B., July 16.—The results of the recent examinations for high school entrance held at the grammar school here have been announced and show that the following have passed the examination, twenty-five passed either in 1st or 2nd division. The rest passed the 3rd division which means they will enter the High school and must take a supplementary examination. The names of those who passed in the first two divisions are as follows: Division 1, Louise Friel, 88 1/2; Gladys Walsh, 79 1/2; Pearl Kitchen, 69; Mona Morris, 68; Gladys McDermid, 67 1/2; Division 2, Bertha Dunbar, 65 1/2; Hazel Baldwin, 64 1/2; Pearl Hart; Mabel Shea, Eldon McDiarmid, Bertha Snowball, Verne MacLachlan, Lillian Holt, Margaret Weldon, Yvonne McLean, Woodys, May Gaynor, Jack McLean, Ella Cornish, Kathleen Barry, Charles Treva, Claude Crobbie, Lillian Grosman, Walter Snowball, Audrey Anderson.

DOUGLASTOWN SCHOOL MEETING

Newcastle, July 15.—At Douglastown last night, the annual school meeting was held. W. F. Flett, trustee, vice Thomas Barnett, reported after many years' faithful service, James Driscoll was elected auditor and \$1,800 was voted for school expenses for coming year.

ORDERS PROGRESS TO BENEFIT OTHER SUFFERERS

FACE OF THREAT

County Council Decides to Erect Tuberculosis Home on Strait Shore

COST \$46,900

Notice That Application for Injunction on Action of Councillors—Building to Accommodate Fifty-two Patients and Be Up to Date in Every Respect.

WEDNESDAY, JULY 16.

Notwithstanding the injunction with which the municipality is threatened by residents of Douglas avenue and vicinity in case further steps be taken towards the erection of a hospital for consumptives on a site between Merritt street and the C. P. R. tracks, the municipal council adopted yesterday afternoon a report of the special committee in charge of the matter, recommending that the work be proceeded with.

Plans and specifications for the construction of the proposed hospital, prepared by Architect F. Nell Brodie, were submitted by Coun. H. B. Schofield, who said the second year's set of the provincial legislature, these plans must be passed by the municipal council before any further steps could be taken towards the construction of the hospital. The councillor had only heard that day of the letter protesting threatening action against the building of the hospital on the site, which had been chosen as eminently suited with its good prospect over the harbor for the accommodation of patients who were prohibited from entering the city during their illness. He strongly urged that, in spite of the protest, the matter should be proceeded with without further delay.

Details of Building.

Estimates of the cost of building a hospital to accommodate fifty-two patients, while the separate power house and laundry would call for an additional outlay of \$14,200. Coun. Schofield pointed out that the laundry and heating plant might possibly be installed in the basement, but remarked that there was a strong feeling against such a plan in the minds of the people, and considering the fact that there was at present an agitation against a similar state of affairs in the General Public Hospital in Montreal, he would not recommend that such a plan should be sanctioned in a hospital for consumptives.

He further urged the desirability of modern equipment of the building, including a system of vacuum cleaning as proposed by Architect Brodie, who explained that the machine would collect 99 per cent of the dirt which would be lodged in a receptacle in the basement whence it could be removed for destruction. Mr. Brodie also explained an electric system of washing and sterilizing, a plant for which he thought should be installed in the upper flat of the power house.

It was pointed out that the estimated cost of \$46,900 would not cover the furnishings of the hospital nor the laying of water mains and sewerage, which Coun. Wigmore said would probably reach \$2,000.

Higher Than Estimate.

Coun. Agar brought up the point that the estimated cost of the building as now proposed was nearly double the amount estimated when the proposal was first made about a year ago. He urged the necessity for building the hospital whatever the cost might be but regretted the fact that the original plan had been represented that the building would cost much less.

Coun. McLellan pointed out that the estimated cost of the building as now proposed was nearly double the amount estimated when the proposal was first made about a year ago. He urged the necessity for building the hospital whatever the cost might be but regretted the fact that the original plan had been represented that the building would cost much less.

Coun. Frink said that though the question of establishing a hospital for consumptives who might almost be termed "borderline" cases, had been considered for seven or eight years, no decided steps had yet been taken. In spite of the letter of protest from prominent residents of the North End, he thought that the plans should be adopted in order to avoid the further delay that would result from putting off the matter till the next meeting of council. If legislative proceedings were taken against the municipality, the plans would be the less held good if it was found necessary to choose another site.

Warden Carson also thought that the council should go ahead immediately. Though the expenditure was large, he did not see how it could be reasonably cut down.

Further sections of the report which was adopted provided for a bond issue of \$50,000 and authorized the commissioning of the building.

SHERIFF DEFOREST GETS INCREASE

TO \$3,700 A YEAR

Must Pay Salaries of Deputy and Janitor Out of This

NEW ROADS

Dr. W. F. Roberts Elected to Succeed Dr. L. M. Curran on Hospital Commission—Waiting for Plans of Street Railway Extension to St. John East.

Wednesday, July 16.

Besides matters mentioned in other columns a considerable amount of routine work such as the reading of correspondence and the adoption of reports, was accomplished yesterday afternoon at the meeting of the municipal council which was adjourned till this morning at 11 o'clock.

An application from Sheriff Stephen S. de Forest for an increase of salary was reported on by Coun. McLellan, who made a motion that the sheriff's salary be increased to \$3,700 per annum in lieu of all fees to which he was entitled on condition that he pay the salaries out of this sum of a janitor for the court
