also have credit for a proportionate share of the Export Duty Subsidy of \$150,000. Notwithstanding these claims, however, we were satisfied with \$3,000 a mile as a subsidy for the Valley Railway.

Mr. Troy's speech was frequently applauded during its delivery and also with great heartiness on the same platform on the occasion of his first appearance. [Mr. Troy's speech was frequently applauded during its delivery and also with great heartiness on the same platform on the occasion of his first appearance.]

There were at once a dozen or more calls for Mr. Tweedie and a large number for Mr. Smith. The Chairman said he believed it was understood that Mr. Smith was to speak next in defence of himself against attacks of the Surveyor-General.

Mr. Smith said,--It had not been his intention to take any part in the platform discussions of the present canvass, because he was not a Legislative candidate, but the Surveyor-General had made such attacks upon him, personally, as well as upon his paper--from the platform of a farm operation--the Government seemed to show a fear of appealing to a full electoral jury. Referring to the canvass of 1878 he affirmed that Mr. Adams had then appealed to voters to elect him on his record as an opposition man, although that gentleman thought fit to now deny the fact. Such being the case he had acted inconsistently in going into the Government, which he did only a few days after being elected. Messrs. Laudy and Hinington had held out to him, as an opposition man, Adams, as a local paper in that gentleman's interest, had thereby, assisted in its overthrow, and the formation of a new Government.

After referring to the Government's inconsistency in the matter of the Legislative Council, Mr. Smith took up the subject of the property qualification required of those who offered as candidates for the Local Assembly. If the principle was correct that no such qualification was required of those who came forward as Dominion candidates, why should it not prevail in respect of those for the House of Assembly? Why should the people's choice be thus narrowed down to one great class of men, to the ignoring of another as intelligent and, certainly, as well qualified for other respects?

The Government was entirely too large--there were too many in the Executive in proportion to the number of members in the House, thereby giving the Government an undue influence.

Mr. Troy, in his speech, had referred to the desirability of having the head of the Education Department in the House of Assembly. About a quarter of the whole revenue of the Province was devoted to the support of the public service spent so much, it was only reasonable that its head should be directly responsible to the House and people. It might, however, be urged that special qualifications were required to enable a man to properly direct educational affairs, yet if the system were brought more within the scope of the requirements of a common school education, it would not be difficult to get a man in the House properly qualified for the headship of that service, while it would be believed, and the actual indubitable.

Here some person shouted out "Give us local politics!" "Speak grammatically, please!" whereupon Mr. Troy said, "If you don't like my grammar you may go out." [Mr. Troy did not say "you can lump it," as stated by the World.] The difference between the assumed and actual debt, together with the balance on hand as well as the special subsidy of \$65,000 a year, which we had up to 1877 had been all spent. We had obtained \$150,000 in lieu of the Export Duty from the Dominion Government, besides the extra lump sum tax.
