ST. JOHN, N. B., SEPT. 6, 1906.

THE G. T. P. AND THE CONTRACT.
When the Grand Trunk Pacific Company was incorporated and the contract between it and the government was finally drafted, guaranteeing the company immense privileges and donating enormous financial assistance, the defenders of the government's policy laid great stress on clauses in the act of incorporation and the agreement which, they declared, ensured that the company would not get all the benefits, that it must work for Canadian interests while advancing its own.

One of these clauses, intended to compel the road to open up new territory, was clause 12 of the act of incorporation providing that the road should not be built nearer than thirty miles to any existing line. Another was clause 42 of the agreement which provided that the company shall convey all traffic, "not specifically routed otherwise" to Canadian ports.

It was pointed out by the Star and other papers and by speakers in parliament and out that if these provisions proved contrary to the company's interests it would be very difficult to enforce them. But these objections and cautions were scornfully ignored by the government and its supporters.

Now it appears that the company has decided that the first clause mentioned is detrimental to its interests and has determined to ignore it. And so high an authority as Judge Kilham of the railway commission has declared that it may do so without molestation as the clause, in spite of the pledges of the Premier and his ministers, cannot be enforced. As a result the Grand Trunk Pacific through Manitoba will run practically parallel and at a distance of from three-quarters of a mile to ten miles from the C. P. R. The company does not even attempt to open up new territory; it does not even attempt to get the shortest route through Manitoba; it selects the best provided district in the West and runs through that, practically double-tracking the C. P. R. for a considerable portion of the distance. So far as the effect of the waived clause is concerned it might as well have read that the G. T. P. could run where it could find the most business.

In view of the fact that the other clause referred to is the only guarantee that Canadian ports will share in the traffic of the new road, and considering that this clause is obviously also not to the advantage of a company which possesses already a well equipped American port and a line leading thereto which is shorter than the proposed line to any Canadian winter port, this decision of Judge Kilham's opens an outlook which is disquieting, to say the least.

THE PEACE TREATY.
Where the treaty of peace as concluded between Russia and Japan differs from the unofficial report of the terms as agreed upon by the Portsmouth conference last week the change is in the shape of further advantage for Russia.

One important modification of this nature is with respect to the payment of the cost of keeping prisoners of war. As announced last week Russia had agreed to pay Japan the board and transportation expenses of all Russian prisoners captured during the war, practically constituting an indemnity. But now it appears that this arrangement is to be reciprocal, and while this will not make any great reduction in the sum Russia has to pay—as the number of Japanese prisoners in captivity is trivial compared with the number of Russians—it means considerable to Russian pride, enabling the Czar to assert that he would pay not a cent of indemnity under any guise.

The articles with reference to the future management of the Manchurian railway and the future Far Eastern trade policy of the two countries are also important, indicating as they do prospects of closer trade connections between the two countries. The railway is to be managed conjointly, and the commercial treaty in existence before the war is to be renewed with modifications, each nation allowing the other "most favored nation" privileges. These cannot but bring Russia and Japan into closer touch with each other, and if no future cause of friction arises may result in a commercial alliance with the trade of the Orient cannot view with complacency.

As was expected, Mr. Haultain, ex-premier of the Northwest Territories, and now the most prominent resident of the new province of Saskatchewan, has been ignored by the new lieutenant governor and a man named Scott, whose chief claim to distinction is that he voted for the coercion bill during the last session of parliament, has been placed at the head of the government. This is a pretty mean sample of the cynicism politics, even for the present government and is a good measure of the calibre of the statesmen who at present rule the destinies of Canada.

THE WAY TO THE FOREST OF ARDEN
No signboards show which road to take to reach its ever-famous skies. Each one must find his own way to find where Arden Forest lies.

For who can tell how far to go? There is no book from which to learn: One may stop here or there, and find its gates are just beyond the turn.

The path that leads on straight ahead May take one farther from the goal; And this one which so many tread May still perplex and vex the soul.

What route to take no one can say. 'Tis found on neither map nor chart; Only the joyous find the way. Only the kind and light of heart. —Oscar Brumbaugh, in Recreation.

MONTEAL STRIKERS RETURN
(Special to the Star.)
MONTEAL, Sept. 6.—The Dominion Transport and Shelden Company dock labourers, who have been on strike for the past few days, returned to work this morning. There were about four hundred in all and of these about one hundred and fifty will be unable to get back their places.

INTERRED RUSSIAN CRUISER RELEASED
VALLEJO, Cal., Sept. 6.—The Russian cruiser Len, which had been interned at the Naris Island navy yard for nearly a year, will leave for San Francisco next Saturday, where she will go into dry dock. Permission has been received and orders are now awaited for the vessel to depart for Vladivostok, and it is expected that she will sail for that port about September 25.

DYNAMITE STEAMER ON FIRE.
LONDON, Sept. 6.—A despatch from Port Said stated that the British steamer Chatham, from London for Yokohama, took fire in the Suez canal and held up all canal traffic. The fire caused great alarm as the Chatham had seventy tons of dynamite on board. The fire was later extinguished and canal traffic was resumed.

