

seniors should make this affair a pretext for sloping a morning's work.—One word to the wise. You freshmen have handed over a good share of hard-earned cash. Get your money's worth.

We are disappointed at not being able to enter the new Chemistry building this term. We had hoped to make our analyses, this year, in a breathable atmosphere, with a fair share of elbow room. However, unforeseen difficulties have cropped up. Owing to two separate strikes, firstly of the carpenters and secondly of the stone-cutters, operations on the building were suspended for over two months.

"Man proposes, but the labor union disposes."

Medicine.

THE LATE DR. WOOD.

IT is with deep regret that the JOURNAL announces the death of the late Dr. Wood, whose death is so keenly felt by the Queen's Medical Faculty, the University in general, and by many other interests in this city and province.

Isaac Wood was born in Augusta, Grenville County, fifty-seven years ago. He attended the public schools and afterwards Albert College at Belleville. From there Mr. Wood went to Ottawa Normal School and qualified as a public school teacher. He taught in Prescott High School and later in the Kingston Model School.

He later entered Queen's and graduated B.A. in 1884. Following this course with a business training, he went into the Commercial School business in Kingston, which he carried on successfully for some years. But he again entered college,
