

DR. DOW'S STURGEON OIL LINIMENT.

The mere mention of Dr. Dow's Sturgeon Oil Liniment is sufficient to attract attention. The scope of its cures is so wide, it has been so long and so favorably known, its works have been so marvellous, that the public are always interested in hearing of it.

Dr. Dow's Sturgeon Oil Liniment is especially valuable as a counter irritant, drawing pain and inflammation from internal organs to the surface. It also frees the skin from eruptions and other annoying affections. Where the surface of the skin is not broken, as in Rheumatism, Neuralgia, Frost-bites, Chilblains, Burns, Scalds, Erysipelas, Sciatica, Ring-worms, Boils, Felons and the like, it is especially valuable. Thousands testify to its beneficial results.

The Discovery of Dr. Dow's Sturgeon Oil Liniment seems to have been almost an inspiration. It first was used in New Brunswick in the daily practice of Dr. Dow, a well known and popular physician, and its fame rapidly spread throughout the Dominion. Now tens of thousands are benefited by it every year, and the number grows.

What disease is more painful or more common than Rheumatism. Dr. Dow's Sturgeon Oil Liniment has cured tens of thousands of cases. Why should it not relieve yours? It will do it, and quickly. Time and time again, when the patient was racked in pain, this remedy has been applied, and relief came almost immediately.

Dr. Dow's Sturgeon Oil Liniment is not an expensive remedy, costing a little fortune to buy. That is, it is not expensive to the purchaser. But it is full of good qualities. Fortunately, the common diseases are best cured by remedies which are not difficult to collect by the skilful. But their chief virtue lies in the careful compounding of them, in the supplying of the very best qualities of material that can be got. This is precisely the case with Dr. Dow's Sturgeon Oil Liniment. And this is it is that though an inexpensive remedy it is a most effective one. Its formula is one of the most skilful ever devised. It is compounded with the greatest care. Its results are marvellous.

Try it for Neuralgia. The body is racked in pain; you would give all you have, almost, for temporary relief. For a quarter you buy Dr. Dow's Sturgeon Oil Liniment. It is applied and the pain flies. The bottle is put away, with something in it for another time and trouble.

Try it for Rheumatism. Relief comes at once. There is joy where there had been sorrow, and the cost was a trifle. Fortunately, the greatest blessings are the cheapest. If air had to be paid for, most people would suffocate.

Dr. Dow's Sturgeon Oil Liniment is a public blessing, and the best part of it is, its low price. Twenty-five cents for a cure for Rheumatism, Sciatica, Lumbago, Neuralgia, Cramps in the Muscles, Sprains, Bruises, Erysipelas, Burns, Scalds, Boils, Felons, and other troubles. The people recognize the great virtues of this remedy and its merely nominal cost, and buy it in large quantities.

Dr. Dow's Sturgeon Oil Liniment was first used to any large extent by fishermen and lumbermen, who are exposed to greater hardships than probably any other class of people. They found in it immunity from pains and aches. To rub any part that was suffering with Dr. Dow's Sturgeon Oil Liniment was equivalent to a complete relief from pain. Such a wonderful remedy could not long remain unnoticed, and rapidly the knowledge of it spread to all classes. The farmer had to have it; the athlete used it to supple his muscles and joints; a physician who went on his rounds of mercy on cold wintry nights used it himself as well as prescribed it; the lady who caught rheumatism when returning from the post insufficiently clad employed it with advantage. Everybody wanted it, and it costing but twenty-five cents a bottle, everybody could get it.

Dr. Dow's Sturgeon Oil Liniment, while a most admirable remedy for all pains and aches that mankind is heir to, or sometimes takes great pains to adopt, is also a remarkable remedy for horses. Many livery stable-keepers would not be without it. It is the best application for external injuries on animals, and for almost all diseases to which they are

WHEN YOU WANT A GOOD DYE, USE TURKISH.
