CAPTURE THE VISITORS CIVIL ENGINEERS SHOULD BE

HERE AT FAIR.

SLIGHT CHANGE OF PROGRAM CAN BE MADE.

City engineer McCulloch has received definite word of the itinerary of the Canadian society of civil engineers sum-mer excursion, which is timed to arrive in this city on the evening of Friday, September 21, the third and closing day of the fair.

of the fair. As the party will reach West Robson on the aight of the 18th some effort should be made to pring them here white the fair is in full blast. A glance over the program and dates given shows that a change could be accomplished very easily by bringing the visitors have first in place of Rossland, allowing them to see the fair and the power plants at Bonnington and then going on to Ross-land and the Boundary. If this is to be of a reversion cold, and in view of the rather stremuous program laid out for him at the coast, it was thought wiser to remain here quietly until Sunday evening when the entire vice regal party will leave the city on the C. P. R. even-ing express at 7.15, en route for the coast done steps should be taken at once to arrange a change with the party. There are many matters which will undoubted. ly interest the visitors at the exhibition such as the mineral display, the Hall Mines exhibit and the like, so that it is

worth while to try and get them here a little earlier than the time now fixed. According to the official time card the visiting engineers, about 150 in number, will arrive in Rossland on the night of September 18, visit Trail on the 19th and arrive at Grand Forks on the same day. The 20th will be spent at Proenix and Greenwood, the 21st at Grand Forks again, and on the evening of the 21st the party will arrive here at 6.30. They leave Nelson for Kootenay Landing on their way east at 7 a.m. on the 23rd visiting Moyle, Coleman and Frank on the 23rd

It has been suggested that the 20,000 club take up the matter of looking after the visitors but the exhibition directors should act also and endeavor to bring the party here for the fair. In writing Mr. McCulloch from Montreal, professor C. H. McLeod, secretary

of the society, says in part: "Members of the party will be very much obliged for anything you can do to make their stay in your city instrucive, and if time permit, perhaps you would be good enough to write me, mak

(Special to The Dally News) Creston, Sept. 7.—Hugh McGarvey died here at 9.30 this morning from injuries received in an assault made upon him by Lachlan Bruce last Monday night. Bruce is now a prisoner in the provin

tial jall at Nelson and he may have to stand his trial for wilful murder. Coroner E. C. Arthur, of Nelson, is exbected to arrive here tomorrow for the burpose of holding a postmortem and

quently an inquest Last Monday night Lachlan Bruce, ho worked at Leask's sawmill above the Goat river canyon, called at Hugh McGarvey's shack. McGarvey is the night watchman on the C. P. R. and lives night at the canyon. Bruce was cordial-ly invited to come into the shack. He had been there shortly before and Mc-Garvey, though he noticed the man had hen drinking, thought he was all right. On the second visit Bruce asked if he ould stay all night and be up in the morning in time for work at the mill. McGarvey assented, and, not being sleepy gave Bruce his own bed to sleep in. Some time about 4 o'clock Tuesday morning McGarvey waked Bruce up and told him it was time for him to start out or the sawmill.

for the sawmill. Bruce got up in a thoroughly bad humor and began making a lot of sense-less accusations against McCarvey, but afterwards withdrew them and shook hands with McCarvey in token of friendship. He started off for the mill but soon came back again and asked permis-sion to stop for a while longer. On coming in the shack the second time Bruce struck McGarvey on the side of the head and, although McGarvey is an old man of 65 years of age, continued to violently abuse him, gotting him down and viciously kicking the pros-trate old man rate old man.

After he had assaulted the old man, Bruce left him lying on the ground, and went off to work at the sawmill. When McGarvey recovered sufficiently to stand up, he started off to walk the five miles to Creston. He reached here with great difficulty and reported the outrage to provincial constable Joseph Wilson, who promptly proceeded to Leask's sawmill and arrested Bruce Later Bruce was taken to the provincial ail at Nelson for safe keeping Dr. Green, of Cranbrook, and Dr. Hope, d Creston, were sent for and McGarvey laced under their care. His condition was found to be very critical as in ad-dition to three broken ribs and many ruises, the poor old man was found to e suffering from pneumonia and it was hought that he had but a scant chance for life. He died this morning as above stated and an official enquiry will now be had into the whole matter.

Rev. J. T. Recent publications by promin ent churchmen were raising this ques tion in an acute form. The church should make plain that the great function of holy scripture is to convey to the world the knowledge of salvation through Jesus Christ and that the liberty given to criticism must be exercise only in view of this. Van Horne's Cuban Railway Suffers in the Insurrectionary Hostilities--Situation is More Serious

Havana, Sept. 7.—An official armistice of ten days has been decided upon by the government. The zones in which the opposing forces must remain will be determined upon during the course of the day. The armistice will be conducted inder the regular war regulations.

