The text of the German note, as received by wireless is as follows:

"In accepting the proposal for an evacuation of occupied territories the German government has started from the assumption that the procedure of this evacuation and of the conditions of an armistice should be left to the infiltery advisers and that the actual standard of power of both sides in the field has to form the basis for arangements safeguarding and guaranteeing this standard.

"The German government suggests to the President that an opportunity should be brought about for fixing the details. It trusts that the President of the United States will approve of no demand which would be irreconciliable with the honor of the German people and with opening a way to a peace of justice.

"The German government protests against the reproach of illegal and inhuman actions made against the German land and sea forces and thereby against the German people. For the covering of a retreat destructions will always be necessary and they are carried out insofar as is permitted by international law. The German troops are under the most strict instructions to spare private property and to exercise care for the population to the best of their ability. "In order to avoid anything that might hamper the work of peace, the German government has caused orders to be despatched to all submarine commanders precluding the torpedoing of passenger ships, without, however, for technical reasons, being able to guarantee that these orders will reach every single submarine at sea before its return.

"In his fundamental condition for peace the President proscribes the structure of every arbitrary power that can separately, secretly, and of its own single choice disturb the peace of the world. Let Music Brighten the Lives of Your Children

Let them grow up in an atmosphere of good music.

Let their appreciation of the beautiful things of life be developed

Let them receive the indelible imprint of culture and refinement through the medium of good music. While the young minds are open to receive such impressions, begin their musical, and higher education with

"The Phonograph with a Soul" This wonderful instrument brings the world of music into your home; RE-CREATED by the world's greatest artists. No matter where you live, your children can have the same musical advantages as though living in the great cities during the height of the musical season.

The New Edison does not merely imitate. It RE-CREATES. No human ear can distinguish artist from phonograph. The famous Edison tone tests have proved this, not once, but more than 1500 times.

Start the children's musical education to-day, by bringing them here, and letting us play a program of charming music that will be as enjoyable for you as it will be delightful for the little ones.
