

CANADA CLUB 26619

109 Seventh Avenue East

CALGARY, ALTA.....193.....

Dear Sir,

We wish to call your attention to the fact that the above Club has recently been formed by a group of the Unemployed with the help of certain business and professional men of Calgary.

The objects of the Club as set forth in the Constitution and application for Incorporation under the Societies Act are as follows:-

- (a) To conduct an Association for the purpose of social enjoyment and the promotion of the material and physical welfare of its Members, including the soliciting of donations of goods, money or services for the help of its unemployed Members.
- (b) To conduct such activities as may be deemed necessary to bring about the re-employment and re-establishment of its unemployed Members.
- (c) To co-operate with any other Club, Association or Organization for the promotion of the objects of the Club.

In addition, might we be permitted to point out that this Club is entirely non-political and is in no way connected with any other unemployed organization as we are simply working along entirely different lines. While certain of our activities will of necessity be for the temporary amelioration of the lot of the unemployed, yet our main endeavours will be directed towards the question of re-establishment.
