GENERAL

Ukrainian Students Club registration will take place in SUB at Booth No. 12 during the next two weeks. If you miss us then come up to room 230 and see us. General meeting Sept. 18 Rm. 142 SUB.

"Anyone that would care to share a moment or a thought with a 25 year old man in prison, it would be received with much joy. I need something positive, something special in my life; people. People who'll help supply my daily dose of sunshine and brighten my days on this planet. I'm reaching out, please take my hand." Jesse Manning #152-511, P.O. Box 57, Marion, Ohio 43302.

classifieds

For Sale: folding sofa $30; B & W TV needs repairs $25; washer/spin dryer $80. Phone 435-8227.

VAC: help out

And for those of you who already have your acts together, the Volunteer Action Centre is looking for volunteers to aid in their fall programs.

The center, at 11011 Jasper Avenue, is asking for volunteer help in children's and young people's programs, Mothers' Day Out activities, art gallery tours, and the Red Cross, among other things.

If you have any time to volunteer, please call the Volunteer Action Centre, 482-6431.

They need your help.

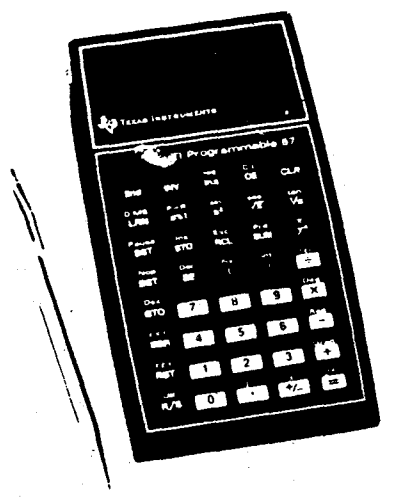
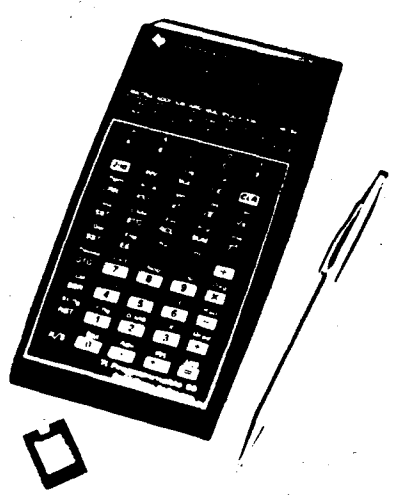
Full Function Professional Calculator. Performs simple arithmetic as well as trigonometric, logarithmic and hyperbolic functions. With roots and powers, factorials, reciprocals, percent and percent change, and linear regression and trend-line analysis. Plus mean, variance, standard deviation and correlation and seven direct-key unit conversions. And three addressable memories with direct memory arithmetic and memory/display exchange.
Algebraic Operating System. Allows complex mathematical expressions to be entered in the same order that they are algebraically stated. Up to nine levels of parentheses. Handles up to five pending operations.
Floating or fixed decimal operation with scientific and engineering notation.

TI Programmable 57



- Powerful program memory stores up to 150 keystrokes.
- AOS™ - TI's unique algebraic operating system - allows you to move into programming left-to-right as problems are usually written.
- 6 different forms of branching make decisions and branch to appropriate program segments automatically without program interruption.
- 2-levels of subroutine eliminate needless keystroke repetition and effectively increase the size of program memory.
- Eight multi-use memories for storing and recalling values, addition, subtraction, multiplication and division of data to memory.
- Nine levels of parentheses and ability to store up to 4 pending operations allow you to handle complex equations quickly and easily.
- 2 conditional loop features for repetitive problem solving.



TI Programmable 58

- 4 types of display testing with an independent to "t" register.
- Up to 10 additional test registers directly available for: Looping. Increment. Decrement.
- Up to 10 user flags available: Set. Reset. Test.
- Up to 6 levels of subroutines available.
- 72 useful labels.
- Extremely flexible addressing of: 3 program steps. 2 data memories.
- 10 user defined label keys.
- Complete program editing: Insert. Delete. Single step. Backstep. No-operation.
- AOS™ algebraic operating system.
- Up to 9 sets of parentheses.
- Over 170 functions and operations in scientific, engineering and statistical fields.