Havana, Sept. 7 .- All peace overth res are blocked by the refusal of Pino Juerra, the insurgent leader in Pinar del Rio province, to enter into any ar-rangement for an armistice. Guerra's answer to the government's announcenent of its readiness to grant a ten day's armistice is the blowing up of two pridges on the western railway, the cuting of railway communication beyond Inar del Rio and an attack on San Juan de Martinez. It is believed here to-night that San Juan de Martinez is in the hands of the insurgents and that the garrison, consisting of one hundred goverment regulars and a small force of rural guards have been defeated or cap-

The fact that other insurgent leader are willing to agree to an armistice can have little effect as long as Guerra is determined to prosecute the war. Guerra can control the situation in his region. His force is reported recently as from 3000 to 4000 men, all well mounted and some well and some indifferently armed. The government has sent a second committee to him regarding an armistice but it cannot reach him before tomor-row. The fact is, Guerra refuses to accept an armistice except on condition that the last presidential and congres-sional elections shall be annulled. What the government will consent to do is the question. It regards the blowing up of the Canadian company's railway bridge

Havana, Sept. 7.—Lieut-Col. Clews, with 180 men and two machine gans, started this afternoon for the city of Pinar del Rio by special train. A despatch from Clenfuegos, province of San ta Clara, today says that in an engage a chira, outay says that in an engage ment hetween government troops and in-surgents near Palmira yesterday, the former lost two men killed and 14 men wounded, while the insurgents had six men killed and wounded. The despatch adds that more government troops de-serted to the insurgents today from Clean. serted to the insurgents today from Cien

The thanks of the Pres-bytery were conveyed to professor Kil-patrick and Dr. Neil for their recent visits to the Kootenay churches. A resolution was adopted gratefully ac-knowledging the effort made by the leg-islature in the new Lord's Day Act to secure to the people of the dominion the islature in the new Lord's Day Act to secure to the people of the dominion the vast physical benefits of the weekly day of rest and expressing the belief that the securing of it was intimately bound up with the spiritnal and material benefit of the people. hoped that this amendment would be made to it. The moderator reported the progress made in placing the Presbytery and Synod fund on a secure basis and ac-knowledged the responses made by con-gregations to his recent appeal. Drops Support of Campaign Against the Chinese Head Tax and Says no Change is Needed

(Special to The Daily News)

(Special to The Daily News) Victoria, Sept. 7.—Far more convinc-ing to the general public than the den-ial (a summary of which was wired to The Daily News on Friday) published by managing director J. S. H. Matson in the editorial columns on Sunday of the rumor that the Colonist had been acquired by Chinese capital, is a para-graph in an editorial published in the Labor Day issue, dealing with labor is-sues as they present themselves today. It is significant, particularly in view of articles recently appearing in the Col-onist advocating, if not the repeal, at least a material modification of the law prescribing an import tax of \$500 on Chinese immigrants. The paragraph reads:

Chinese immigrants. The paragraph reads: "But we wish to point out that labor which enobles a man ar a nation must be free. There never was, and we ven-ture to say there never will be, perman-ent national greatness, where the labor of the country, or any part of it, was servile in any sense of the word. Some people tell us that we must contemplate the introduction into Canada of a coolle class, made up of races not in sympathy with our institutions and of alien char-acteristics. Against this we enter a pro-test. The advocates of such a condition would establish a line above which a certain class of laborers cannot ascend. But the very essence and spirit of our national progress, the very life of our body politic is that there should be no artificial line drawn between the various departments of habor. A man may start at the bottom, but the road to fine top is clear; he may start at the top; and there is no degradation in his falling to the bactom, if the must is not his. Explanation

at the bottom, but the road to the top is clear; he may start at the top; and there is no degradation in his falling to the bottom, if the fault is not his. So long as he preserves his manhood and his honor, he is at any stage of his prog-ress, whether it is upwards or down-wards in the industrial scale, the equal of his fellows in whatever rank they may be found. Destroy this equality and you destrop the complete circulation, which makes the body politic healthy, and without which there will be stagma-tion and national death. What Canada needs and must have to complete her great destiny is a population composed of workers, whose views of the funda-mental principles of society and citizen-ship are substantially identical, and who are not divided by racial character-istics, which cannot be obliferated, and ought not to be. We may have to put up with temporary inconvenience by a senson of a shortage of such workers, but it will pay socially, morally and na-tionally to wait for them, rather then trais the instincts and traditions of the British race, and which in all times and in all In experiment along lines foreign to the nstincts and traditions of the British vace, and which in all times and in all sountries have led to disaster."

IT JARRED CRANBROOK NILSON'S LACROSSE CHALLENGE EVOKES A HOWL.

DAN ON IMPORTED PLAYERS TOUCHES A SORE SPOT.

In response to manager Desay's la-rouge challenge, issued a few days ago through The Daily News, the Cranbrook Herald says: Now, wouldn't that jar you. The fact is that the above (the chal-lenge, which is quoted in full) is about as big a piece of buncombe as was ever written in the nature of a challenge and

as big a piece of buncombe as was ever written in the nature of a challenge, and on the face of it is enough to prove that Nelson is anxious to win the champion-ship of the Kootenays providing they do not have to play lacrosse for it. Why not go a step farther and limit the players to those actually born with-in the limits of the city which they are representing?

In the inners of the city which they are representing? This would undoubtedly give Nelson the championship, (as their team would have the advantage of Cranbrook by about a dozen years) and it would appear to be the safest plan for them to pursue the other the sampionship.

in order to secure the championship. There is no lacrosse league in the pro-vince that requires longer than 21 days residence to make players sligble and this alone makes it clear that the Nel-

sonites are simply talking for advertising purposes. You only have to be a resident of the

province six months to become a voter, but if you want to play lacrosse with Nelson you must reside here twelve onths

months. Get in the game, Nelson, and if you really wish to play lacrosse let Cran-brook know and a match will be ar-ranged, but cut out such foolish and misleading statements as you have promulgated in the above.

Where did Nelson get its precocious ideas of how (not) to run a. lacrosse
