Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the city. Important' List or loave Nev

A woman who has taken in sewing for a couple of years to support her lazy a couple of years to support her lazy and drunken husband, says it is surprising that the Board of Health has not had her indicted for "maintaining a nuisance,"

that the Board of Health has not had her indicted for "maintaining a nuisance,"

Ostarrh—A New Treatment.

Perhaps the most extraordinary success that has been schleved in modern science has been attained by the Dixon Treatment of Catarrh. Out of 1,000 patients treated during the past six months, fully ninety per cent. have been cund of this stubborn malady. This is none the less startling when it is remembered that not five per cent, of the patients presenting themselves to the regular practitioner are beenefited, while the patient medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the discass is due to the presence of ity ing parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished the catarrh is practically cared, and the permanency is unquestioned, as cure sefficied by him four year, ago are cures still. No one also has ever at tempted to cure catarrh in this manner, and no other treatment has ever cured cetarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the mest favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Resens. A. H. DIXON & SON, & King-street West, Toronto, Canada, and exclose suamp for their treatment instakes his thoughts for

When a man mistakes his thoughts for ersons and things, he is mad. A madmar is properly so defined.

The Voltaio Belt On, of Marshall, Mich., effer to send their celebrated Electro-Voltaio Belt and other illectric Appliances. Volatio Belt and other illectric Appliances on trial for thirty days, to men (roung to old) afflicted with nervous debility, loss of vitality and man-rood, and all kindred troubles. Also for rheumatism, neuralgic paralysis, and man-rother diseases. Complete restoration to health, vigor and man hood guarantood. No risk is incurred a thirty days trial is allowed. Write the trial at allowed. Write the trial is allowed to the form the same for flurtrated membrates from the form.

Flies spy out the wounds, bees the flowgood men the merits, common men the

To gain the public confidence is essential to business success, and it can only be gained by a steady course of faithful dealing with them. It is by this course that Mesars.
Tuckett & Son have secured the great success of their "Myrtle Navy" tobacco. This confidence is not only a source of business to the firm, but also a source of economy which the consumers get the benefit of. The mer chant never losses a moment of time in ex amining the quality of the tobacco. The name fixes the quality as absolutely as the name fixes the quality as absolutely as the mint stamp has the value of the guinea. It is not even necessary for the commercial traveller's trunk to burdened with a sample of "Myrtle Navy," all his enstoners know what it is, and know in an instant when it has been supplied. There is no room for any dispute about it. No waste of time or postage in writing complaints about it. These may look like trillesto the uninitated, but they save money, and enable merchants to perform the work of distribution as the smallest possible cost. They are part of the reasons why the fluest quality of tobacco grown can be sold at spicheap a price.

Scientists now claim that whichy hard-

Scientists now claim that whichy hard-ens the brain. We are not willing to in-dorso this statement, but to tell the argels' truth there are some pretty hard old brains ir this community.

Personal.

This paper makes a practice to examine closely and reject all matters of such a character as could be in any way object tionable to our readers, b t the following, drawing as it does to your notice the name of an article of storling merit, known throughout the land as the only sure and non-poisonous remedy for e ras, is wel-come to a place in our columns. Putnam's Painless Corn Extractor now finds its way to nearly every part of the world, which is in itself a guarantee of its merit. We advise our readers to buy it, and alse to make sure when purchasing to get l'ut-name Painless Corn Extractor. l'o's n & Co., Kingston, propra.