JEFFRIES WON'T BE REFEREE.
SAN FRANCISCO, Sept. 6.—A conference between the managers and promoters of the Britt-Nelson fight has failed of results so far as settling the referee question is concerned. It was learned that Jeffries would not be the referee.

A POINTER WORTH HAVING.
The merits of Ozone are well known, but in buying it one must be sure to get the "purest form." Also Ozone should always be taken along with "Celery King," the famous tonic laxative. The "purest form" in which Ozone is put up is "Solution of Ozone, (the coupon kind)" and each bottle of this brand contains a coupon entitling you to a package of "Celery King" free.

No other firm in the world can give "Celery King" with Ozone. We give it because our Ozone thus gives the highest result. In addition, you get just about twice as much "Solution of Ozone" for your money as of other kinds, and you get it in the purest and most concentrated form. You also get "Celery King" free, instead of having to buy which you would need to do in order to have full benefit from the use of Ozone.

Four druggists should have "Solution of Ozone (the coupon kind)," if not, write to the Public Drug Co., Bridgeburg, Ont.

FARDWELL TO FATHER COUGHLAN.
The Father Mathew Association, in St. Malachy's hall last evening expressed their appreciation of the work done in the society by their chaplain, Rev. Richard E. Coughlan. The members of the association presented him with a purse of \$100 and an address of appreciation was read by the president of the association, W. F. Higgins.

An enjoyable programme was carried out during the evening, consisting of Piano solo, Mr. Kelly; solo, Chas. Heald; duo, Messrs. Toomey Bros; solo, W. A. Fishery; solo, John A. Barry; solo, M. Morris; recitation, J. H. McHugh; piano solo, A. Godose.

Among the speakers for the evening were M. E. Agar, T. O'Brien, J. J. Morrissey and J. H. McHugh.

LOCAL NEWS.

You may get lots of glasses but you can't buy new eyes. If you desire expert advice and entire satisfaction it will be advisable to call at D. Boyaner, Optician, 521 Main Street.

The total rainfall on Monday and Tuesday night was three and a quarter inches. This is not up to the record of the fall in August of last year, but was a pretty heavy rain.

Eben Perkins returned yesterday from a month's trip through the west. He had a very pleasant holiday and was much interested in all that he saw. Mr. Perkins also took in the Toronto exhibition. He says it is well up to the standard, and he mentions that the display of canoes by Chestnut of Fredericton is most creditable.

C. W. Wetmore of this city received yesterday a letter from Mr. Sato of the Japanese delegation at Portsmouth. Mr. Wetmore had written to Mr. Sato setting forth the opportunities open to Japan of enjoying certain industries in this province, and calling the attention of the Japanese statesman to mineral resources which might be acquired by his nation. All of which matters have been duly noted by the diplomat, as he says in his note from the Hotel Wentworth.

The price of Manitoba flour is dropping. In the latter part of last week the Manitoba varieties were quoted at \$2.50 per barrel retail. On Thursday or Friday the Lake of the Woods Company brought the price down to \$2.20. Yesterday the Ogilvie flour had a double drop. At 8 o'clock in the morning the retail price asked for the four put on the market by this concern was \$2.30, thus making the figures asked by the two companies the same. A couple of hours later the merchants who were still discussing the drop of twenty cents on the part of the Ogilvie people were astonished to learn that the price had been lowered.

Another drop of twenty cents had been ordered, so the Ogilvie flour is now selling at \$2 per barrel retail. The question now being asked is whether or not the Lake of the Woods people will follow the example of the other company. Ontario flour is now selling at \$2.10.

The body of Mrs. Rose Hanly, widow of Patrick Hanly, arrived by the Calvin Austin yesterday morning. Deceased was the daughter of Mr. W. H. and Mrs. C. W. Hamilton, and was formerly a resident of this city, and had resided in Boston about eight years. Her husband was a member of the Cathedral and the burial service was read by Father Holland. Interment was made in the Catholic cemetery. Mr. and Mrs. Anderson, son-in-law and daughter of Mrs. Hanly, accompanied the remains to St. John.

The remains of Miss Mary McDonough were taken to St. Martins on the 115 train yesterday for burial there. The funeral was held at 12 o'clock. The sum of \$150 was yesterday paid to Geo. R. Vincent, county license inspector, by three dealers who had been reported for selling during prohibited hours. The dealers who paid the \$150 were Messrs. Trethewell, Barker and Mayall.

REASONS WHY GOLDEN EAGLE FLOUR IS SUPERIOR TO ALL OTHERS.
"BE THEY WHITE OR BROWN."
1. Because it contains the germ which possesses the essential oil, the sugar of the berry which formerly gave that sweet nutty flavor to the old stone-ground flour of early days.
2. Because it does not contain the woody husk or irritating particles to be found in coarse flours.
3. Because it is not held at a fancy price, but is sold at a moderate price, bringing it within the reach of all.

You will do well to try Golden Eagle Flour and be convinced of its meritorious qualities.
