Father Kelly informed those present that they were singularly favored in having Dr. Smith address them, as though he had graduated at St. Michael's College twenty-five years ago and had been back and forth from Cook to Mr. Augustine B. Many Catholics regard the church as themselves, which will continue to exast without any effort on their part. All Catholics are responsible for the credit of the church before the world; all who profess the faith to-day are the Church. Where the Church succeeds it is because the Catholics there are faithful; where the light of the Church becomes dim it is because Catholics there are not willing to sacrifice themselves for their faith.
