S. P. C. A. MEETING.

Secretary Complains of Overloading Horses on the Ferry.

The S. P. C. A. had its usual meeting Tuesday. G. E. Fairweather acknowledged a gift of \$300 from the city. Among the statements made was one by the secretary to the effect that he has a great deal of trouble in regard to the overloading of horses which haul heavy loads at the floats. Ordinarily there is little to complain of in regard to the average of the loads drawn over the city streets. But a load that would be comparatively light on Water street, or even King street, would at certain times of tide be very heavy on the floats. It was a difficult matter to deal with. Some members thought that a reference to the matter in the newspapers might have the effect of inducing many merchants and others who have goods to ed in above: Working horse having transport to direct their teamsters to sores under harness, 1. But he did not send enough money, and only two prepaid orders to Toronto were given to the men while the others were to buy their tickets in St. John.

On the Corinthian, through an error of the interpreters, the four men were bank and only had on hand \$11,000 or On arrival here it was found that the old man of the party was ill, and he was found out that the party were ingly released, but were immediately detained by J.
