

Report on the State of the Denomination.

The object of this Report, as conceived by your Committee, is to gather and put into succinct and convenient form statistical and other general information of the work and progress of the churches; to state what can be learned of their inner spiritual life, which is the necessary condition of abundant and lasting success, and to call attention, either by way of warning or stimulus, to any facts or tendencies which affect the best interests of Christ's Kingdom.

The following is a summary of the most interesting statistics of the progress of our Churches and Sunday Schools :—
